GENERAL NEWS OF INDUSTRIES

The Price of Coal Reduced Twenty-five Cents Per Ton in New York.

COXE BROS. TO SUE THE READING

Central Pennsylvania Furnace Operators Relinquish the Mesaba Range Mine-Resumption at the Duquesne Forge Company's Works at Rankin - A Plate Glass Company Will Commence Operations on Monday-Minor Industrial Topics.

A Five-hour Meeting of Representatives of the Anthracite Coal Producing Companies was held in New York Thursday.

Managers of all the leading coal companies were present. Showing a disposition to reduce to \$4 per ton, a cut of 25 cents. Broken coal will be sold for \$3.00, and egg for \$3.75 per ton. The total output for February, 1893, was 3,128,807, but for this month it will not exceed 2,400,000 tons. The restriction this order has been rendered absolutely necessary, partly by reason of the continued mildness of the early winter, and more largely because of the shutting down of many industries in all parts of the country in consequence of the threatened enactment of the Wilson bill. Nearly 30 per cent of the anthracite output is now disposed of to the industries which use the smaller sizes for fuel. This demand has almost entirely ceased, in consequence of the business depression traceable to tariff agitation. Thus, while there is no protected tariff on anthracite coal, none is susceptible of importation at competitive prices the minor in the anthracite region is made to feel the direct effects of Democratic economic policy to the detriment of the truth that no portion of a country, and no industry of a country like our own can be crippled without detriment to other portions and other interests.

The new agreement between the Lehigh Valley Railroad company and the firm of Cox & Bros. will not, it is said, affect the local shipments of Cox & Bros., which will continue to be handled by the Central and Pennsylvania lines. The shipments of coal to the water, which were formerly divided between the Jersey Central and the Lehigh Valley, will now be sent exclusively over the latter line. It is rumored that Cox & Bros. will sue the Reading company for recovery for the breach of the contract terminated by the receiver last summer.

Notices has been posted in the shops of the Reading Railroad company to the effect that during the remainder of this month the shops will be closed on Saturdays. It is said that they will work full time after March 1.

A dispatch from Duluth says: The Ohio Mining company, owning a Mesaba range mine, has taken possession of its mine, which had been leased on a 40-cent per ton royalty to Central Pennsylvania furnace operators. The latter had paid \$105,000 as cash bonus for the lease, and had done over \$30,000 of development work, all which revert to the Ohio company by reason of the default of the Pennsylvania people in mining and paying for an agreed output.

These two announcements of resumption are doctored in the Pittsburgh district: The Duquesne Forge company, at Rankin, resumed operations in part Thursday after an illness of four months. About 150 men are employed. President G. W. Cross, of the Charles Plate Glass company says the plant will be started Monday. He expects the old men will return to work.

R. G. Dun's weekly review of trade tomorrow will say: This has been a week of record breaking. In wheat, in silver, in some forms of iron and steel, in Consolidated coke, and in well known cotton and woolen goods, the lowest prices ever known have been made, and it is gratifying that failures of importance have not resulted. The great fall in wheat had a perceptible influence upon the tone of business generally, and there was less confidence in Wall street, less improvement in manufacturers, and a greater decrease in the volume of payments through clearing houses, which were 24 1/2 per cent less than a year ago outside New York, and 43 1/2 per cent less than a year ago here, notwithstanding general transportation activity. While no action especially affecting business prospects was taken at Washington, the continued discussion of revenue and monetary matters, and the uncertainty regarding them, have a constant unfavorable influence, and in different markets have caused sudden fluctuations in prices.

MEGR INDUSTRIAL NOTES

A plant is being built at Amherst, N. Y., by the Amherst Iron and Steel Co., which will make 12,000,000 bricks a year. Wide fissures have appeared in the earth at Centralia, caused by the settling in old mines. Ironmaster Daniel Mulholland was acquitted at trial at Pittsburgh between a locomotive and a car. Many employes are stockholders in the West Reading Planting Mill company, which has been reorganized with a capital of \$200,000. The heading's coal tonnage for the week ended Feb. 10 increased 91,631 tons. Shipments of Pocahontas coal over the Norfolk and Western Railroad for the week ended Feb. 3 increased 45,972 tons. The Poughkeepsie bridge bondholders are disputing with the reorganization of the Reading before attempting to make a dealer. There has been a sharp advance in English railway stocks during the past thirty days, caused by the fact that not earnings turned out to be better than expected in consequence of the enormous decrease in gross, caused by the coal strike.

NEW YORK PRODUCE MARKET.

New York, Feb. 16.-FLOUR-Market weak, freely offered. WHEAT-Firm, moderately active for export. NICOTINE KNOCKED OUT

No-To-Bag Does the Business and a Tribune Reporter Finds Out How.

FINANCIAL AND COMMERCIAL

Stocks and Bonds. New York, Feb. 16.-There was a decided falling off in business at the Stock exchange today, the sales of the day being only 14,787 shares. The Consolidated Sugar, which was a conspicuous feature yesterday, ceased entirely today and the stock showed considerable fluctuation. This, together with the fact that Burlington declared the regular quarterly dividend of 1 1/4 per cent, led to a general covering movement. The bears for some time past have been laying great stress on this dividend and have extended their lines on the idea that the directors would cut the rate of payment to 1 1/2 per cent, and that together. Even the further break in wheat failed to bring out long stock, and taken altogether the bears had an uncomfortable day. The market closed with gains ranging anywhere from 1/4 to 3/4 per cent, Manhattan being most prominent.

The following composite table shows the day's fluctuations in the principal stock markets: (L. & P. = Lehigh Valley; W. & P. = Western & Pennsylvania; N. Y. = New York; C. & P. = Central & Pennsylvania; R. & P. = Reading & Pennsylvania; A. & P. = Atlantic & Pennsylvania; E. & P. = Erie & Pennsylvania; G. & P. = Great Northern & Pennsylvania; H. & P. = Hudson & Pennsylvania;
