GENERAL NEWS OF INDUSTRIES

Anthracite Coal Carrying Companies Said to Receive the Same Rates.

A MEETING OF FREIGHT AGENTS

Will Occur Today in New York, at Which Some Action May Be Taken to Readjust the Tolls to Tidewater, but One Philadelphia Authority Doubts Whether the Percentage Rule Will Prevail—Statistics of Last Week's Output of Anthracite—Other News and Gossip of an Industrial Character.

Apropos of the meeting in New York today of the coal freight agents of the Reading, Lehigh Valley, Pennsylvania, Jersey Central, Lackawanna, Erie and Ontario and Western railroads, and their probable attempt to readjust rates from mines to tidewater, the Philadelphia Stockholder says "There are at present two sets of rates, one based upon 50 per cent. of the selling price of coal at tidewater points, the other a fixed rate of $1.10 per ton to Perth Amboy and $1.75 to Jersey City. The Lackawanna and the Jersey Central operate on the fixed rate, as did also the Lehigh Valley until about two months ago, while the other roads use the 40 per cent. basis. That the two rates were so radically different as to create internal dissensions among the roads may be seen from this illustration. Take coal that sells at $4 a ton at Jersey City. On the 40 per cent. basis the roads that method to obtain its freight rate would receive $1.60 a ton, while the Lackawanna and the Jersey Central received $1.75 for the fixed rate. It is an open question, however, whether the latter did receive this difference. Unwise would be the shipper who would pay 15 cents a ton more for freight over the Jersey Central and the Lackawanna than he could obtain from some other road. Whether the difference was 'squared' at the end of the month by payments of rebates we are unable to say, but certain it is that the shippers over the two roads named would not consent to such manifest discrimination. To make the claim that the $1.75 rate is being obtained by these railroads seem all the more ridiculous, it is only necessary to say that buckwheat coal sells at tidewater at $1.87 per ton, and if the miner and shipper paid $1.75 freight he would have only 10 cents a ton for himself, and no one believes he could mine coal at any such a price. The truth of the matter is, the roads are all receiving about the same rate, though it is obtained by different methods. The result is the same, however, so that all talk about the general adoption of the 40 per cent. rate as a basis entailing enormous losses to the companies is sheer nonsense."

The report of J. M. Lewis, mine inspector for the Fifth anthracite district, for the year 1893, shows that the total number of tons of coal mined was 6,330,063. There were 17,540 persons employed in the mines of the district, and there were fifty-eight fatal accidents and ninety-nine non fatal. As compared with 1892, there were ten more fatal accidents and a decrease of eleven non-fatal accidents. Compared with 1892, there was an increase in the tons of coal mined of 396,343.

The total productions at all of the Hillside Coal and Iron company's works for last year was 925,193 61 tons, and the total number of fatal accidents was ten. The Delaware and Hudson colliery at Vandling produced 146,128 75 tons of coal and there was not one fatal accident. The total coal produced in all the Delaware and Hudson collieries in the first district were 3,152 169 26 tons and the total number of accidents that were fatal was thirteen.

The Reading Railroad company and the Jersey Central have joined the Lehigh Valley in the plan to run less trains over their respective roads on Sunday. It is given out that no work will be done on Sunday that can possibly be avoided. This arrangement will continue in force only during the present dull period.

The surest indication of better times is in the increased shipment of freight over the railroads. Freight traffic is daily growing heavier on the Pennsylvania system. At Walls' transfer the Pennsylvania railroad employes commenced to work over-time last Thursday night. This is the first time for almost a year that the business of the company necessitated such work.

Coke operators are greatly concerned over the action of the workingmen at Scottdale in preparing to organize. A delegate meeting from all parts of the region has been called to meet at Scottdale on March 26.

The Ingersoll Sergeant Drill company, which recently moved its big plant from New York to Easton, has decided to erect another brick structure 100 feet long and 100 feet wide. It will be used for machine work. This will be put in operation as soon as completed, giving work to over 100 new hands.

It is said passenenger trains will be put on the Wilkes-Barre and Eastern railroad on June 1, or about the time the summer cottages are open for the reception of guests.

MINOR INDUSTRIAL NOTES:

The Kensington Rapid Transit Bridge company, of Allegheny, with $2,000 capital, has been chartered at Harrisburg.

The new Reading colliery just authorized by Judge Dallas, will be built by Cramps, and will be named the Lebanon. She will cost $175,000.

The Baldwin Locomotive works has an order for ten heavy freight engines for the Delaware, Susquehanna and Schuylkill Railroad company.

A dispatch from Auburn, N. Y., says: There are evidences of the revival of trade in this city. A train of fifty cars loaded with farm machinery left here this afternoon, bound for the New England states. Three weeks ago a similar train of thirty-one loaded cars went east. More are to follow. Shops are again in operation with a full force of men, and indications point to a prosperous season.

The Lebanon Rolling mills, the last of the Lebanon mills that have been idle since the reduction of puddlers' wages to $2.50, resumed operations in all departments Tuesday. The puddlers yielded.

Edward Ross's large carriage works in Newportville are now compelled to run night and day to supply an exceptional demand.

Operations were resumed at the Chesapeake Nail works at Harrisburg yesterday. The plant has been idle several weeks.

Contractor Crilley has began to construct a trolley railway from Pottsdam to Ringing Rocks, a distance of five miles. The line will be finished in two months.

A director of the Boston and Maine denies there is any truth in rumors of a closer union between that road and the Canadian Pacific. Earnings of the Boston and Maine have improved very materially, February showing an increase over January, and March over February.

FINANCIAL AND COMMERCIAL

Stocks and Bonds.

NEW YORK, March 22.—The approaching holidays and the fate of the seignorage bill has not been decided yet, which facts checked business at the Stock Exchange today. The sales of stocks were only 148,500 shares. The undertone of the market might be called firm, the net changes of the day except in rare instances, showing gains of ¼@¼ per cent., Canada Southern leading, Reading, Burlington, Delaware and Hudson and New Jersey Central, General Electric, Northern Pacific preferred and Western Union, however, declined ½@1¼. The Grangers were relatively stronger than the other issues. In the industrials, Sugar was very inactive. Chicago Gas was heavy. The anthracite coalers were weaker. Reading declined 1½ to 2¾ on Philadelphia stories that the receivers intended to assume a new $6,000,000 liability for subways in the city named. The market closed firm.
