GENERAL NEWS OF INDUSTRIES

Real Aims and Purposes of the Anthracite Coal Operators' Association.

DEFINED AT THE GOTHAM MEETING

White Willing to Co-operate with the Large Companies the Association Does Not Propose to Let These Companies Steal a March on Its Individual Members-Other Live News Relating to the Contemporary Industrial Situation.

This is how the Philadelphia Times looks at it: "The independent operators of the anthracite coal trade, known as the Anthracite Coal Operators' Association, held a very largely attended meeting in New York. The organization is new. It was formed for the purpose of protecting the interests of its members. Its membership constitutes almost the entire independent interest. Last year independent operators produced about 10,000,000 tons out of the 45,000,000 tons mined. Heretofore independent operators have always been considered a part of the company over whose lines they ship. They have always been very aggressive and the shipping companies have often found it impossible to prevent them from overproducing and cutting prices. Their organization recognizes that it is better to secure a profit on a smaller tonnage than to put out a large tonnage with little or no profit. With this as a basis they propose to heartily co-operate with the shipping companies. Restriction will be the basis of their plan. They agree not to produce more than their proportionate rate. For example, if the sales agents should put the trade on a 60 per cent. productive basis for the month the independent operators would expect to confine their mining within that limit. While the independent operators' organization will co-operate with the companies, it will also look sharply after the interests of its members, seeing that they obtain all they are justly entitled to in the way of output."

Among those holders of New England securities who signed a petition to the court asking to have Thomas C. Platt made permanent receiver was Russell Sage. The latter has a large interest in the bonds of the company which came into his possession when he and Jay Gould were actively interested in the road. It is not generally known that Mr. Sage continued to hold these bonds, and the fact that he does explains the interest shown by him in Mr. McLeod's plans for the extension of the New England system. Much significance is attached to the fact that Mr. Sage desires the appointment of Mr. Platt for permanent receiver.

Says the Stockholder: "There is no longer reason to doubt that the relations of the Lehigh Valley and Jersey Central railroads have been seriously strained, and the breach is likely to be widened through the present struggle for business. The competition between the two companies must necessarily be sharp, with, however, the result as disastrous to one as to the other. The fight for coal traffic is already on, and indications are that it will continue indefinitely, increasing in severity as the dull period approaches. Aside from the fact that the two roads are natural competitors, the action of the Jersey Central during the recent Lehigh Valley strike has intensified the feeling of dissatisfaction between the companies. That this is true is shown by President Wilbur's annual report, in which he says, referring to the transfer of his road's New York connections from the Jersey Central to the Pennsylvania: "During the strike we found it impossible to continue to run our freight trains between Jersey city and Roselle over the tracks of the Central Railroad of New Jersey. That company first positively declined to furnish pilots for our trains, and subsequently gave us such hesitating and qualified assurance of aid as to be practically of no avail; and although every effort was made by us to put trains over their line between the points named, little could be done owing to the hostility of their employees and the apparent indifference of their operating officers."

Statement of shipments of anthracite coal (approximated) for week ended Jan. 6, 1894, compared with the corresponding period last year:

Table with columns: Region, 1893, 1894, Tons. Rows: Wyoming, Lehigh, Susquehanna, Total.

General Freight and Passenger Agent Herriman of the Beech Creek, says the report that the company has been cutting prices is one which is circulated each calendar year. Sometimes it relates to his company and at other times to other companies. There is absolutely no truth in the report.

The New Haven road has notified the New England that hereafter it will require the prepayment of all freight received from the New England for points on the line of the New Haven road, or in other words, Boston merchants shipping to New Haven points via the New England must prepay all their freight.

MINOR INDUSTRIAL NEWS: The bituminous coal that is used for firing locomotives on the Lehigh Valley railroad is mixed with anthracite-one barrow full of bituminous to three of anthracite. The output of pig iron did not increase in December, but stocks did slightly. The stock capacity of the furnaces is about 100,000 tons, so that in December the country was consuming iron at the rate of about 5,000,000 tons per annum, or something more than half the consumption of 1890 and 1892.

Receiver Payne of the Northern Pacific, says the earnings on the average per day are from 40 to 45 per cent below those of last year. The Allentown Spinning company has announced a reduction of 10 per cent in wages. Over 400 employees are affected. Being unable to procure work and having no fuel to keep himself and family warm, George Kline, a resident of Allentown, on Thursday stole some coal. He was arrested and Alderman McCloskey sent him to jail for ten days.

Davey & Wesley, the well known rock contractors, of Wilkes-Barre, have taken a contract for the sinking of a slope 1,000 feet in length in the interior of No. 5 colliery of the Delaware & Hudson Coal Company at Plymouth. They are now sinking the mammoth Maxwell shaft at Ashley. The wire drawers employed at the Bradock Wire works, at Rankin, were notified that their wages would be cut 33 per cent. They accepted the reduction and returned to work. A year ago they were receiving 75 cents per 100 pounds, and when they

returned to work the first of this month they were reduced to 7 cents. Their wages now will be 5 1/2 cents per 100 pounds. The National Tube works, at Pittsburg, will resume operations next Monday. There are at present about 300 men employed in making repairs and getting things in readiness. When the mills are running full about 6,000 employes will be given work. In thousands of cases the cure of a cough is the prevention of consumption. The surest cough medicine in the world is Dr. Wood's Norway Pine Syrup. Sold by all dealers on a guarantee of satisfaction.

FINANCIAL AND COMMERCIAL

Stocks and Bonds table with columns: Name, Price, Change. Includes Am. Oil, Am. Sugar, Can. S. & S., etc.

PHILADELPHIA, Jan. 12.-Tallow was firmer with a better demand. Prices were: Prime city, in hogheads, 5 1/2c; prime country, in hogheads, 5c; dark, in hogheads, 4 1/2c; cakes, 5 1/2c; grease, 4 1/2c.

Popular Everywhere. Beginning with a small local sale in a retail drug store the business of Hood's Sarsaparilla has steadily increased until there is scarcely a village or hamlet in the United States where it is unknown.

To day Hood's Sarsaparilla stands at the head in the medicinal world, admired in prosperity and envied in merit by thousands of would-be competitors. It has a larger sale than any other medicine before the American public, and probably greater than all other sarsaparillas and blood purifiers combined. Such success proves merit.

For Rheumatism, Lumbago, Neuralgia, Cramp and Colic there is no remedy superior to the genuine Dr. Thomas' Electric Oil.

Any subscriber of The Tribune may secure a book of flour and coal coupons worth \$5 and also save 20 cents on each barrel of flour and 25 cents on each ton of coal.

6% BONDS for SALE To Investors.

THE SCRANTON Axle Works have issued \$75,000 of 6 per cent. Coupon Bonds, interest payable semi-annually. These bonds are to run for ten years, from Nov. 1, 1893. Only a limited amount are offered for sale to investors. These bonds are first mortgage on the entire plant of the company, and are issued for the purpose of enlarging the works. The bonds are of the denominations of \$1,000, \$500 and \$100 each. For further particulars address JNO. M. KEMERER, Pres. Or E. H. RIPPLE, Treasurer, SCRANTON, PA.

"Disfigured For Life"

Is the despairing cry of thousands afflicted with Unsightly skin diseases. Do you realize what this disfiguration means to sensitive souls? It means isolation, seclusion. It is a bar to social and business success. Do you wonder that despair seizes upon these sufferers when Doctors fail, Standard remedies fail, And nostrums prove worse than useless? Skin diseases are most obstinate to cure or even relieve.

It is an easy matter to claim to cure them, but quite another thing to do so. CUTICURA Has earned the right to be called the Skin Specific - Because for years it has met with most remarkable success. There are cases that it cannot cure, but they are few indeed. It is no long-drawn-out expensive experiment. 25c. invested in a cake of CUTICURA SOAP Will prove more convincing than a page of advertisement.

In short, CUTICURA WORKS WONDERS. And its cures are simply marvelous. Now is the time To take CUTICURA. CURES made in WINTER Are permanent.

Sold everywhere. Price, CUTICURA, 25c.; SOAP, 5c.; RESOLVENT, \$1. PUTTER DRUG AND CHEM. CO., Sole Props., Boston. All about the Skin, Scalp, and Hair, mailed free.
