LABORERS IN TROUBLE.

Arrested While Tearing Up the Luzerne Avenue Line Yesterday.

The branch which has existed for some time between the West Side authorities and the Wyoming Valley Traction company was opened still more yesterday by the authorities arresting five laborers who were engaged in tearing up the Luzerne avenue line, which was abandoned immediately after its completion last week.

The men had started to work at a point between the bridge and Wyoming avenue, and had barely commenced when they were placed under arrest and taken before Burgess S. B. Bennett, at the town hall.

The judges decided in favor of Miss Lottie Reynolds, who recited her selection in a charming and pleasing manner, and at the close of the entertainment she was presented with the beautiful silver medal.

Rev. J. C. Hogan made a few appropriate remarks upon the cause of temperance. Much credit for the success of the entertainment is due to the untiring efforts of Mrs. Telvington and Miss Ella Fuller.

POINTERS ON THE GRIP.

A Description of the Disease by One Who Has Suffered.

Ever have the grip? I will give you a few pointers. You will imagine you have had a bad cold and you can wear it out, but you need not try it. The grip has fastened its fangs onto you and will not let you go. You have got to give up, so go home and go to bed. In a short time you will feel like the Chicago drummer who took the Kesley cure at Dwight, Ill.

You will feel like an anarchist and want to bomb. You will realize Becher's dream of hell. You will think your head has been removed and an old bee hive with the empty comb left in its place. Your mouth will taste like a pall of sauerkraut. You have the grip. Your pulse is going at 240 gait, and your temperature is away up to 108 or 104 in the shade; while pains of every variety and style shoot through your tired out frame incessantly. Now you get to bed as soon as you can; the enemy must be routed at its first at-

EX-MINISTER TO AUSTRIA.

Hon. John M. Francis One of the Thousands Whom Paine's Celery Compound Has Benefited.

Among the men of international reputation in America no one deserves better of his country than Hon. John M. Francis, ex-minister to Austria. The highest political honors have come to him unought. Pres. Grant appointed him minister to Greece. Pres. Garfield had chosen him for the mission to Belgium. Pres. Arthur appointed him minister to Portugal, and in 1884 he was promoted to be envoy extraordinary and minister plenipotentiary to Austria-Hungary, with a residence at Vienna.

At the last New York state election Mr. Francis was chosen one of the 15 delegates-at-large to the constitutional convention, which is to sit in Albany next summer, and his majority was the largest on the state ticket.

Mr. Francis is conspicuous among the really great editors of today as the founder, editor and proprietor of the Troy Times, which he has made a live, enterprising, clean and popular paper, and one of the ablest and most influential exponents of republicanism in the country. The life and labors of Mr. Francis present one of the most attractive and instructive objects which one can contemplate. Industry, conscientiousness, absolute fidelity to duty, and preference for a high plane of moral conduct have been conspicuous traits of his character. They were the adequate

guarantee of the eminent success that has crowned his efforts, and of the tribute of esteem that is paid to him. Mr. Francis, though he has reached the psalmist's allotted three score and ten, is in excellent health, and mentally vigorous and alert. The first of this year he went to California with his daughter to open a new branch. Before going he requested William B. Wilson, who, under Mr. Francis and his son, Hon. C. S. Francis, is the wide-awake head of the business department of the Times, to say for him to the proprietors of Paine's celery compound. "I have used the medicine moderately and with favorable results."

The expression is characteristic of the dignified and conservative gentleman who, as last fall's vote shows, is in the right sense the most popular citizen of the empire state.

Mr. Wilson himself, writing an unsolicited letter to Welles-Richardson company, says of this wonderful remedy that "makes people well": "For some time past I have been using Paine's celery compound as a nerve and tonic, and have found its effects very beneficial. I have heard and known of its good work among my friends, several saying that they 'could not keep home without it,' and never allow their supply to become exhausted. I shall always stand ready to say a good word for Paine's celery compound, for I honestly believe that it will do all that is claimed for it." Among the thousands of testimonials that come to the proprietors of Paine's celery compound every year, are letters from grateful men and women in every station of life. Little did Dartmouth's great professor realize the greatness of his benefit to mankind when he first prescribed this remedy that makes people well, and in the spring months—March, April, May—is as much superior to all the ordinary tonics, nervine, and sarsaparillas as the diamond is more brilliant than a piece of glass. It is the best spring medicine in the world. It makes people well.

It is the true specific for diseases arising from a debilitated nervous system and impure blood. It is a positive cure for dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. For the latter Paine's celery has succeeded again and again where everything else has failed. The medical journals of this country and Europe have given more space to the many remarkable cases where the use of Paine's celery compound has made people well than to any other one subject.
