PLOT TO BURN D. & H. BREAKER

A Boy Overheard the Plan and Revealed it to the Police.

LEGGETT'S SHAFT IN DANGER

Providence Police Station Is Thrown into a Furor of Excitement and a Large Force of Watchmen is Guarding the Breaker—Mulloey Was Roughly Handled Until He Promised Secrecy—Robbery to Have Been Perpetrated.

The police station at Providence was thrown into a furor of excitement Thursday night by the report that an attempt would be made to burn the Leggett's Creek breaker of the Delaware and Hudson Canal company, and that during the excitement a gang of crooks would burglarize a number of stores in the locality.

The story was started by one James Mulloy, a boy, who claimed he overheard a conversation between two of the gang, who were discovered and afterward roughly handled by the two men until he promised to remain silent.

Up to this time the affair has been known only to the police and the principal parties concerned. The story of the case as told by the boy Mulloy is as follows:

THE DIABOLICAL PLOT. On Thursday evening about 8 o'clock while he was going to his home at the Leggett's Creek shaft from Providence he overheard two men plotting the destruction of the Leggett's Creek breaker in the vicinity. They were sitting under the edge of the bank near the railroad, within 100 yards of the shaft at the time and spoke in a suppressed and whispered tone. They peeped cautiously around, lest anybody might be within hearing distance, and in doing so observed there was an intruder on their privacy. Knowing that their plot was being discovered, they sprang on Mulloy with the ferocity of desperation, knocked him down and kicked him and would evidently have killed him but for the opportune suggestion of one of the ruffians, who intimated that if he (Mulloy) would pledge himself solemnly not to reveal anything he had seen or heard, they would spare his life.

He was glad to give the required assurances and went his way badly used up and just as badly scared.

He went immediately to the residence of Mine Foreman F. E. Rose, and described the matter in detail to Lieutenant Spellman. The lieutenant proceeded to the scene of all the excitement, but could find no trace of the would be incendiaries.

At the shaft all was excitement, and a dozen or so of extra watchmen were carefully guarding the company's property.

Mulloey said the ruffians intended to fire the breaker in several places, and when the crowd would assemble, get in among them and pick their pockets indiscriminately. They figured on every body having money owing to it being payday at the Creek mine. Mulloy said that the two men as being tall and thin, with peculiar broad-rimmed hats of the cowboy pattern. They had their features disguised to such an extent that he couldn't describe them. According to Mulloy, the gang also proposed to rob Providence stores during the excitement.

It is supposed they are members of a gang of toughs that infest Dutch Gap. During the past winter several depredations were committed in the vicinity of Marvins patch. About two months ago William Harrington was held up about 11 o'clock by two foot-pads near the Charles street bridge and \$3 taken from him. About the same time three men, one of whom carried a shotgun, were seen prowling around the residence of Mr. Rose, but were foiled in their evident designs to burglarize by the vigilance of Mr. Rose, who, with the assistance of his father, kept them to flight.

Last night the Delaware and Hudson company renewed their watchfulness at the breaker, notwithstanding the assertion that Mulloy's story has a fishy odor. In fact, it has been suggested that the whole matter is a hoax, perpetrated for the purpose of winning the good graces of the corporation and incidentally securing a job for Mulloy.

On the other hand, the boy may have been honest in his narration, but the victim of the parties who used him in the manner set forth, who told him the story merely to frighten him.

VIOLENCE NOT RELAXED. Last night, however, the vigilance of the police was not relaxed and they propose apprehending the men, whether their intentions were evil or otherwise.

CHICAGO'S ELEPHANT. The Exposition Buildings Go a Begging. Nobody Wants the Lot. CHICAGO, May 4.—All efforts to sell the exposition buildings are a whole having failed. President Donnersberger, of the South Park board, has decided to dispose of them separately or in groups. There are a number of bids for single buildings, and of \$25,000 for the Manufacturers and one or two other buildings.

These are spot cash offers, while bids for all the buildings have been on the installment plan. Goff & Co., who bid \$87,500, have begged off.

BLOODSHED AT SCOTSDALE

The Deputies Fire into an Angry Mob of Female Rioters.

MINE SUPERINTENDENT BEATEN

The Wives of Coke Strikers Make an Assault Upon the Painter Works of the McClure Company—A Shot Fired to Frighten the Women Creates Mischief—Sanford White Fatally Injured—Several Men and Women Among the Wounded, and Others Believed to Have Been Killed.

SCOTSDALE, Pa., May 4. RAID was made by the wives of the coke strikers on the Painter works of the McClure company today. They were repulsed by a number of deputies, who fired on them. Fifteen persons are reported to have been wounded, several fatally.

Mr. White, the mine superintendent, was very badly beaten in the riot and may die.

The riot occurred about 6 o'clock this morning. The company made an effort to start this and other plants of the company yesterday, and today the women living at the plant determined to drive the "black legs" from work. They assembled at with tin pans, clubs, coke forks and brooms marched to the cokeshaft Sanford White, mine superintendent; Ewing B. Roddy, the bookkeeper, and a number of deputies were on guard. A shot was fired to frighten the women. In less than a minute the men living in the houses rushed to the scene. White, dying from the crowd, that numbered 199 persons.

The affray occurred between blocks of ovens, and at the first fire from White and the deputies three men fell wounded. One was shot through both legs and the third in the neck. It is believed the latter is fatally hurt.

The women carried off the wounded and the infuriated men set upon White and Roddy, whom they seemed to regard as responsible for the shooting. Before a sufficient number of deputies could be reached at this point, Sanford White was completely surrounded. He was beaten over the head, knocked down, kicked and bruised about the body. His recovery is doubtful.

The deputies who could use their rifle's continued to do so after the men had joined in the attack. The woman was shot, and it is said to be a fatal wound. Roddy, the bookkeeper, was one of the first to be injured. His wounds are serious.

The physicians of the town were summoned to care for the wounded. White's wounds were dressed and he was sent to Miners' hospital in Conneville.

During the affray a big fire had a man down and was standing over him with an axe, when he was knocked down by James Terr, one of the store clerks. The shooting caused great excitement throughout the entire region.

FIFTEEN STRIKERS GO DOWN. Dr. W. H. Cole, the company physician, states that fifteen strikers went down in three charges. Three men and one woman were carried off the ground quickly, and when the mob finally retreated, they bore away at least ten more. Three of them were left near the works. One of these was shot through the thigh, another through both legs, and the third had a bad wound in the groin.

At 1 o'clock today White was suffering intense agony and his recovery was yet a matter of doubt. Roddy is believed to have been fatally wounded. The affair has caused the most intense excitement here. It is feared the for signers will revenge the death of their countrymen and that this is but the beginning of riots in all parts of the region. It would not be a surprise to the people here should the strikers resort to the use of dynamite to blow up the works.

Superintendent White was taken to the hospital here, and it is thought will not survive. Ewing Roddy was also brought here and cared for. The for signers were carried to the adjoining houses and cared for by Drs. Rogers and Fellers.

Sheriff Richards, of Fayette county, has gone to the scene of battle with forty men armed with Winchester, and has already arrested thirty persons charged with being implicated in the riot. They are now on the way to Uniontown jail.

THE SITUATION ALARMING. CONNEVILLE, Pa., May 4.—The situation is very alarming in this section of the coke region tonight. Mobs are assembling in the Vanderbilt region at the Moyer plant, preparing for an attack tomorrow morning. The formidable display of deputies in those sections last night frightened the strikers and they concluded to wait a more favorable opportunity. Tonight they sounded the tocsin for the reassembling of the mob and the strikers are gathering at the points agreed upon.

The companies have armed a large force of men and are fully prepared to repel any attack. The Dunbar Furnace company will attempt to fire up Hill Farm plant in the morning. Their stock of coke is exhausted and the docks must be fired up or the furnace banked. A large force of armed men will go to the works at midnight. The workmen will go to work at 3 o'clock in the morning, but no trouble is expected before 5 or 6 o'clock. The Dunbar strikers have been the most determined in resisting the attempts of the operators and are sure to make an attack if Hill Farm is fired up.

THIRTEEN ON THE DOCKET.

White Caps Give Alabama People Fair Warning of Their Purposes.

SENATOR QUAY FIGURES UP

His Cold, Convincing Statement Upon the Tariff Issues.

ARE NOT ENJOYED BY DEMOCRATS

Our Own Statesman Produces Statistics to Back His Arguments that Fall with a Dull, Sickening Thud Upon the Ears of Democracy.

MEMBERS FROM THE SOLID SOUTH WANDER AWAY FROM THE SOUND OF HIS VOICE.

WASHINGTON, May 4.—FOR about two and a half hours today there was nothing to be heard in the senate chamber save the monotonous ironing out of columns upon columns of figures calculated by Senator Quay, of Pennsylvania, in illustration of some proposition in his speech against the pending tariff bill, varied occasionally by some remarks of his own or by extracts from newspaper or magazine articles on the subject of the sugar trade. These were rehearsed in the hearing of about a dozen senators, some of them by Mr. Quay himself, and the rest by Mr. Gallinger, who acted as his assistant reader.

As Senator Squire, Washington, thought that there should be more substance in the hearing of these interesting readings, there was a call of the senate, which resulted in gathering a quorum, and over from the coat rooms and committee rooms, but at that point, the Democratic senators seemed to think they had had enough "tariff debates" for the hour, and returned to proceed to executive business was made and agreed to. Earlier in the proceedings the amendments in relation to the income tax which had been agreed upon in the Democratic conference of Thursday were presented, and laid on the table. The senate at 5:30 adjourned until tomorrow.

HOUSE PROCEEDINGS. By steadily pursuing consideration of the river and harbor appropriation bill from the beginning of today's session until an hour or more after the usual hour of adjournment, the house finally disposed of the measure and started it on its way to the senate. A number of changes were made in the items of appropriation, having been agreed to by the committee, but all of the proposed amendments making increased appropriations, save one, were defeated. That was offered by Mr. Ellis (Dem. Ky.) and increased from \$25,000 to \$100,000 the appropriation for improving lock No. 2 on Green river, Kentucky.

Representative Stone (Rep. Penna.) filed the views of four members of the minority of the committee on judiciary as to the status of Section 40 revised statutes, requiring the deduction of members' pay for the time they are absent on account of legislative duty. Mr. Ray (Rep. N. Y.) not agreeing with either the majority or minority, was given leave to present his views Monday.

An evening session was held for consideration of private pension and relief bills, at the conclusion of which the house adjourned until Monday.

COLONEL'S CANVASS ROOMS. Lexington Becomes the Mecca of Cheap Politicians and Correspondents. LEXINGTON, Ky., May 4.—In illustration of Colonel Breckinridge's campaign for renomination for congress, this city is rapidly filling up with politicians and newspaper correspondents. The excitement is intense and there are already signs of serious trouble among the factions.

It was rumored today that Senator Hodge, editor of the Observer, had threatened to hold Editor Moore responsible for any attack his paper contained on Hodge's defense of Breckinridge. Editor Moore had the senator placed under \$500 bonds to keep the peace.

The women of Lexington will be out tomorrow morning with the following: To the voters of the Democratic party. The women of Lexington and Ashland districts protest against the re-nomination of W. C. Breckinridge for congress. As you are the voters, we trust that you will refuse to return him as your representative. By so doing you will best subserve the peace and progress of human society, which, from every quarter, calls for this right and holy act.

(Signed) The Women of Lexington. QUEERED BY A FAKE ITEM. A Solid Banking House is Forced to Suspend Operations. SEDALIA, Mo., May 4.—The First National bank of the city, one of the oldest financial institutions in central Missouri, failed to open its doors for business today. Notice, signed by the officers and directors, was posted. The bank has a capital of \$250,000 and was supposed to have a reserve fund of \$25,000.

The cause of the suspension is attributed to a loss of business brought about by the publication several months ago of a false telegram from this city stating that the bank had failed.

FLASHED FROM THE WIRES. Political meetings in the Harvard College buildings have been forbidden. Alexander E. Orr has been elected president of the New York Chamber of Commerce. Dependency from ill health drove Carson Mendy, a wealthy Baltimorean, to shoot himself. The appearance at Baltimore's City hall of Paul Kartz, a farmer, ill with smallpox, threw city officials into a ferment. On charges of tampering with railroad telegraph wires during a strike at Cedar Rapids, Ia., Grand Master Stramsy was acquitted. The crew of the foundered English steamer Valparaiso, were picked up by the Norwegian bark, Liberte, thirty miles off Nova Scotia. Mrs. Clara Sherwood (who didn't live with her husband) and George (who was drowned while boating on St. John's river, in Florida).

IN THE BUSINESS WORLD.

The Financial Situation as Discussed in Dun & Co.'s Weekly Review.

NEW YORK, May 4.—R. G. Dun & Co.'s weekly review of trade tomorrow will say: It is now, as it has been for nearly a year, the assessment of intelligent observers that the United States suffers a little from reverses which other lands share, but which fall more heavily here than anywhere else. The past week has seen events which would suffice to cause or to explain much disaster, strikes of nearly all bituminous coal miners and coke workers, with numerous riots, strikes of many thousands and men in other employments; stoppage of many manufacturing works in consequence, arrest of traffic on several great railways by lawless proceedings and the tramping of discontented men. In all summing several thousand to-wards the national capital in the hope of controlling legislation.

The lowest price ever known for wheat, and almost the lowest prices ever known for commodities as a whole, exports of over \$5,000,000 in gold instead of products, and the fall in the price of gold reserves, below the \$100,000,000 level, are significant signs of widespread difficulty. Yet the volume of business is but 81.3 per cent. less than a year ago, in some directions signs of improvement appear even now, and the sublime faith of the people in their government is shown in the general belief that strikes and disorders will quickly disappear.

Favoring weather has brought a distinct change in reports as to condition of winter wheat and as to acreage in corn and cotton. It is also important the prices of iron and steel products, notwithstanding in answer to the stoppage of some works through strikes, since it indicates that the recent improvement in the apparent demand was of a substantial character. At Pittsburgh, Chicago, Philadelphia and New York prices have generally fallen 10 to 15 cents. Bessemer pig has advanced 75 cents to \$32.00, and iron and steel and plates and structural iron and steel and wire rods are stronger.

Money markets have not been disturbed by the large outgo of gold, which was taken mainly from the treasury through redemption of notes. Continued flow of unimpaired money into the market is a sign of health, not the outgo of gold instead of wheat at 61 cents, or cotton at 7.31 cents. Exports of products are declining, though in April 9.2 per cent. larger than last year, and the decrease in imports is 33 per cent. The most encouraging sign is the marked decline in the price of firms falling, which were only \$1,48, 14 for the last week of April, and for four weeks \$8,725,708. The failures this week have been 333 in the United States against 361 last year and 35 in Canada against 37 last year.

THE PROPER TRANSIT. Kentucky Coxeyites Start for Washington in a Big Balloon. HARRISBURG, Ky., May 4.—C. Peter Springer, a Mexican veteran, and a coxyer, with half dozen companions, left here last evening for Washington in a balloon to join the Commonwealers.

They took charts, compasses and maps along with them to direct their course. They took six days provisions—light and solid—and will land as the balloon needs refilling and takes fresh starts until the journey is finished.

Springer has secured an experienced aeronaut to pilot them safely to their journey's end, and says he will contribute \$1,000 to Coxy on his arrival at Washington.

ROCCO BALLAT ERIE FREE. Italian Orphan Acquired of the Charge of Abduction. WILKES-BARRE, Pa., May 4.—Rocco Ballatario, the Italian organ grinder, charged with having abducted little Eddy Brotherton, who disappeared from his home in Ashley on January 19, was acquitted by the jury this evening. The trial lasted four days.

IN OUR OWN COMMONWEALTH. Forest fires are doing great damage in Clinton county. Mice nibbled matches in T. Pochowski's store at Reading, and started a \$1,000 fire. Professor H. G. Hunter, who has been principal of the Birdsboro schools for twenty years, has resigned. Veterans of the gallant One Hundred and Twenty-seventh Regiment had a camp fire last night at Steelton.

Attorney General Hensel is preparing 20 state tax cases, which will be tried this month in the supreme court. Nearly 2,000 Polanders paraded at Shenandoah yesterday in honor of the 100th anniversary of the adoption of the Polish constitution. A fending negro attempted to outrage little Maggie Miller in the Pottstown cemetery while she was planting flowers upon the grave of her brother.

Representatives of Christian Endeavor societies of the Presbyterian church of Pennsylvania met yesterday in Harrisburg to effect a better organization.

IT STAGGERED BROWNE.

An Offer of Work Rejected by the Brave Coxyite.

WASHINGTON, May 4.—Dr. G. P. Gehring, of this city, today addressed a note to General Coxy stating that he had sixty acres of land at Columbia park, three and one-half miles from which he wished to have trees and underbrush removed and streets opened up. He offered the park as a camping place and would pay General Coxy \$500 for the use of the army for the desired work, which would take several weeks to accomplish.

The offer was made in good faith and the Commonwealth leader was inclined to accept, but Browne was unwilling to move the camp any farther from Washington, so the offer was declined.

HARDLY WORTH ATTENDING. There Was No Skirt Dance at Moss Fair's Hanging. CHESTER, S. C., May 4.—Moss Fair, colored, was hanged in the jail yard here this morning.

The execution was without any sensational features.

SITUATION AT COKELAND. Large Force of Men Armed to Protect the Works in the Vanderbilt Region. CONNEVILLE, Pa., May 4.—The prompt action of the companies in arming a large force of men at the works in the Vanderbilt region prevented a riot there this morning. The mob that closed down the Fort Hill works yesterday morning remained in camp all night preparing to attack Paoli and Nollie. When they learned that an army of deputies was patrolling the works they concluded to delay the attack and dispersed.

The leaders say the strikers will assemble again as soon as the deputies are withdrawn. The men at Fort Hill, who were forced to work yesterday, returned to work this morning immediately after the mob had dispersed and are now working under protection of fifty Winchester rifles. The formidable display of Winchester at Moyer also discouraged the mob of strikers there as they dispersed at midnight.

At no time since the strike was inaugurated has violence been so imminent as at present. The wholesale excitement contemplated next week, and the attempt by the leading companies to resume tomorrow or Monday, are sure to result in violence. The leading companies say they will abstain unless the Rainey works are closed down tomorrow. The Dunbar Furnace company will try to start at Hill Farm tomorrow morning.

The coke in the yards will not supply the furnaces more than two days and as they are unable to secure coke from the other operators, they must fire up Hill Farm or bank the furnaces. The blowing out of the furnace will entail a loss of several thousand dollars.

The Frick company is working at Southwestern No. 5 and 4, Moorewood, Conited and Valley. Only three or four men are working at the Pennsylvania mines of the Baltimore and Ohio company. Coal is being shipped from West Virginia to supply the passenger engines. The freight traffic is badly crippled.

STRANGED IN A BUNCH. A Loop of Hempen Cord Rescues Jake Brown and His Tills. JEFFERSON CITY, Mo., May 4.—Jake Brown, alias John Coleman and a half dozen other names, was hanged in the jail here this morning at 10 o'clock for the murder of Franklin Macklin, a foreman in the penitentiary.

The condemned man said his right name was John Coleman and that he was born near Memphis, Tenn., about forty years ago.

TEXAS IS BANKRUPT. The Treasury Empty and No Money in Sight to Pay Interest on State Bonds. AUSTIN, May 4.—The treasury of Texas is today without a dollar for the first time in twenty years. Its balance has ranged from \$1,000,000 to \$4,000,000.

Before the end of the year there will be a deficiency of several hundred thousand dollars, and it is doubtful if the state will be able to meet the interest on its bonds, amounting to \$1,000,000.

IMPRISONED 24 HOURS. Theodore Wackley Rescued from Jeddo Mine at Hazleton. HAZLETON, Pa., May 4.—After being imprisoned twenty-four hours in the shaft of No. 2 Highland mine, near Jeddo, Theodore Wackley was reached today by rescuers and brought to the surface uninjured, beyond a few cuts and bruises.

Wackley was a miner and was caught in the shaft yesterday by a fall of coal.

FINLEY'S

The Great Popularity of Our Ladies' Shirt Waists

Proves that they are correct in Style and Quality. They comprise Plain and Fancy Silks, Linens, Cheviots, Wools, Percales, etc.
