GOV. OBARY A LIAR!

Gov. Geary told us in his harangue at the Court House in this place last Fall that negro suffrage WOULD NOT be forced upon the people of Pennsylvania, without their first having the privilege of **DECIDING** at the BALLOT BOX whether they would have it or not. Gov. **Geary LIED** for the purpose of defrauding the people, and he now recommends the ratification of an amendment to the Constitution of the United States, which will force negro suffrage upon this State without giving the people any voice in the matter. -- Sunbury Democrat.

## GERMAN IN THE PUBLIC SCHOOLS

A hill to introduce the study of the German language into the common schools of this State, is now before the Legislature. It provides that

"Whenever in any school, district the parents of twenty five or more pupils of any public school shall certify to the board of school directors of such district, that they desire the German language, it shall be the duty of such directors, without unnecessary delay, to adopt measures for instituting German classes in said school, or for establishing separate schools for that purpose."

It is supposed that the bill will be passed by the Legislature, but that it will apply only to those counties in which the majority of the population speak the German languago.
