### Legal.

**ESTATE OF WILLIAM W. MANNESS.**  
The city of Scranton, County of Lackawanna, and State of Pennsylvania, do certify that the will of the above named testator, as contained in the foregoing instrument, has been admitted to probate and that the same is now in full force and effect. In testimony whereof, the seal of the county clerk is hereunto set, and the hand of the county clerk is hereunto set, at Scranton, Pa., this 17th day of February, 1894.

### FINANCIAL AND COMMERCIAL.

**Stocks and Bonds.**  
NEW YORK, Feb. 20.—Transactions at the Stock exchange today were only 108,000 shares, and the net changes less than a point. The market for stocks was not important in volume and when the orders had been exhausted the market began to show a falling price. Chicago Gas and Lackawanna, however, were the only stocks that advanced. The latter was the result of a vote by the board of directors. The market for bonds was also not important. The following complete table showing the day's fluctuations in active stocks is supplied and revised daily by Latham & Faler, stock brokers, 121 Wyoming avenue.

### GENERAL NEWS OF INDUSTRIES

#### The Coke Deal with the Valley Will Not Change Coal Percentage.

### THE OLD ALLOTMENT WILL REMAIN

It is Intimated by Some Authorities That if Any Change is to Occur, in This Respect, It Will Be in the Direction of an Increased Allotment to the Lehigh Valley—Various Phases of the Industrial Situation as Briefly Reviewed.

The Philadelphia Stockholder does not believe that the old allotment between Cox Bros. and the Lehigh Valley will lead to an adjustment of anthracite coal percentages. The statement that there will be a consequent change in the allotment by many members of the trade, Cox Bros. and the Lehigh Valley, was a separate allotment by the Lehigh Valley to the Delaware, Susquehanna and Schuylkill railroad, a 63-mile line. They fought for years to get this allotment, and it was only granted to them after they proved that a recognition was necessary to the harmony of the trade. If Cox Bros. were entitled to a separate allotment by the Lehigh Valley to the Delaware, Susquehanna and Schuylkill railroad, they are certainly entitled to a similar allotment now that they had their own coal over the line of these railroads. Again the Lehigh Valley's output, which in 1891 was 17.5 per cent. and in 1892 to 14.5 per cent., and in 1893 to 13.85 per cent. if any change is made in the output of the Lehigh Valley these figures would seem to indicate that it would be an increase instead of a decrease.

New York, Feb. 20.—The annual report of the Delaware and Hudson coal company has just been issued. President Olyphant says: "The coal trade has been an exception to the general depression that has characterized the industries of the country during the year 1893, and more coal has been mined than during any previous year in the anthracite history, while prices, though not high, have been fairly maintained. The total output was 4,498,526 tons. Of this amount the company produced 4,467,740 tons, and transported for others 3,170,310 tons, making a total of 9,177,959 tons. The amount of anthracite carried over the leased lines again records a gratifying gain, but the unprecedented dullness in general trade and the enforced idleness in the iron industry along Lake Champlain during almost the entire year, have so diminished the receipts from those sources that the net result is a small profit. The company reports a credit to the profit and loss account of only \$111,414, as compared with \$277,212 for 1892."

A special from Chicago says: Most of Chicago's soft coal comes from Illinois, Indiana, Ohio and Pennsylvania. Recently attention has been drawn to the coal fields of Kentucky, the claim being made that there are coal fields in Kentucky which produce a better grade of coal than the Ohio and Pennsylvania coal. However little of this Kentucky coal has come to Chicago, although it is no further from the market than the bulk of the Ohio and Pennsylvania product. The Louisville and Nashville and Louisville and New Albany railroads are making an effort to bring this Kentucky coal into Chicago and points north and west of Chicago to compete with the Pennsylvania coal. It is being investigated the claim made by the Kentucky mine owners a party of coal dealers from Chicago, Milwaukee, Minneapolis and St. Paul left last week for White County, Ky. The party is in charge of R. Lee Francis representing the mine owners. Among the firms represented in the party are Chicago, Spelling, Mitchell & Co., Hill Coal company, Newell & Co., Lincoln Fuel company, Gilson & Nichols, Delaware and Hudson Canal Co., H. W. Finch & Co., G. D. Turner & Co., L. E. Overman & Co., W. W. Jackson & Co. and Blofintoff, Luck & Co., Pioneer Fuel company, St. Paul, Pennsylvania Coal company, New York and Chicago, B. Ury & Co., and D. W. Howell & Co. of Milwaukee.

The Whitely soft coal syndicate is booming, notwithstanding the fact that it has lost its free coal claims through the act of President McKinley's brother of the ex-prospector, in his report to the syndicate directors, to Dec. 31, 1893, gives the following facts: Company was organized Feb. 13, 1893, and has mined 89,019 tons of coal, exclusive of the Victoria mine output. Coal shipments increased over preceding year 99,000 tons and prospects for current year are good. Two hundred thousand dollars has been expended on the railroad to Louisville, which is expected to be finished this year, \$150,000 has been spent on plant and mining machinery, and about \$100,000 for 1893 and 1894. The fiscal year of the company is to be changed so as to begin March 1, with annual meeting in June. Treasurer's report shows that 834,019 tons of coal were sold for \$1,189,499, with a net profit of \$361,063. With the profit on production, the net earnings were \$231,451. Expenditures for machinery and 10 per cent. on equipment were written off, leaving a net profit of \$246,700, from which interest, sinking fund and preferred stock dividends were paid, and a balance of \$21,977 carried forward.

### MERCHANDISE NOTES.

Shipments of the Pocahontas coal over the Norfolk and Western railroad for the week ended Feb. 10 increased 30,541 tons. What is thought to be a rich vein of silver ore has been discovered on Jacob Grumbine's land near Lebanon. The Hillside Coal and Iron company have begun sinking a shaft in their Missouri mine to the St. Louis vein, a distance of 400 feet, and sinking 56 degrees to the foot. It is expected that it will be completed by June 1. The Sheridan Iron furnace property at Sheridan, owned by William M. Kaufman & Co., has been transferred to the Sheridan Iron company for \$100,000. The mills of Howland Croft, Sons & Co., of Camden, started up with 300 barrels, which is about one-third the usual force.

Bad drainage causes much sickness and death and improper action of the liver and kidneys is bad drainage to 100 human systems, which Badcock Blood Bitters remedy.

### MUSIC HALL.

Sunday and Monday, Feb. 25 and 26.  
By J. E. REMONDINO.  
Sunday evening 7 o'clock.  
Monday evening 7:30 o'clock.  
Tickets, 50c; good for three lectures. For sale at Powell's.

When baby was sick, we called for Castoria.  
When she was child, she gave for Castoria.  
When she became Miss, she chose for Castoria.  
When she had children, she gave them Castoria.  
M. L. BLAIR, Alderman, Fifth ward, Scranton, Pa., stated Nov. 9, 1893: He had used Dr. Thomas' Electric Oil for gravel, burns, cuts, bruises and rheumatism. Cured every time.

### CONNOLLY & WALLACE

A FEW HINTS FROM OUR Dress Goods Department

Novelties and Fancies in great profusion daily arriving. The Crow's Foot and Shepherd Checks are new and decidedly pretty and neat. See them. Our stock now presents a remarkable offering that will meet with a very ready sale. Ten pieces Scotch Heather Mixed Cheviots, 54 inches wide. 50c. per yard. Worth double. We are showing a great bargain in Huddersfield Biegies, 42 inches wide, at 75c. Never before sold under \$1.00. Some Black Goods SPECIALS. Several pieces of Merino Guipure, formerly sold at \$1.50, now 50c. Five pieces Bedford Cord, forty-eight inches wide, made to sell at \$1.75 per yard. Our price now, 65c. This is a great bargain. Our line of ENGLISH SERGES, 54 inches wide, is, without doubt, the greatest value ever shown in Scranton. Three grades, \$1.00, \$1.12 1/2 and \$1.25. These must be seen to be appreciated.
