GENERAL DOW IS HONORED

Father of Prohibition Receives an Enthusiastic Reception at Station Island.

GOVERNOR TILLMAN IS PRESENT

Ten Thousand Enthusiastic Admirers Welcome the Veteran Temperance Worker at the International Temperance Congress--Stirring Address by Joseph Cook--Neal Dow Gives a History of Prohibition.

PROHIBITION PARKS, L. N. Y., June 3

GENERAL NEAL DOW, the father of Prohibition, was greeted by 10,000 enthusiastic admirers at the international temperance congress which opened here today. He occupied an arm chair at the right of the presiding officer during the morning, afternoon and evening sessions, and showed by his quick appreciation of the points of the speakers that his mind is undimmed by the ninety years that have passed.

Prominent speakers at the prohibition workers from many states and from abroad were present. Governor Tillman, of South Carolina, arrived during the afternoon session and was given a seat on the platform immediately behind two Catholic priests.

At the morning session William T. Wardwell, of New York, presided. The Rev. D. S. Gregory, D. D., led the devotional services. Col. Alexander B. Bacon, president of the Sunday Observance society of Brooklyn, delivered the address of welcome. Addresses congratulating Neal Dow on his passing the nineteenth milestone were made by Aaron M. Howell, editor of the National Temperance Advocate; Samuel Dickie, chairman of the National Prohibition party; Susan E. Fessenden, and Miss Ellen J. Phinny, of the Women's Christian Temperance union; Hon. Samuel D. Hastings, of Wisconsin; and C. A. Everett, of St. John, N. B. Neal Dow made a brief response telling how thoroughly he appreciated the kind words of his friends and encouragement they gave him in the work of his life.

AFTERNOON SESSION.

General Wagar Swaine presided at the afternoon session. The Rev. Father Miles, of Poughkeepsie, N. Y., who came to take the place of Dr. McGlynn, who is ill, was the first speaker. He was followed by Joseph Cook, of Boston, and of international renown as a lecturer on temperance. Dr. Cook, who is large of frame, large of voice, emphatic in utterance, said in part: "The house of lords, Mr. Gladstone says, must be ended or mended. The liquor traffic, this convention says must be ended because it cannot be mended. My conviction is that this will be the keynote of the twentieth century. The work of Neal Dow has led to this. He has fought a good fight, and even at 90 years of age, he has not run his course. The truth that Maine has been transformed and transferred through the work of Neal Dow travels slowly, but the lie that the Maine liquor law is a failure travels with seven league boots."

Mr. Rev. Dr. B. D. Tyler, of New York, read the address of his friend, General Neal Dow. It was signed by the heads of Prohibition and temperance movements of this country and Canada.

NEAL DOW'S ADDRESS.

General Dow said: "I don't feel that I have accomplished anything that entitles me to the honor which is done me to-day. No words can express the gratitude I feel for what has been said and done here. But perhaps it was best that I should tell of some of the work that has been done and the importance of the work yet to be done. There is no question before the people of this country or of any country so great as the liquor question, yet strange as it may seem there are many prominent men, many men of enlightenment, education and understanding who know nothing about the work of Prohibition. I was once handed a slip from a newspaper which announced that Goldwin Smith had said that prohibition was a failure in Maine. My reply to that was that I hoped Goldwin Smith did not make such a statement, for the reason that it is not true.

So far from being a failure in Maine, prohibition has been a great success. At one time we had a great many breweries and distilleries in Maine. There is not one now, and there has not been one in many years. At one time cargoes of Jamaica rum were imported into the state. There is none now. It is true that liquor, in small quantities, is smuggled over the boundary. But liquor is not openly sold, and there is not one hundredth part of the consumption in the state as before the law passed. A remedy for consumption that will cure ninety-nine cases in a hundred cannot be called a failure. [Applause.] An entire generation has grown up among three-quarters of our people, and has not seen a grog shop nor a drunken man."

Speaking of other states, he said that great progress had been made and there are many places where no liquor is sold owing to local option laws. Continuing, he said: "The liquor traffic has existed for fifty years by permission of Christian churches. Their members are masters of the situation. When they say 'Go and vote,' the saloon will go." [Applause.]

AT THE EVENING SESSION GENERAL THOMAS D. JAMES, OF NEW YORK, PRESIDED.

There were addresses by Alexander Russell Webb of the Mohammedan church, and Father Murphy, of the Roman Catholic Church of Canada.

JUMPED FROM THE ROOF.

Trying to Escape Death in One Form Sadie Peisner Meets It in Another.

New York, June 3.—A fire, caused by the upsetting of an oil stove, occurred this evening in the rear tenement at No. 83 Goerck street. The building is one of those in the overcrowded tenement district of the

IN REGARD TO LABOR'S WAR

The Situation at Chicago, Illinois, is Not Improving Very Rapidly.

GOVERNOR WAITE ON THE SCENE

He Desires to Quell the Disturbance Without the Aid of the Troops--Indiana National Guardsmen Quell the Trouble at Cannellsburg--Strikers Burn a Bridge--Bloodshed Feared at Punksutawney--Notes of the Strike Elsewhere.

DEVELOPMENTS

DENVER, Col., June 3.—The coal miners' situation that appeared so serious on Friday night seems to be perfectly settled. Yesterday through the efforts of citizens, the mine owners and a strikers' committee held a protracted conference, during which they came to an agreement. The mine owners agreed to allow a check-weighman to be paid by the men, placed at each shaft, and to pay the present high wages if the price of mining was not lowered at other places. The men agreed to return to work at the River and Home mines, which are now closed, and start in full Monday.

THE BRIDGEPORT SITUATION.

BRIDGEPORT, O., June 3.—Fifteen hundred strikers assembled at Wheeling Creek mines today to stop coal trains, but none were run. The railroad company hopes that President McBride will disperse the strikers tomorrow. Sheriff Scott said this afternoon that he had secured the force of deputies he needed, but unless actual trouble results tomorrow he will not ask for the militia.

ABOUT 500 STRIKERS YESTERDAY MARCHED ON THE LINE OF THE CLEVELAND, LORRAINE AND WHEELING RAILROAD.

Two trains loaded with West Virginia coal were stopped and sidetracked. Later they were allowed to be moved here. Passenger or mail trains were not interfered with. The sheriff's appeal was jeered and he threatened to call the militia.

THE RAILWAY COMPANY SAYS IT WILL RUN TRAINS TOMORROW.

The miners are still in possession of the road at the mines.

JOHNSTOWN, Pa., June 3.—Company H, Fifth regiment, Lieutenant A. J. Murphy in command, is being held in readiness for quick movement in case the troops are ordered out to do duty in the coke regions.

BATTLE AT CRIPPLE CREEK.

COLORADO SPRINGS, Col., June 3.—The sheriff continues making preparations for the battle with the striking miners at Cripple Creek, which will undoubtedly take place in a few days. Another train load of deputies was started for the front about 3 o'clock this morning and two companies of cavalry followed later.

A large supply of ammunition and army rations and camp equipment will go forward tomorrow night. Officers were out today recruiting men for a company whose duty will be to accompany and protect the supply train. One of the cavalry companies is composed of some of the wealthiest mine and land owners of the city. The expenditure of last night has somewhat subsided, but still grieves.

EVANS, Ia., June 3.—The big barbecue of the striking miners this afternoon was a dismal failure, only 150 miners being here. President J. T. Clarkson and other leaders have left the county to escape arrest, and the strikers have split up into small squads.

It is probable that the troops will be withdrawn tomorrow. The operators think that as soon as the soldiers leave the miners will again assemble and cause trouble.

MINERS ACCEPT AN OFFER.

ALLIANCE, O., June 3.—After a long meeting of the coal miners of this city they decided to accept the operators' terms of \$1.03 for mining and return to work tomorrow morning. Three large mines near the city limits will be started by this decision and a famine in this city will be averted.

DEMOCRACY'S DATES.

June 15, at which date Democrats have said the bill would pass, is not very distant, but there seems little chance of a final vote by that time. It can be said with absolute certainty that the sugar schedule will not be dropped until the Republicans have an opportunity to discuss the testimony taken by the investigating committee.

There is another matter that will tend to prolong the debate about which nothing has hitherto been said, but which will probably come to the front very soon. An amendment to the bill has been prepared and will be introduced, probably this week, which provides for the repeal of the 10 per cent state bank tax. It is argued that such an amendment would be quite as pertinent to a tariff bill as the income tax sections, especially as the repeal of this tax was one of the Democratic platform pledges.

The sub committee of the finance committee has been looking over the situation lately and will shortly bring in a number of additional amendments. Among these is one putting a specific duty on imported Hungarian works satisfactory to both the American lithographer and the importer, as agreed upon by a delegation that appeared before the committee.

Another important matter is the proposed change which the committee has in view of going back to the house provision fixing the duty on imported tobacco and cigars.

GASOLINE ACCIDENT.

A Workman at Lancaster Literally Bathed in Fire. LANCASTER, Pa., June 3.—A serious accident occurred today at the City Pumping station, where a new main was being laid. Charles Cannon was operating a gasoline machine several feet below the surface melting the joints of the pipe, when the hose burst and a blinding fluid was thrown over him.

HE SCRAMBLED TO THE SURFACE, COVERED WITH flames, ran to a near stream and succeeded in extinguishing the fire. He was very badly burned about the body, but it is believed his injuries will not result seriously.

DEATH OF DR. PASSAVANT.

The Distinguished Physician Expires from the Effects of a Severe Cold. PITTSBURGH, Pa., June 3.—Dr. W. A. Passavant died tonight at his home on Centre avenue. Ten days ago he contracted a severe cold. Death was caused by a complication of troubles arising from this cause.

Dr. Passavant was 73 years of age and one of the best known and most prominent men in the United States. He was the founder of hospitals in Chicago, Milwaukee, Jacksonville, Illinois, and not yet 10, was admitted to the First Dragon guards at Potsdam.

OUR FRIENDS ACROSS THE SEA.

The cabinet of Uruguay is on the point of dissolution. The latest gossip sets the dissolution of parliament for August. The annual English military tourney is rounding great enthusiasm in London. Red-bagged students paraded the streets at Palermo, shouting demands for the release of the Socialist Deputy De Felice.

Spain has forbidden the admission of German goods into the country by means of certificates of origin from other nations. Large contributions from America and Australia will enable the McCarbryites to remain continuously in the British parliament.

Because of the death of Matador Espartaco in a bull fight, Spanish Carlists and Australia will enable the McCarbryites to remain continuously in the British parliament.

With private ceremonies, Prince Adalbert, the third son of Emperor William, and not yet 10, was admitted to the First Dragon guards at Potsdam.

THE TINKERS ARE AGITATED

Prospects That the Tariff Measure Will Be Killed by Democrats.

FEATURES THAT MAY PROVE FATAL

The End of the Tariff Debate is Not in Sight--Republican Leaders Insist That the Sugar Investigation Be Completed Before a Vote is Taken. Populists, Republicans and Dissatisfied Democrats May Form a Majority Against the Wilson Document.

WASHINGTON, D. C., June 3.

TWO months of tariff debate have passed in the senate and the end is not yet within sight. Republican senators stated ten days ago that the close of the present week would find the sugar schedule still undisposed of. The course of events in connection with the facts elicited by the sugar trust investigation of the special committee as far as that investigation has proceeded, and the facts which it is expected would be developed in the further sessions of that committee make it possible that this threat may be verified. Some of the leaders on the Republican side insist that the vote cannot with decency be taken on the sugar schedule until the investigation into the allegations of improper influence being used to secure the adoption of that schedule have been disposed of.

Several of the Populist senators, and also Mr. Hill, are on record as favoring this view. Their forces, added to the united Republican strength will form a phalanx dangerously near a majority, provided there should be one or two Democratic absences on the critical roll call, and it is hinted there may be. These same forces--the solid Republican vote and the Populists, or the most of them--it is expected will rally to the support of Mr. Manderson's proposed amendment to retain the bounty on domestic sugar instead of laying an increased tax on the imported product.

LOUISIANA THE BALANCE OF POWER.

The suggestion is made that the vote on this amendment may be so close that the odds of defeating it will be thrown on the two Louisiana senators whose state is the chief beneficiary of the bounty.

The tactics pursued by the Republicans last week were successful in drawing out a number of Democratic senators, and it is understood, the same policy will be continued this week with the hope that Democrats will be compelled to participate in the debate.

If Mr. Manderson's amendment for a bounty should be voted down in committee of the whole, it is quite likely that the sugar schedule of the committee will be adopted pro forma in committee the Republicans of course, reserving their rights for a ye and nay vote when the bill comes in the open senate. Even should the vote be taken on a motion to put sugar on the free list, it is understood the Republicans, at present, would not permit the proposition to get the full strength of the vote that could be given if it were.

TWO BOYS DROWNED.

Bathing in Conestoga Creek They Went Beyond Their Depth. LANCASTER, Pa., June 3.—The saddest drowning accident of the year occurred this evening in the Conestoga creek, at a point called Lamparter's Meadow. James and Willie Stock, aged 8 and 9 years respectively, were bathing in the stream with a party of companions, when James got beyond his depth, and being unable to swim was carried away by the current. His brave little brother attempted his rescue, but was unsuccessful, and he was drowned within a few feet of where James went down.

Both bodies were recovered soon afterward. The boys were sons of Frederick Stock, a coachman for a wealthy family here.

DISASTROUS CONFLAGRATION.

Fifteen Business Houses and Twenty Residences Destroyed. OTTUMWA, Iowa, June 3.—Fifteen business houses and twenty residences in this city were destroyed by fire today. Five blocks are a mass of blackened ruins. But the worst part of the conflagration was the death of a boy, the fatal injury by smoke of one man, and the serious injury of three others.

For four hours the fire raged fiercely and even tonight all danger has not passed on account of the smoldering embers. The loss is estimated at \$223,000 and the insurance about one-third. A spark from a locomotive is supposed to have started the blaze.

HIGH CHIEF AND HIS FLAG.

A Row Is Expected When the Banner Flies. TORONTO, Ont., June 3.—Deputy Provincial High Chief Ruggie Quinn, of the Catholic Order of Foresters, and a companion, have started for the St. Paul, Minn., convention, taking a Union Jack which they will insist upon displaying at the convention. A row is expected. Quinn raised a rumpus over the same flag at Chicago last year.

EX JUDGE BROOMALL DEAD.

PHILADELPHIA, June 3.—Ex-Judge William B. Broomall, of Delaware county, died here today at the residence of his daughter. Judge Broomall never fully recovered from an attack of pneumonia last winter and his advanced age also operated against his chances of recovery.

WASHINGTON GOSSIP.

A call is issued for a meeting of the Negro National Democratic league at Indianapolis, beginning Tuesday, August 2. The call is signed by C. H. J. Taylor, president, the recently confirmed recorder of deeds of the district of Columbia, and H. C. C. Astwood, the rejected consul at Calais, chairman executive committee.

Second Assistant Postmaster J. Lowery Bell has tendered his resignation to the president through the postmaster general to take effect at the end of the fiscal year, June 30, in order to accept the position of general traffic manager of the Central Railway Company of New Jersey, with headquarters at New York. His resignation was purely voluntary.

WEATHER FORECAST.

WASHINGTON, June 3.—Forecast for Monday: For Eastern Pennsylvania, fair, probably slightly warmer, west winds. For Western Pennsylvania, generally fair, southwest winds.

FINLEY'S Embroidered Handkerchief SALE.

MINOR TICKINGS OF THE WIRE.

Secretary of Agriculture Morton is visiting historic spots in and about Lexington, Ky.

Prospectors found a 400-pound nugget of copper in the Reiney river bed, near Cheboygan, Mich.

For taking bribes in office, ex-Land Register James E. Malone is on trial at Perry, O. T.

Cyrus W. Field jr., son of the Atlantic cable originator, is dying of consumption in New York.

Secretary of the Navy Herbert has reached Chicago on his homeward trip from the Pacific coast.

Crazed by his financial failure, Job A. Turner, a former Boston banker, shot himself at South Carver, Mass.

Seventeen vessels, carrying 12,000,000 feet of lumber, have left Duluth in four days, the largest fleet ever known.

Because accused of cheating and called "Lamey," Nicholas Biberon, a New York lame boy, stabbed two playmates severely.

The explosion of a dry boiler near Adelphi, O., killed Engineer Joseph Lohwaurter and Sherman Waite, and fatally hurt two others.

Permission has been granted the Scranton Bicycle club by the racing board of the League of American Wheelmen to run a mile race, northeastern Pennsylvania championship, on July 4.

The steam yacht Atalanta, owned by George Gould, sailed for Glasgow yesterday afternoon to witness the yacht races in which the champion American sloop Vigilant, now owned by Mr. Gould, will participate.

PAID UP.

HARRISBURG, Pa., June 3.—A private dispatch to the United Press correspondent here from Ridgway, Elk county, states that Sheriff Elliott has deported 150 men from Ridgway and the surrounding towns who left today to return to their homes. They are to go to work tomorrow in Hill, Kaul & Co.'s mines at Shawmut, Elk county. Resistance is expected from the striking miners who have been reinforced by 800 men from Reynoldsville and Punksutawney region. Bloodshed is feared. The miners are well armed and desperate.

UPSTARTS.

THE report that the Chesut river bridge on the State line railroad had been burned by the strikers to prevent shipment of coal, is not correct. Freight and passenger trains are running regularly. Last night a crowd of strikers attacked three deputies who were returning to Oivers from this place. Several shots were exchanged but no one received injury.

MEMBRIS DENOUNCED.

COLUMBUS, Ohio, June 3.—The miners at Billdare, Ohio, severely denounced President McBride for his scorching telegram to them last night. They say he has accepted the unsupported word of an operator--Superintendent Woodford of the Cleveland, Lorain and Wheeling railway--as to the alleged rioting and caused them to participate in it. McBride sent a telegram almost as severe as this one
