Cure for Headache.

As a remedy for all forms of Headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. We urge all who are afflicted to procure a bottle and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Large bottles only Fifty cents at Matthews Bros.' drug store.

FOR EARACHE, Toothache, Sore Throat, Swelled Neck, and the results of colds and inflammation, use Dr. Thomas' Eclectric Oil—the great pain destroyer. **

GENERAL NEWS OF INDUSTRIES

Comment In Praise of the Lackawanna's Recent Annual Statement.

SAYS IT IS THE BEST YET MADE

The Philadelphia Stockholder Compares It with the Statements of Other Railroads and Draws Some Very Favorable Conclusions—Readable Reminiscence of the Three-Cylinder Switch Engine Used in the Erie and Wyoming Valley's Dunmore Yards—Other Industrial Notes of Current Interest.

It is the opinion of the Philadelphia Stockholder, which cannot be accused of bias in favor of the Lackawanna company, that the "Lackawanna statement for the year 1893 is probably the best one ever issued by the company. In round figures gross earnings increased $2,500,000, while operating expenses increased $2,750,000, so that the net actually shows a decrease of nearly $200,000. This was caused by following out the Lake Shore policy of charging betterments of every kind, including new equipments, to operating expenses. The statement shows 11¼ per cent. earned on the stock, just as Lake Shore shows a fraction over 6 per cent.; but if the Lackawanna followed the custom of other railroads in its bookkeeping it could easily have shown 18 per cent. earned on the stock. Its surplus of a trifle over $18,000,000 is not a book account, but is largely made up of the best securities in the country, which could readily be sold or capitalized. The amount of coal on hand shows a small increase, and liabilities are considerably less than they were in 1892. Lackawanna stock at present prices does not yield much to the investor, but it is the accrued profits for the stock which make it sell high. The remarkable good showing made by the company is due largely to the fact that it continued to enjoy the benefit of the "Reading deal." The Lackawanna went into the natural markets of nearly all the large coal companies, and by shading prices and other methods, secured a large and profitable business. It remains to be seen, now that its policy will be dictated by the Vanderbilt Jersey Central party, whether its returns will be as favorable for the present year."

Writing entertainingly with reference to the little three-cylinder switch engine used in the Erie & Wyoming Valley's Dunmore yards, the Green Ridge Item man recalls this interesting circumstance: "A few years ago when the first passenger train was bought by the company and received at Lackawanna and Bloomsburg junction one of these remarkable little locomotives was used to haul the train and a small officials' car from that place here. The train consisted of coach and baggage car, and when taking into consideration the weight of the engine, which is twelve tons, and the size of the cylinders, 8x12, and the heavy grade, where a large passenger engine can only haul a few cars, it was a wonderful performance. Before the start was made the safety valves were screwed down until a steam pressure of 160 pounds was obtained, and with Superintendent George B Smith at the throttle the train was taken through to Dunmore to the surprise of the old veteran railroaders who witnessed the performance. These locomotives were built for use on the old gravity road and on the patent of the company's president, John B Smith. They have since been engaged for use on standard guage, and today remain to awaken memories of the halcyon day of the old gravity when the whirl of the plane pulley wheels as the steel rope gilded over them, and the metallic rumble of the long lines of coal cars reverberated through the recesses of the Moosic mountains."

The following railway bills are pending at Albany: Raising the death liability from $5,000 to $10,000; compelling steam railroads to equip all freight car roof with an iron guard; forcing railroads to construct the roofs of freight cars so that they will extend over the ends of the cars, and prohibiting street railways from taking more than ten hours' work a day from employes.

These two facts of local interest, are gleaned by "Araspa," the Carbondale Herald's energetic gatherer of railway news, dots and dashes: All cars of the New York, Ontario and Western system reading "Ontario, Carbondale and Scranton," the name under which the Scranton division of that road was chartered, are to be re-marked and stamped to read the same as do all other cars owned by that company. All side tracks on the Ontario and Western between Carbondale and Throop are filled with coal for which a market has yet to be found.

A summons in ejectment was issued Saturday by Prothonotary Degan to Sheriff Woll, of Schuylkill county, to seize on Elisha P. Wilbur, Charles Hartshorne, the Lehigh Valley company and Calvin Pardee, to dispossess them of the York Farm tract, upon which the Lehigh Valley company have erected a breaker known as York Farm colliery and have made improvements costing upwards of $1,000,000. The tract contains 261 acres and 140 perches and is situated at the suburbs of Pottsville, and has proved to be a very valuable coal product. The suit is brought by the heirs of Elizabeth Burke, for whom the property was held in trust by one Mr. Richards. It is claimed that defendants have a defective title.

The aggregate earnings of railroads reporting for January to date is $14,847,135, a decrease compared with last year of 11.1 per cent. A slight improvement from earlier reports are to be noticed. Whether it is due to an enlargement of business, more stable rates or the fact that the open winter has not interrupted traffic as storms and blockades about a year ago did, cannot be determined.

All car shops on the Shamokin and Catawissa division of the Reading closed for several days on account of the shutting down of the collieries, in obedience to orders of restriction, will resume on short time this morning.

On Feb. 1 the New Jersey Central railroad, which has lately made important improvements in its train service, will inaugurate faster time on several trains. The principal changes will be made between Easton and New York.

A dispatch from Hazleton says: "One hundred men, employed by contractors on the Lattimer strippings, have been indefinitely suspended. These are the largest operators of the kind in the Lehigh region, and it is said a further reduction in the force of laborers will be made. The extreme dullness of the coal trade is the cause. Other contractors, it is said, contemplate a similar movement."

MISCELLANEOUS JOTTINGS:

It is said in Media that the offices of the Central division of the Pennsylvania railroad will be moved from that town to Philadelphia when the Broad Street station shall have been completed.

Thomas C. Piatt and M. J. Perry have been appointed permanent receivers of the New England railroad for Rhode Island.

The Somerville Woolen mills gave out a contract to build an 80-foot addition to the mills. The mills have worked on full time during the recent financial crisis and some time ago declared a dividend of 17 per cent.

The works of P. J. Conroy & Co., near Darby, have started up on full time, with an extra force of men.

At the Pettebone mine, Kingston, the gas that comes out of the earth in large quantities along the West Side flats is used in the boilers instead of coal. The boilers are supplied by a 6-inch bore hole from the mine, let in by a 3-inch pipe.

Coal shipments by eighteen reporting collieries in Luzerne county, including those of the Lehigh and Wilkes-Barre Coal company, aggregated 28,072.06 tons. For the year, to date, shipments aggregate 99,439.01 tons.

Baltimore and Ohio officials expect to have their passenger trains all equipped for steam heat by next fall.

FINANCIAL AND COMMERCIAL

Stocks and Bonds.

NEW YORK, Jan. 29.—The week opened with a comparatively quiet condition of affairs today. The sales at the stock exchange were only 184,191 shares. The market was in the main unsettled, owning to advices from Washington that the house would probably pass the Wilson bill, income tax and all, thus keeping sugar on the free list. In the morning the general list held up well, despite a decline of 1⅝ in sugar and New England, 1 in Chicago Gas and 1⅝ in general electric. Other stocks after recording fractional loss improved ⅛ to 1 per cent. Subsequently the rise was checked by a break in sugar and Chicago. The former at the lowest point showed a loss of 2¾. Chicago gas dropped 4 to 64. The stock was in brisk borrowing demand. Lackawanna, which opened strong and sold up to 169¾, later fell to 166½. The other leaping shares yielded ⅜ to 1½ per cent. in sympathy and left off without any important recovery.

The following complete table showing the day's fluctuations in active stocks is supplied and revised daily by LaBar & Fuller, stock brokers, 121 Wyoming avenue:
