One of the very greatest tests of the great versatility of Wonderland's stock company was made last night, when "Michael Strogoff" was essayed, and right royally did the magnificent company acquit itself. In scenic effects, dramatic interest, comedy, pathos and general ex-cellence, we pronounce this Wonderland's greatest success. Gus Homer, the drama-tizer of the play, did great work is the title role, also as the English correspond-ent; while Misses Fuller, Kemp, Conduit and Willett were at their best. All did well, and there was but the slightest sug-gestion of friction in the running of one of the atrongest drawns on the English the strongest dramas on the English age, and that could surely be and was verlooked by the deligned audience. arry Thorne's scenic work was to the re again and won general admiration.

COMMON COUNCIL.

Last night's session of common council was marked by a sprightly act on the part of Mr. Battle, who moved that they go into the eighth order of business, it being his intention to call up for third and final reading the orlinance providing for the erection of a viaduct over the Delaware, Luckawanns and Western Railroad tracks at

West Lackawanna avenue.

The motion prevailed, but before Mr. Davies could call up his measures, Mr. Battle had the ordinance supplemental to the one providing for the erection of an easterly span to the Luckawanna bridge before the legislators. Everybody laughed and then the ordinance passed third reading, as did Mr. Davies' a few minutes later.

The ordinances providing for the erection of gates on both sides of the Erie and Wyoming Vailey railroad at the point where crossed by the monatain road, and the one prohibiting the erection of sharp pointed picket fences were also passed on third reading.

Quite an amount of concurrent busiess was rushed through the mill, and then the sewers and drains committee reported favorable an ordinance providing for the construction of sewers on Roche court, Ash street and Sp-Ilnan court. The measure passed first and second reading, when conneil adjourned to meet at 9 o'clock Monday morning for purpose of re-organization

easible theory is that he tried to reach the carriage as it was descending, and not being in time vaulted over the gate and on to the roof of the carriage missing his footstep he fell and was hurled against the bumpers in the shaft all the way to the Diamond vein when he tumbled off the carriage to the landing. Men have been known to descend the
