PREPARING FOR THE STRUGGLE

Mr. Allison Will Make One More Effort at Obstruction.

SUNDRY APPROPRIATION BILL

The Measure Which Covers the Various Schemes for Disbursing Public Funds--The Bland Seigniorage Bill to Be Again Debated Upon--Hoke Smith's Orders Transferring the Indian Warehouse--Eulogies to Be Delivered on Friday Next.

WASHINGTON, D. C., March 11. OLDFIELD, will give place to silver speech in the senate from its resuming at noon tomorrow until its probable adjournment for the week on Thursday next. Under agreement the Bland seigniorage bill in the form in which it passed the house, with all its alleged crudities unchanged, will come up immediately after the morning hour tomorrow probably about 12:30 p. m. and will hold its place as the unfinished business until Wednesday at 2 p. m. when the vote is to be taken on Mr. Allison's motion to reconsider the vote by which the bill was read the third time and put upon its passage.

That motion failing the motion to commit will be taken upon, and that falling debate is to be continued under the five minute rule until Thursday at 2 o'clock, when the vote is to be taken on the final passage of the bill. Should Mr. Allison's motion prevail, the final vote will be taken at the same time, but the bill would in the meantime be open to amendment.

DISCUSSION WILL BE LIVELY. No senator has given notice of an intention to speak on this bill, but silver coinage is a subject upon which some senators at least are never dumb.

It is altogether unlikely that the finance committee will be able to report the tariff bill to the senate this week, as the members of that committee are all more or less interested in the seigniorage matter, and the great appropriations of the government, not included in the five general departmental appropriation bills and matters pertaining to Indians and rivers and harbors.

It is the omnium gathron of all the odds and ends and is the only bill into which a new appropriation can safely be injected without running the risk of being thrown out on a point of order. The sundry bill for the present session as reported by the committee on appropriations, carries in round figures \$23,906,000, the amount recommended to be appropriated by the committee is \$23,895,300, the amount appropriated for like purposes for the current year was \$31,716,000.

THE IMPORTANT PROVISIONS. Among its new or important provisions are these, that the secretary of the treasury may contract for the whole or any portion of public buildings at Kansas City, Omaha, St. Paul and Sioux City, Ia., that the pay of clerks in the revenue service shall be \$500 a year and one ration a day; that the secretary of war shall employ a veteran who fought in the battle of Chattanooga as the representative of the army of the Tennessee to assist in preparing the historical tablets of that army for the national military park; that the board of managers of the Soldiers' home shall report annually to the secretary of war; that the soldiers' homes shall be visited annually by an officer of the inspector general's department.

Before the week closes the committee on Indian affairs expects to report the appropriation bill balloted to it under the rules. Secretary Hoke Smith has issued an order transferring the Indian warehouse from New York to Chicago, and the northwestern members of the house are desirous of having the warehouse divided between Chicago and Omaha, the former to be the purchasing station and the latter the distributing station.

Friday next has been set apart for eulogies upon the late representative W. H. Enocah, from the Eighth Ohio district.

DEPENDENT DENTIST DIES.

Circumstances Attending His Departure Suggest a Suicide Theory. ORANGE, N. J., March 11.—George O. Mowbray, a dentist, died in the Orange Memorial hospital today under peculiar circumstances. Saturday afternoon he was found in his office in an unconscious condition. He was taken to the hospital and died there without recovering consciousness. The doctors at the hospital diagnosed the case as apoplexy. Many, however, believe the doctor poisoned himself, as he was known to be very dependent.

Mowbray came to Orange from Meadville, Pa., about eight months ago. He had no diploma, but applied to the New Jersey State Dental association for a license. He failed to pass the examination. Because of his poverty he was unable to get gold and tools necessary to make the necessary mechanical demonstration.

Mowbray left a widow and daughter in Meadville.

BLIND MAN SUICIDES.

Suffering from Melancholia, Jacob Smith Shoots Himself. LANCASTER, Pa., March 11.—Jacob Smith, who had been totally blind for several years, shot himself in the head today while suffering from an attack of melancholia, and cannot recover. He was formerly employed in the gas works at Coatesville, his duties there causing him the loss of his sight. A wife and five children survive him.

THE RUSSIAN TREATY.

Vigorous Debates Over the Matter at Berlin--Unlawful Conscriptio of an American Citizen.

BERLIN, March 11.—The debate on the Russian treaty yesterday disappointed the crowded house. It was begun with vigor, but lost interest rapidly after Chancellor Von Caprivi and Freiherr Marschal Von Bieberstein made their short, business-like replies to the attacks of the opposition. The agrarians, in final desperation, threw off all pretense of argument and invoked support to their cause in the name of loyalty to emperor and empire, but their appeals were treated with quiet contempt by the house. During the whole of the debate the titled Prussian land owners had hardly a word to say concerning the harmful influence of the treaty on the grain growing districts. The agrarians should accept a commercial agreement to avert war with Russia, they said, to degrade the empire in the eyes of Europe and to weaken its influence among the powers. Several agrarian speakers pleaded the cause of the Jew baiters, saying that the treaty would afford the Jewish nations further power to prey upon the peasant proprietors. The vote expected the demoralization of the parties. A vote was expected, the conservative, na onal, liberal and clerical leaders did not hold their men together and many voted independently, while others declined to vote at all. Count Herbert Bismarck answered "No" when his name was called. The majority for the treaty is expected to be still larger at the third reading. The United States embassy here has intervened successfully to rescue Siegfried Apt, an American citizen, from the clutches of German militarism. Apt emigrated from Germany to the United States when he was 14 years old. He was naturalized and eight years later returned to Berlin. We had hardly set foot in the city before he was summoned to a recruiting depot, from which he was taken to the barracks and drilled. He protested repeatedly against the right of military authorities to impress him into the service, but for some time his protests were not heeded. Eventually he was allowed to draw up a statement and send it to the United States embassy. Ambassador Kinnoy at once lodged a remonstrance at the foreign office for his immediate release. The next morning Apt was a free man in citizen's clothing.

SCHLAGENHAUF IS SOLID.

He Occupies the Church and Mr. Shambach Holds the Parsonage. YORK, March 11.—Rev. J. Shambach, appointed to the pastorate of Bethlehem church, this city, by the recent Duke conference which met at East Prospect, attempted to enter the church this morning to preach, when the trustees would not allow it, the church being in possession of the Esterhazes. Their pastor, Rev. J. M. Schlagenhaut, officiated in the church, while Mr. Shambach held services in the parsonage. Nothing further will be done, it is said, until the supreme court decides the great evangelical question.

BOYCOTT ON RAT CIGARS.

Workmen Requested to Shun Weed Billed by Non-Union Ligis. MILLVILLE, N. J., March 11.—At the annual meeting of the trade federation, composed of all the labor unions of this city, last night, a resolution was passed to discontinue the sale of non-union made cigars. Delegates from all the labor unions were instructed to have a similar resolution passed by their unions. As many of the dealers in this city have stocks of non-union made cigars on hand, they are considerably worked up over the action of the trade federation.

BRITISH AT BLUEFIELDS.

Their Presence Has a Good Effect Upon Beliegers of Nicaragua.

SAVANNAH, Ga., March 11.—The report of the landing of the British at Bluefields, in the Mosquito reservation, was confirmed today by the arrival of the steamer Elliot, Captain A. Brown at this port. The Elliot, which is a British steamer, left Bluefields Sunday morning, March 4. She arrived there on Feb. 27, just one day too late to witness the arrival of the Nicaraguans at Bluefields. Captain Brown says the Nicaraguans entered Bluefields on Feb. 25 or 26. He did not know their exact numerical strength, but says that there was an armed force of 400 to 500 of them at Bluefields when he arrived. There was no fighting. The Mosquito's were terrified by the presence of so large an armed force and they appealed to the captain of the British warship Tomas for protection. Thursday, March 1, the Tomas, Captain Brown says, without any authority from the British government, as there had not been time to get any such authority, sent between eighty and one hundred men. They were armed with carbines and cutlasses and carried with them two gattling guns and three field pieces. There was no fight of any kind between March 1, the day the men landed, and March 4, the day the Elliot sailed. The Mosquito's were somewhat frightened when the Nicaraguans first entered, but after the landing of the British troops, he says all excitement subsided, and the people seemed willing to rest easy and let things go on as they were until the trouble between the Indians and the Nicaraguans is settled. The Nicaraguans, of course, objected to the landing of the British troops, and charged the officers in charge of the British with an open violation of the Clayton-Bulwer treaty. The Elliot passed the wreck of the old United States corvette Kearsarge on Roncodos Reef last Tuesday morning. She went within about five miles of the Kearsarge, affording an opportunity for a good view of the hull. The captain of the Elliot says there is nothing left of her but the hull. The decks have been swept clean. The masts, rigging, and everything above board are gone. The hull, he says, is in a very dangerous place, but so far as he could see it showed no signs at present of going to pieces.

An Indiana Robber Killed with a Bundle of Powder in His Arms. FRANKFORT, Ind., March 11.—John Rodgers was shot and instantly killed by a member of a party of vigilantes last night (Friday) night Farmer Warren Thompson's house was robbed, and fifteen of the vigilants were detailed to watch Rodgers. They surrounded his home last night and awaited developments. About 11 o'clock Rodgers appeared with the stolen goods. He was called upon to surrender, but drew a revolver and attempted to shoot. Before he could accomplish his purpose, however, a rifle ball struck him in the breast and he fell dead.

TERRORS OF THE VOYAGE.

The Steamer Briscoe Encounters Terrific Weather--The Crew Without Fuel or Food.

ST. JOHNS, N. F., March 11.—At noon today a life-boat was described making for the Cape Race Signal station, which proved to be one belonging to the steamer Briscoe, containing First Mate Mackey and four men in an exhausted condition. They reported the Briscoe lying about sixty miles S. S. W. of Cape Race. They left her at mid-day Friday, but after pulling four hours it was discovered that the compass had gone wrong. After four hours hard work the Briscoe was again sighted. The boat was again launched Saturday morning and from 11 o'clock on that day until their arrival at the signal station today the five men had not a morsel of food to eat. First Mate Mackey makes this statement concerning the Briscoe's voyage: "We left Hamburg on Dec. 8, but were forced to put back to Queenstown for repairs. We left there Jan. 31 and encountered terrific weather. The bridge was gone and the deck houses, etc., destroyed. Nothing was left standing but the two lower masts and funnel. Our supply of coal ran out nineteen days after we left Queenstown. Then we began to use up the furniture and other work for fuel. The steamer Ulunda, which sailed from Halifax February 27 for London, took the Briscoe in tow on Friday, March 2, but left her at 8 o'clock the following morning, after towing us 120 miles. "A new danger now confronts us. The supply of food ran out and the crew were nearly reduced to starvation. There were no provisions on board save a little bread, a small quantity of flour and some peas. The tug Ingraham left here to search for the Briscoe as soon as the above news was received. The coast steamer Virginia Lake also sailed from Tropassey last night and will endeavor to find the disabled steamer. The Briscoe carries a cargo of manure salt. She would have arrived at New York on Feb. 17. She was considered one of the staunchest freight steamers afloat."

Mohn, who was the president of the company, denies the charges.

TO DELIBERATE AT DENVER

The National Republican League to Convene on June 25.

BUSINESS OF THE GATHERING

The Ratio of Representation will Be Six Delegates at Large from Each State, and Four from Each Congressional District--The Gathering to Be One of the Largest of the Kind on Record--A Monster Demonstration on Fourth of July Expected.

CHICAGO, March 11. THE annual convention of the National Republican league will be held in Denver June 25 and continue several days. The day was changed from May to allow of a monster demonstration on the Fourth of July. The call which will be issued tomorrow says that the ratio of representation will be six delegates at large from each state and territory, four from each congressional district and one from each college Republican club in the United States. This gives each state practically ten delegates at large in addition to four from each congressional district. The business of the convention will include the reports of the officers of the league, the election of officers for the ensuing year, the designation or reference of the time and place of meeting of the next national league convention, a general discussion for the good of the party and the league, the adoption of a platform and plan of campaign for the November election, and the consideration of any other questions which the convention may deem proper. The total representation will exceed 2,000 delegates. A large part of the call is devoted to an arrangement of the Democratic party, which is said to have made the public weary of "this tariff-tinkering, bond-issuing, debt-increasing, treasury-pleting, business-paralyzing, wage-reducing, queue-restoring and an American administration."

It is charged that Democratic control and sectional rule and the policies and influences that dominate the party have resulted in starvation for labor and ruin for capital.

LYNCHING AT LITTLE ROCK. A Mulatto Woman Hanging at a Tree Creates Excitement. MEMPHIS, Tenn., March 11.—A special from Little Rock, Ark., says: "The negro population of Little Rock are all excited over a discovery made by several of their number today. This afternoon, while a party of colored people were walking down a public road between this city and Marche, they discovered the form of a mulatto woman hanging to a tree. From surrounding appearances the woman had evidently been lashed. Immediately under her neck was pinned a card upon which was written the words, "Whoever disturbs this body will meet the same fate." The authorities here will commence a thorough investigation tomorrow.

HANDS ACROSS THE SEA. The damage by fire to the steamer Paris will not exceed \$10,000. Germany will build a new ironclad turret ship of the Preussen type, carrying 32 guns. Incriminating letters from priests have been found in the house of Anarchist Tournaire, of Paris. Sir Francis C. Lascelles, British minister at Teheran, has been appointed ambassador to Petersburg. The alleged discovery in the river Seine of the murdered body of Edward Webster, the missing American school boy, proves a canard. A receiver has been appointed for the estate of Lieutenant Hambrugh, for the alleged murder of which Alfred Monson was recently tried at Edinburgh.
