GENERAL NEWS OF INDUSTRIES

Some time ago the Reading Railroad company issued an order for the removal of all the four-wheel black cars used in the coal trade service because of the introduction of the large gondolas. Several hundred of these cars were dumped over the bank between the car shop and machine shop at Palo Alto and consequently burned up. The company has just issued another order on this subject, this time doing away with the ten ton capacity eight-wheel cars. This order is served in pursuance of a law recently passed that all cars in use must be of a uniform height and equipped with patent couplers. There are between three and four thousand of these eight-wheel cars in the coal traffic, and their removal from further service will be a serious loss to the company, which in the near future must be replaced by the larger and more expensive gondola cars.

The Lehigh & Wilkes-Barre Coal company unexpectedly found a vein of coal recently while boring an artesian well near their Yorktown colliery. The quality of the coal is very rich and the vein eight to twelve inches thick. A shaft will be sunk and the vein developed.

A Pottsville dispatch says: The Reading company, which has begun to utilize the culm banks in this region, has decided to extend operations to the East Bear Ridge colliery, which is in operation. The coal taken from it is prepared at the breaker of West Bear Ridge colliery, being conveyed a distance of one and a half miles. The company now proposes to carry the culm from West Bear Ridge and run it through the East Bear Ridge breaker on the three days of each week that the collieries do not work. This will give employment to sixty more men and boys, and will give the company about 400 tons of small coal a week.

The largest press in the world, which is used in the forging department of the Bethlehem Iron company, is employed just now in forging an enormous ring for the Cataract Construction company, of Niagara Falls. The ring weighs 60,000 pounds and was cut from an ingot weighing twice that figure. It was compressed into the required dimensions by the 14,000 ton press as if made of the most malleable material instead of the hardest of steel. The outside diameter of the ring is 141½ inches and it will form part of the machinery used in chaining Niagara Falls.

The Carbondale Leader is authority for the statement that one of the prominent officials of the Carbondale Traction company declares negotiations with General Manager Archer, of the Scranton Traction company, for the purchase of the Carbondale system have ended in failure. Nevertheless, it is still the belief of railway men in this city that the absorption of the Carbondale company by the local company is simply a question of time.

Looking back at a time not more than ten years ago, when Carbondale stood "awe stricken at the suggestion of an electric road, while the mere hint of connecting the small towns of the valley by a street railway would have caused spasms of laughter and derision in the men who had no faith in the enterprise," the esteemed Leader exults in the fact that its enterprising city is today "not only the focus point of a well equipped electric line eight miles long, but three companies are spending hundreds of dollars in a fight to secure merely the sanction of the court to connect Carbondale, Forest City and Crystal Lake. That some corporation will build such a line seems certain, for bona fide work has already begun." The conclusion drawn, and one that applies with equal force to Scrantonians as well, is that "living in this period of the nineteenth century is a privilege scarcely realized or appreciated, so fast do the wonders and discoveries crowd upon one another and become commonplace and common property."

MINOR INDUSTRIAL NOTES:

The new Greenwood breaker, near Tamaqua, will start up this week.

A compulsory car fender law will be introduced at the next session of the Pennsylvania legislature.

The Central Pennsylvania Telphone company will put Wilkes-Barre wires into cables and build a handsome new exchange.

General Superintendent C. D. McKelvey and Second Vice President J. P. Rafferty, of the Wilkes-Barre and Eastern railroad, have just completed a tour of inspection and profess to be highly satisfied.

The Wilkes-Barre and Eastern line opens up handsome new opportunities to trout fishermen.

In a few days the Wilkes-Barre car system will be completed as far as Pittston on the east bank of the Susquehanna.

Coal operators of Luzerne county are urged to adopt the Philadelphia and Reading company's plan of utilizing culm banks.

The furnaces on Breaker Island—a part of the Troy Steel and Iron company's plant—will suspend operations in about two weeks.

It is stated by officials of the Pennsylvania that passenger travel on that road is increasing.

An election of directors of the Jersey Central railroad will occur in Jersey City on May 11.

A meeting of the general managers of Central traffic lines will be held in New York April 25.

Hereafter, Reading engines will not be draped in white, as it interferes with a comprehension of train signals.

Leonard Goodwin, son of the late H. Stanley Goodwin, for many years general superintendent of the Lehigh Valley railroad, has been promoted to the trainmastership of the Pennsylvania, Poughkeepsie and Boston railroad, leased by the Lehigh Valley. Mr. Goodwin was formerly connected with Superintendent Donnelly's office at Easton.

SATURN'S SURLY INTENTIONS.

They Are Viewed at Washington with More or Less Alarm.

Washington News.

At last we understand it. Coxey is not to blame. Tillman is not responsible. Even Waite and Lewelling cannot help startling the country with their brays. Saturn is on a rampage. That is the planet that exercises control over the tollers of the earth, and it is usually, the astronomers tell us, the crank and tramp's best friend. But a few days ago Saturn slipped a cog, so to speak. His trolley ran off, and he is now tearing around in a manner that fills star-gazers with alarm.

The great Professor Cole—C. Cole, to be exact—although fear and fame has made him known to all, says he let loose his Electric Eye recently and was horrified. Saturn was in a terrible mood. He was on the rampage, and Mars seemed half inclined to get a bucket of red paint himself. The professor's prophetic sense enables him to see cycles of calamities for the sons of earth ahead. "Discontent," he tells the Scranton TRIBUNE, "will prevail among the industrial and productive classes. There will be sad lack of harmony between the people and the executive authority. Unusual taxes threaten, and great political discord is certain."

But that is nothing to what will happen in Asia. Kings there will suffer, millions will die of plague and all fruit will rot. We are sorry for Asia, but we have got to look out for ourselves. Something ought to be done to get Saturn in the track again, for the prognostications of the Electric Eye are decidedly unpleasant.

There is little or no opposition to the trolley car among the people generally. What was heard in this way came from those who had some ulterior object in view; others were influenced by that lack of enterprise to be found in a few in every community.

RADWAY'S READY RELIEF.

FOR INTERNAL AND EXTERNAL USE.

In using medicines to stop pain, we should avoid such as inflict injury on the system. Opium, Morphine, Chloroform, Ether, Cocaine and Chloral stop pain by destroying the sense of perception, the patient losing the power of feeling. This is a most destructive practice; it masks the symptoms, shuts up, but instead of removing trouble, breaks down the stomach, liver and bowels, and, if continued in for a length of time, kills the nerves and produces local or general paralysis.

There is no necessity for using these uncertain agents when a positive remedy like RADWAY'S READY RELIEF will stop the most excruciating pain quicker, without entailing the least danger, in either infant or adult.

It instantly stops the most excruciating pains, allays inflammation and cures congestions, whether of the Lungs, Stomach, Bowels, or other glands or mucous membranes.

FOR SPRAINS, BRUISES, BACKACHE, PAIN IN THE CHEST OR SIDES, HEADACHE, TOOTHACHE OR ANY OTHER PAIN, a few applications act like magic, causing the pain to instantly stop.

CURES AND PREVENTS

Colds, Coughs, Sore Throat, Inflammation, Bronchitis, Pneumonia, Asthma, Difficult Breathing, Influenza,

Rheumatism, Neuralgia, Sciatica, Lumbago, Swelling of the Joints, Pains in Back, Chest or Limbs.

The application of the READY RELIEF to the part or parts where the difficulty or pain exists will afford ease and comfort.

DR. G. C. OSGOOD,

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
