POLITICS IN DUNMORE

There is an Urgent Demand for a Better Administration of Local Affairs.

PROGRESSIVE MEN ARE NAMED

They Will Endeavor to Wrest the Control of the Borough Government from the Patrick Henryites—Sketch of Timothy Burke the Candidate for Burgess on the Reform Ticket—The Other Candidate.

A great struggle in the interests of better borough government is now in progress at Dunmore with excellent prospects that new men and methods will predominate in the management of public affairs after the coming election.

About three years ago the Patrick Henry political organization succeeded in obtaining control of borough affairs and since then has held a vice like grip on the borough. T. J. Duggan became Burgess when the new organization went into power and has remained Burgess ever since.

Those who hold borough offices with him are decided to be fons of progress and advancement, and in consequence there is an urgent demand for a general cleaning out of the present officials by the progressive citizens of the borough who have the advancement of its interests at heart.

Mr. Duggan is again a candidate for Burgess, and on the ticket with him are men of the same calibre as those who now hold office by virtue of being Patrick Henryites.

A SIBYRIAN OPPOSITION.

Opposed to these men a ticket has been placed in nomination which is made up of the best and most representative men of Dunmore. There is every prospect that it will be triumphantly elected and clear, honest government insured for the borough.

The ticket is headed by Timothy Burke, the candidate for Burgess. He is a Republican and one of the solid substantial business men of the borough. Mr. Burke was born of Irish parents at Pontypool, Monmouthshire, South Wales in 1851. After receiving a good general education he came to America in 1885 and two years later settled in Dunmore, where he has continued to reside ever since.

The firm of Burke Bros., of which he is the senior member, has arisen from a small beginning to be the leading firm of general contractors of the county. This position has been gained by their untiring push, business qualifications and integrity.

MR. BURKE'S INTERESTS.

Mr. Burke is greatly interested in Dunmore, having real estate in the borough valued at \$30,000. During the last year the firm of which he is a member paid out in Dunmore for the services of men they employ, over \$30,000.

He takes a particular interest in young men and has been the means of assisting many such to become possessed of trades as stone cutters, skilled stone masons and engineers who but for his kindly interest could not have attained this end.

Mr. Burke, while not a politician in any sense, takes a lively interest in all that pertains to good government, and he elected to the office for which he has been nominated will bring to the fulfillment of its duties the same business qualifications which have characterized him in all his undertakings. He is public spirited and energetic, and at the head of borough affairs would prove of great service to people of Dunmore.

ASSOCIATES OF THE TICKET.

For borough treasurer, the candidate is P. D. Manly, a Democrat and for years one of the leading merchants of Dunmore. Martin Gibbons, another Democrat and a progressive citizen, is the candidate for tax collector, while Michael Chisholm, a Republican, is a candidate for street commissioner. He filled the office before and is known as the best street commissioner the borough ever had.

The other candidates are: Council, M. A. Taylor, Democrat; Henry Weber, Republican; school controller, John Marshall, Republican; P. C. Langan, Democrat; justice of the peace, Philip Carroll, Democrat; auditor, Owen Carroll, Republican.

THE CENTRAL'S NEW SERVICE.

The Buffet Cars Between Scranton and New York Are Very Popular.

The buffet cars of the Central Railroad of New Jersey, running between Scranton, Wilkes-Barre and New York, are elegantly equipped in every respect and the cars are well patronized by the traveling public. A chef and an assistant attend to the wants of passengers. A first class dinner at good as any hotel affords can be had for 75 cents.

The menu is as follows: French bouillon, chicken, beef, lamb, French peas, sweet corn, potatoes, french head lettuce, celery and all kinds of pastry and cakes. There is no doubt that the service will become popular with the traveling public, who will appreciate the efforts of the Central's management for the comfort and convenience thus secured for them while traveling.

CRIBER GOT HIT HARD

His Pet Ordinance Was Not Even Considered by Councilman.

MR. BROWNING'S SUBSTITUTED

And That Gentleman Pointed Out Many Defects in the Other Bill—He Even Used an Editorial of a Scranton Paper in His Argument—Mr. Duhigg and Mr. Robathan Made Sarcastic Speeches.

Common council met in regular session last evening and the only absentee was T. B. Howe, who was in New York. Mr. Grier and his pole tax ordinance got knocked out completely and council by a vote of 42 to 6 decided to give the Browning ordinance the preference. Mr. Grier, who is a well educated man and a fine speaker. The larger portion of her address was devoted to a description of the work of the body she represented in foreign countries and especially in the Orient.

The meeting was opened with a song service, led by Lieutenant Owens, a young lady with a marvellously sweet soprano voice.

Miss Cox, when introduced by Rev. N. P. Stahl, said she wished her audience to understand that on what ever line she spoke there was an underlying motive, that of the power of Jesus Christ, "The Salvation Army," she said, "is composed of simple people who believe in practical Christianity. They are a people that dare believe in the power of God. They are not a college educated set of people, and their ministers are graduates only of the Salvation Army training school.

MARTYRS NOT DEAD YET.

"The Salvationists believe no man or woman is beyond the power of Jesus Christ, no matter how they may have fallen. It is the same power that cleansed the physical leprosy years ago, and it will cleanse the moral leprosy of today. The martyrs are not all dead yet or in heaven either. There is devotion on this earth and I like to see it. I have travelled through Holland, Belgium, Switzerland and France, and I have seen the castle on Lake Geneva where a young Salvation Army lass was imprisoned for 100 days because she taught Christianity, and this was only three years ago. This was a modern martyr. I also had the privilege of spending many small periods in India, in that great heathen country, as you think. I don't think the East Indians are heathens. It is true that they bow down and worship idols, but they are not the only people who do this.

MAN LOVES MONEY.

"There is many a man in Scranton who is an idolater. There is many a man who bows down and worships his gold and silver. When the Lord weighs us in the balance do you think that the idolatry of the simple people will weigh down our idolatry of money?"

When the Salvationists went to India they found that in order to meet the people on a level they must do as the people did. So they walked on the hot sands in their bare feet, ate the food of the country and dispensed with their beds, sleeping on a mat spread on the floor. In this way they made many small personal sacrifices and were amply rewarded by having many converts. This is the same in the work in the big cities. Many are the sacrifices made that are never known.

A good sized collection to aid the work of the man who has devoted his life to the cities of the United States was taken up.

CASES ARGUED YESTERDAY.

Court Asked to Set Aside Inquisition in Dr. Burr Matter.

In argument court yesterday a rule to set aside inquisition in the case of Dr. A. E. Burr was argued. Attorneys Hulslander and Vosburg argued that the inquisition should be set aside for the reason that the Commission in Haverly had not properly charged the jury and had exceeded his functions by entering the room while the jury was deliberating. Ex-Judge Jessup made an argument opposing the setting aside of the inquisition.

An argument for a new trial was made in the case of Mrs. Mary Ann Rose against John Handley. Attorney C. H. Soper argued for the granting of a new trial and Attorney Lemuel American opposed it. Other cases argued were Patrick Burke against Haverly and Weston against American, rule to take off non-suit; John Jermy against T. A. Black, rule to take off non-suit; Benjamin Hawley against James Wilson, rule for a new trial; E. Bassell, Son & Co. against Henry Batten & Co. rule for judgment; City of Scranton against Green Hawley, City of Scranton against Louis Jones, estate, rule for judgment.

Rules were discharged in these cases: City of Scranton against E. F. Boyle, City of Scranton against D. J. Campbell, Thomas F. Mullen against W. H. Whyte.

PERMITS ISSUED IN JANUARY.

Building Inspector John Nelson credits a Bright Season.

"The prospects are very bright in building trades," said Building Inspector John Nelson, in reply to a Tribune reporter's query yesterday afternoon. "We had a very dull fall, but there is lots of work in sight for the season that is approaching."

The permits issued in January aggregated but \$14,000, and are as follows:

PITTMAN WAS VERY CUTE.

Bound to Make the City Support Him in Some Way.

At an early hour yesterday morning the police arrested James Pittman for being drunk and disorderly and breaking a window in the Conway house.

Pittman is the fellow who stated to the police on Wednesday that they might either send him to the county jail or the Poor house, and the officers now think that he purposely broke the window. He was sent to the county jail.

SLUM BRIGADE WORK

Many Personal Sacrifices Made by Members of Salvation Army.

STAFF CAPTAIN COX SPEAKS

The Work of the Army as It is Carried on in the Field Across the Water and a Sketch of Slum Work—Personal Christianity is Needed in All Fields of Labor—Address Full of Interest.

A good sized audience gathered in the Green Ridge Presbyterian church last evening to hear the Staff Captain Blanche H. Cox of the Salvation Army speak. Miss Cox is a well educated woman and a fine speaker. The larger portion of her address was devoted to a description of the work of the body she represented in foreign countries and especially in the Orient.

ANOTHER NEW ROAD

It Will Be Known as the Lackawanna, Catskill Mountain and Boston.

SIMPSON & WATKINS BACK OF IT

Said to Be Nothing in Building the Road with a View to Future Profits, as Other Roads Travel Proposed Route—The New Line May Be Sold After Completion—What Railroad Men Say.

The Wilkes Barre Times last evening said that J. P. Kerr, attorney for the Ontario and Western railroad, is an authority for the statement that Simpson & Watkins, of Scranton, who have lately been pushing their coal interests in various sections of the anthracite regions, are back of the Lackawanna, Catskill Mountain and Boston railroad, the building of which is only delayed by the necessity of securing certain rights of way. Mr. Kerr's statement is verified by a prominent official of the Delaware and Hudson railway, who said to a reporter:

"Simpson & Watkins are the promoters of the scheme. They are large shippers, probably ranking next to Cox Brothers as producers of anthracite. At present the Ontario and Western and Erie handle Simpson & Watkins' tonnage, which amounts to probably 900,000 tons annually. They cannot handle it for any less money than they are getting out of it now, so that really there would be nothing in building the road with an eye to profits afterwards, as a greater part of the route is already traversed by existing lines."

But the road is likely to be built all the same, and Simpson & Watkins will be the construction company. That's where the money will be made. They are shrewd managers and may be able to get some railroad to guarantee the interest on the bonds necessary to build the road, if they can show that the local traffic is likely to be large— which point they are making much of at present. After the road is built I think it will be for sale.

The real trouble between Delhi and Walton will be split in two, the bigger half going to the Ontario and Western. From Delhi to where the new road would cross the Uster and Delaware the new road would have a good local traffic. From Deposit, which is directly north of the northern limit of the anthracite coal fields, about forty miles the new road would get a connection with the Erie, from which it could get its tonnage over the Erie's Jefferson branch and at Walton it could tap the Lackawanna Valley, over the Ontario and Western's Scranton division by a haul of sixty miles. The officers of the Lackawanna, Catskill Mountain and Boston railroad say they are prepared to build an independent line from Deposit to Scranton, a distance of about fifty miles. For thirty miles of that distance the new road would parallel the Ontario and Western and the Delaware and Hudson or Erie, the two latter using the same tracks.

The road from Deposit to Scranton would be a very good one to build, the Ontario and Western's traversing practically the same distance, and their Scranton division cost \$50,000 a mile, or thereabout.

"If Simpson & Watkins had not spent a great deal of money on this scheme little attention would be paid to it, but they have put in a good thousands of dollars, and it looks now as if they were in earnest."

Mr. Torrey, sales agent of the Delaware and Hudson Canal company, said Simpson & Watkins were large shippers of anthracite, and shrewd operators, and it is not strange that they in Scranton they were the promoters of the Lackawanna, Catskill Mountain and Boston. Asked as to the feasibility of another competing line in the Lackawanna valley from the north, he gave it as his opinion that the road would be expensive to build, as the Lackawanna valley at different points is narrow, and already occupied by railroad tracks, but he added that it could be built.

ALMOST TWO DOLLARS FOR ONE.

Remarkable Reduction in Shoes Now Offered by Schank.

The remarkable reduction in the price of boots and shoes of a first class grade now being offered by Schank, the well known shoemaker and dealer, is unprecedented in the history of the legitimate boot and shoe trade in Scranton. Fine first and water sales have repeatedly advertised to sell goods at cost, but they have not done so.

As a matter of fact, there are but few firms in the country that ever do sell goods at exactly cost prices. Schank, the popular Arcade shoe dealer, is one of these few. He is only disposing of his present stock at just what it cost because he must have room for his spring goods. Room' room' room'—more room' is the cry at Schank's, and the only way to get more room is by getting rid of present stock at just what it cost—no more or no less.

BULLET IN HIS BRAIN

Morris Delman, of Emmet Street, Latest Victim of Suicidal Mania.

HAD BEEN ILL FOR SEVEN WEEKS

He Used a Thirty-Eight Calibre American Bulldog Revolver, and the Right Eye Was Completely Gouged Out Where the Ball Entered—Was Blind in One Eye and Gradually Losing Sight in the Other.

Morris Delman, aged 51, of 50 Emmet street, committed suicide last night by putting a 38-calibre bullet through his brain.

Delman was a machinist and had been employed at the Cliff works. For the past seven months he had been out of work, and this, together with a severe attack of the grip, with which he had been suffering for the past seven weeks, is supposed to have been the cause of the rash act.

The family was on the point of retiring for the night and had gone into the basement, leaving Delman alone. While they were down stairs the report of a revolver was heard, and upon investigation Mrs. Delman found the body of her husband lying across the bed. Grasped tightly in the right hand was a 38-calibre bulldog revolver. His right eye was completely gouged out where the bullet had plunged its way into the brain. Delman had been blind in the right eye for years and was gradually losing the sight of his other eye.

TEA AND COFFEE

We would like to call your attention to our Tea and Coffee Department. You may not know it, but it is none the less a fact, that we handle and always have in stock the finest grades of both Tea and Coffee that can be had in this or any other city. We have been doing business direct with one tea importer and one coffee importer for the past twelve years, and our different grades do not vary a particle year in and year out. We now have such a trade on Coffee that enables us to have fresh roasts as often as twice each week, which in itself is quite an advantage, as coffee is never so good as when fresh roasted. Here is a list of our Roasted Coffees and the present prices. When the market drops we go down with it every time.
