Criticizing a Young Lady. "She would be a pretty girl for but one thing."

Chief Gall, who succeeds Sitting Bull as head of the Sioux nation, led the Indians in the battle that brought defeat and death to Custer.

The chimera would draw big money if it could be captured alive and shown around the country in a circus.

Chief Gall, who succeeds Sitting Bull as head of the Sioux nation, led the Indians in the battle that brought defeat and death to Custer.

The moment many people get out of the common routine of daily life they get bewildered. If they have to go to a bank they feel it hard to manage the instructions.

Chief Gall, who succeeds Sitting Bull as head of the Sioux nation, led the Indians in the battle that brought defeat and death to Custer.

Chief Gall, who succeeds Sitting Bull as head of the Sioux nation, led the Indians in the battle that brought defeat and death to Custer.

READ ABOUT THIS LADY

And the Confidential Secret That She Cheerfully Imparts. IT IS VERY INTERESTING.

There Are Many Persons Who Can Appreciate Her Condition Because They Have Been so Themselves.

On a recent Sunday afternoon the writer gave interested attention to the narration which follows.

"My husband and I have been married," said the lady, "almost nine years. Before my marriage I was often tired, weak, exhausted, and my strength failed me."

"Now to get back to the year 1889, last year, was a long and a done for me. As the warm weather came on I had to get better, but did not."

"At last, by the advice of friends I went to Peekskill where I remained for some time but my friends saw I was growing thinner, and expressed the opinion to one another that I was in a decline."

"Every time I went up to visit my wife," said Mr. Cook, "I could see she was much thinner and more feeble than before, although she didn't like to admit it."

"Well," continued the lady, "I felt that if it were physically possible I must have been in bed, on the 31st of November, they wrapped me up and brought me home, what was left of me, and what there was of me weighed just 95 pounds, 37 pounds less than I weighed in my girlhood."

"On the next day after my return my husband brought me a bottle of pre-digested food, and I said a friend of his had recommended it and I had tested good, nothing like cod liver oil."

"I could eat the old kind of food and they didn't distress me. Then I began to get some strength. At the end of a week, to my surprise and delight, I found I had gained two pounds."

"And so on, gaining two pounds every week. It is eight weeks now, and I weigh 114 pounds, just 16 pounds more than I did when I came home."

"What my husband says, I say," added Mrs. Cook; "anything less would be ingratitude on my part and culpable indifference to the suffering of others."

"What my husband says, I say," added Mrs. Cook; "anything less would be ingratitude on my part and culpable indifference to the suffering of others."

"What my husband says, I say," added Mrs. Cook; "anything less would be ingratitude on my part and culpable indifference to the suffering of others."

The Fashionable Young Man. A young Englishman, who is a member of one of the leading London clubs, has been visiting in New York for several days.

He said in speaking of the fashionable young men of New York: "They have been grossly libelled by the American newspapers. I see that your newspapers accuse these young gentlemen of imitating the English gentlemen and that they pattern their manners after the approved code of the best London clubs. This, I think, is untrue."

"I am sure I never saw any youthful New York swell who resembled in the slightest degree any English gentleman I ever knew. I never have seen one of them who even dresses like one."

"There is an originality about American dress which you never see among Englishmen. We have more conventional standards of dress. There are few of us who would venture to dress in any marked way differing from those with whom we are brought in daily contact."

"It is instantly stops the most excruciating pains, allays inflammation and cures congestion, whether of the Lungs, Stomach, Bowels, or other organs of the human system."

FOR INTERNAL AND EXTERNAL USE. In using medicine to stop pain, we should avoid such a inflict injury on the system. Opium, Morphine, Chloroform, Ether, Cocaine and a liberal stop pain by destroying the sense of perception, the patient losing the power of feeling. This is a most destructive practice. It makes the strychnia, strychnine, and instead of removing trouble, breaks down the stomach, liver and bowels, and is continued in for a length of time, kills the nerves and produces local or general paralysis.

There is no necessity for using these uncertain agents when a positive remedy like RADWAY'S READY RELIEF will stop the pain's excruciating pain quicker, without entailing the least danger, in either infant or adult.

IT INSTANTLY stops the most excruciating pains, allays inflammation and cures congestion, whether of the Lungs, Stomach, Bowels, or other organs of the human system.
