Hood's Cures

DR. J. C. HOOD'S Sarsaparilla. "A week devoted to writing would not be sufficient to tell of the good Hood's Sarsaparilla has done me. Seven years ago a running sore appeared on my ankle, which grew worse until it entirely covered my foot and the bones came out of my toes. Then the sores appeared on my arm and hand. Holes were eaten in my lower limb, my arm was one great sore from the shoulder down, and the bones came out of two of my fingers. Words Cannot Tell My Sufferings. I could not sleep and had no appetite. About three years after the first appearance of the disease my husband read of what Hood's Sarsaparilla had done for others, and urged me to try it. I was confined to the bed at the time, had given up all hope. However, I commenced taking the medicine, and before I had finished the bottle, could sleep and not only eat, but enjoy my food. Now I am well."

Sores are All Healed Up with the exception of one spot on my limb. I thank God for having directed my husband's attention to Hood's Sarsaparilla, otherwise I should have been in my grave. I can now move about with the aid of crutches, and will always need their aid, but anyone who had seen my condition when I commenced to take Hood's Sarsaparilla would marvel that I am now alive to move at all." Mrs. MARY SPEAKMAN, 2725 Latona Street, Philadelphia.
