FINANCIAL AND COMMERCIAL

Stocks and Bonds.

NEW YORK, March 13.—While the transactions at the Stock exchange showed a further falling off today, the sales having amounted to 165,300 shares, the market was distinctly stronger. The declaration of the regular dividend by the Manhattan, the action of the Western Union directors in recommending the payment of the regular dividend on the stock, the favorable Missouri Pacific report for 1893, together with the purchase of about ten thousand shares of stock by London, all combined to bring about a better condition of affairs. The improvement in prices ranged from ¼ to 1¾ per cent. Of late the trading has been confined to one particular group of stocks. Today, however, brokers had orders for all the leading issues. The improvement was most pronounced in St. Paul, Northwest, Omaha, Louisville and Nashville, Union Pacific, New York Central, Manhattan and Lead. At the close the prices current were the best for a long time. Net changes show gains of ¼ to 1¾ per cent. Whiskey was an exception and lost ¾.

GENERAL NEWS OF INDUSTRIES

The Pennsylvania Railroad Does Not Object to Competing Trolley Lines.

AT LEAST IT SAYS IT DOES NOT

All That It Insists Upon Is That These Competing Roads Shall Not Cross Its Pathway at a Grade — Some Cheering Signs of Returning Confidence in the Business World—Tom Johnson Gobbles Up a Rival Trolley Line—Various Notes of Industrial Interest.

A dispatch from Harrisburg yesterday to the effect that the Pennsylvania railroad intended to fight to the bitter end the Pennsylvania Traction company which contemplates the construction of a trolley line from Harrisburg to Philadelphia is denied by David W. Sellers, one of the company's solicitors. The Pennsylvania railroad, he says, recognizes the fact that the trolley roads were perfectly legitimate enterprises, and as to opposing their construction on the ground that they came in competition with the steam roads, there is nothing in it. The question which most seriously concerns the Pennsylvania railroad, so far as the construction of trolley roads is concerned, Mr Sellers says and against which decided action will be taken, is the crossing of these roads of the company's tracks at grade. The Pennsylvania has spent many thousands of dollars in getting rid of grade crossings and it would be defeating the purposes of these great expenditures and at the same time would greatly increase the danger of the traveling public, if the trolley lines were now permitted to cross the company's tracks at grade. The Pennsylvania railroad, Mr. Sellers continues, had several trolley lines paralelling its tracks, but none of them cross them at grade, and no opposition on the company's part had been offered to their construction.

It is rumored that an examination for mine foremen will be held early in May.

Signs of returning confidence in manufacturing circles continue. All the departments of the Cambria Iron works at Johnstown, which have been idle, resumed business Tuesday morning. The Johnstown Steel works at the same place also started up after an idleness of three months. About 2,000 men went to work for the two corporations. It is announced that the Braddock Wire works plant at Rankin, near Pittsburg, holds the record since Saturday, turning out more steel than any other single roll rod mill in the world. The record has been held for a number of years by the Joliet, Ill., Wire works, whose rod mill turned out 243 tons of wire rods in twelve hours. The output of the Braddock works for Saturday, a turn of ten hours, from 6 a. m. till 4 p. m. was 254 tons, breaking the record by eleven tons. A big run of steel was made every day last week, which indicates the receipt of large orders.

Pittsburg and western shipments of coke are reported as being about up to the standard, but a considerable increase in business is looked for during the present week. Prices have undergone no chance. Furnace coke is still quoted at $1 a ton, and is selling in many instances at 85 cents. The large operators practically control the market. The prices are too low for the small producers to run their works at a profit, and until furnace coke goes above $1 a ton they will probably remain idle. The West Virginia operators are also being driven from the market. Each week, as their contracts expire in the west and northwest, they are secured for renewal by agents from the Connellsville region.

Judge Simonton filed a long opinion Monday afternoon in which he declined to disturb the judgment heretofore entered in the case involving taxation by the commonwealth of the Lehigh Coal and Navigation company's capital stock for the year 1890 and gives judgment for the state for the whole amount of the claim.

Rumors of price-slashing are again current in anthracite circles. The Philadelphia Stockholder is authority for the statement that any company will sell at $3 85 net for stove, and sales are reported at even lower figures. The sales agents are expected to announce spring prices on the 20th inst., but in view of the apathy of the trade at present it is doubtful whether the demand will improve even though prices are reduced. The western trade is unsatisfactory, both as to demand and prices. The inquiry for pea and buckwheat seems large, but is merely because the companies are mining less of all sizes. Stocks are accumulating at all points.

Orders have been booked whereby the Bethlehem Iron company's steel mill will continue running day and night until the end of the month. The mill has not run more than a fortnight at any time for more than a year. Fifteen hundred hands are employed.

The strike inaugurated ften days ago at the mill of the East Lebanon Iron company, by the puddlers against a reduction in wages, has been declared off and the mill yesterday resumed work. A compromise schedule of wages between $2.50 and $3 per ton for puddlers was agreed upon.

MISOR INDUSTRIAL NOTES:

The Norfolk and Western Railroad company has closed a contract with the Cleveland, Akron and Columbus railroad, whereby the latter secures for a term of years the partial use of the former's terminals at Columbus.

The Lackawanna is spending large sums of money on improvements, especially on the Morris and Essex division, where it is on an extensive scale, raising the roadbeds, reducing grades and gradually doing away with grade crossings.

William Koercher, formerly outside superintendent of the Packer collieries at Lost Creek, has resigned to become general superintendent of the Van Wickle collieries at Milnesville and Colerame.
