

GENERAL NEWS OF INDUSTRIES

Yesterday witnessed the first day of the new contract recently entered into between the Lehigh Valley Railroad company and Cox Bros. & Co., owners of the Delaware, Susquehanna and Schuylkill railroad.

Evidently a hitch has arisen in the proposed plan of Reading reorganization, if this statement by an Olcott committee member is to be relied upon.

The Lehigh and Wilkes-Barre Coal company has decided to reopen the old No. 1 Honey Brook mine. Contractors will start work with 100 men, and will increase the force as the work progresses.

A Lebanon dispatch says: It is probable that a share of the Cornwall ore banks is worth more than a share of any other institution in the country, as was demonstrated a few days ago.

Charles Law, of Pittston, writes to the New York Tribune that the coal famine in the East could be in some measure mitigated by the large consumers mixing two tons of anthracite coal with one ton of bituminous coal, and burning the mixed fuel, and it will not change in the grades. In fact, the mixture up to 75 per cent of bituminous will give much better results than either burned separately.

The feature to railway earnings reported the present week is the Burlington statement for April, and the feature to the latter is an extraordinary reduction in expense, \$610,798.

It costs the Jersey Central 97 cents to haul a ton of coal, and the feature to the latter is an extraordinary reduction in expense, \$610,798.

The record of train accidents in the United States for April shows that there were 104 of which 71 were collisions, 62 derailments and 27 others, in which 25 persons were killed and 88 injured.

in lower Luzerne. It will follow the road for nearly 300 yards, and there will be work for a large number of men during the summer.

Reading officials announce that a temporary bridge across the Susquehanna, at Muncy, to replace the one partially destroyed by the flood, will have been completed today.

According to current rumor a syndicate of Gotham capitalists, including W. C. Whitney, D. O. Mills, H. O. Acton, Wm. Walden, and the Hiramsons, are likely to make a bid for the Reading coal properties, under the name of the National Coal company.

The following directors of the Vulcan Iron works were elected by the stockholders Wednesday: N. Hutter, M. W. Morris, H. H. Hillman, A. J. Davis, Charles Morgan, E. H. Jones, I. A. Stevens, Thomas H. Atherton, Charles P. Hunt, Richard Sharpe, Daniel Edwards.

The "Face of Reason" is one of the most interesting and artistic novels of crime, mystery, occult, mental powers, love, intrigue and adventure that we have ever read.

BRIGHT, PLUMP, ROSY Which is the Condition People Should and May Be.

BUT ALAS! MANY ARE NOT If You Are Not as You Could Wish, It Will Pay You Well to Read the Valuable Truths That Follow.

If you are getting thin you are sick, though you may not know it. If you are losing weight steadily, there is something wrong about you that needs looking to.

You might be fat, and plump, and strong and hearty. You cannot be strong if you're thin. Thinness isn't necessarily a sign of sickness unless you commence to get thin and keep getting thinner.

In a few words, getting fat consists in eating proper food, food that contains the proper nourishment, food that digests easily.

The albumen used in our body for the repair of worn out tissue, of which a small portion goes to waste every day.

Starchy foods are generally more easily digested than oily foods hence are better for people who wish to get fat. If people are to eat fat they should eat starchy foods.

Most people eat enough in their daily meals to become fat, but the fattening food is not digested. It merely passes through the system.

Bad digestion can be cured, the consumption can gain flesh and strength, and this will help the doctor cure the disease.

Butter - M. Gerately's active, steady state dairy, 12 1/2c; do, creamery, 14c; western dairy, 15c; do, creamery, 16c; do, factory, 17c; eggs, 17c; imitation creamery, 18c.
