

GENERAL NEWS OF INDUSTRIES

When the latest transit scheme gets fairly going on something more substantial than paper, it will surprise folks. The inventor, Mr. Johnston, is a Chicagoan, his company is Chicagoan and the scheme itself is grandly and characteristically Chicagoan. It proposes to convey passengers from Chicago to New York, 750 miles as the crow flies, in exactly six hours. The scheme goes under the name of the Elevated Suspension Electric Railway company, and hopes to go in another way soon. The railroad is literally suspended in mid-air, with its cars planned to run in between, so securely that accident will be almost impossible. The electric motor power is applied very much as in the present trolley system. Sixty miles an hour is regarded as a small pace for this system, which pledges itself to go 120 or even 150 miles per hour with the utmost safety and ease.

The cars on this system are about six feet in width by twenty feet in length, with a seating capacity of thirty persons. The weight of the car proper is 1,800 pounds, of the trucks and motor, which are above and upon the rails, 4,200 pounds, and of the passengers, 5,000 pounds, making the strain upon a single cable of 157-ton span, with a loaded train of two cars upon it, nineteen and one-half tons when the train is at rest. The cable is three-thirds in diameter and capable of standing a tensile strain of over 800 tons. The cost of construction for this system does not exceed 20 per cent. of the cost of steam elevated roads under ordinary circumstances, while the crossing of streams and the overcoming of obstacles to buildings can be accomplished by the use of longer spans without a material increase in expense. About \$80,000 per mile fully covers the cost of construction of a four-track road, and \$10,000 per mile its equipment, while a two-track road can be built and equipped under \$60,000 per mile.

The objectionable features of the ordinary elevated railroad are said to be reduced to a minimum or entirely obviated by this system. The amount of light obstructed by a cable, by a strip five-eighths of an inch in thickness, by posts and trusses 150 feet apart, and made in lattice work if desired, and the continuous rails, is so slight as to produce no appreciable effect in an ordinary street. There being no solid structure to act as a sounding board, the noise is less than that of any other system. The flexibility of this system gives an agreeable motion in riding and relieves of all jolting and noise of the rigid structure. The metal cable and structure overhead are protected against lightning, interference in the street and storm. The novel wire presents no hindrance from sight in the most inclement weather. The bottom of the cars being the lowest part of the structure reduces the ascent to the station from twenty-four feet to about sixteen feet. There is perfect freedom from dust, smoke, steam, and cinders, and in matter of speed it is beyond comparison. At least, this is what is claimed for it; and to claim really does look plausible when you study it out.

Those in a position to know intimate that there is no longer reason to doubt the speedy construction of the proposed Carbondale and Forest City electric street railway. The novel wire presents no hindrance from sight in the most inclement weather. The bottom of the cars being the lowest part of the structure reduces the ascent to the station from twenty-four feet to about sixteen feet. There is perfect freedom from dust, smoke, steam, and cinders, and in matter of speed it is beyond comparison. At least, this is what is claimed for it; and to claim really does look plausible when you study it out.

Forty of the Reading company's fifty-two colliers are now working, and shipments of coal are being pushed forward rapidly. On Friday last the shipments from Palo Alto on the main line, were fourteen loaded trains, comprising 626 loaded cars, or 13,772 tons, or nearly double the usual quota at this season of the year; and in order to keep up the supply of empty cars, the Reading has ordered the old eight-wheel cars into temporary use. Shipments south via the Philadelphia, Harrisburg and Pittsburg branch of the Reading have increased to such an extent that the ten crews of the road have been put on double turn, and are now making about ten days a week.

MINOR INDUSTRIAL NOTES: Our telegraph lines stretch 210,000 miles. Scarcity of coal is having a steadily increasing effect on industrial operations. The Reading company has 200 cars on sidings awaiting repairs, which will boom its car shops. For \$500,000 eastern capitalists have bought the Cleveland General Electric company's plant. The larger proportion of street railway mileage in the United States is now operated by electric power. The average watch is composed of 97 pieces, and its manufacture embraces more than 2,000 distinct operations. Saturday 785 tons of Erie coal were hauled over the Jefferson division. A conservative estimate places the number of tons at 10,000. Persons well informed say that the southern rate war, if kept up any length of time, will end in a number of railroad reorganizations. The reduction in freight rates to southern points, made to put western coal on the same footing with the east, went into effect yesterday. Production of soft coal has lately shown a slight increase through the return of some miners and the failure of the coal strike in Alabama and southern Tennessee. A new time table will be put into effect on the Erie on June 17, under which all the trains between New York and Chicago on all important trains will be shortened one hour. The New York and New England has withdrawn its request for bids for 16,000 tons of anthracite coal, having made arrangements to get its coal supply from New Scotland.

Twelve Erie firemen from this section are on their way to Chicago to help fight the western division men how to use anthracite. The settlement of the soft coal strike may call them back. It is expected that all the water will be out of the Vandling mine Wednesday morning, permitting the return of twenty men who have been idle about two weeks from this cause. Coke production in the Conneville region continues to gain slowly; shipments are increasing proportionately. Last week there were gains of more than 6,000 tons in the estimated production and 600 cars in the output. It is rumored that the Jersey Central coal repair shop and roundhouse at Elizabethport will soon be removed to Drimellen, where, it is said, the company has purchased a large tract of land. Nearly 600 men are employed in the shops. The pay roll of a certain Mount Carmel colliery is said to have been the largest in the superintendent is an American, the book-

FINANCIAL AND COMMERCIAL.

Stocks and Bonds. New York, June 11.—Continued liquidation in sugar as well as some selling for the short account, lower prices from London, the engagement of \$1,000,000 gold for shipment to Europe tomorrow assisted the houses at the stock exchange in bringing about a lower range of prices.

Table with columns: Open, High, Low, Close. Lists various stocks like Am. Oil, Am. Sugar, A. T. & S. F., etc.

Chicago Grain and Provisions. SCRANTON, June 11.—The following quotations are supplied and corrected daily by Larbar & Fuller, stock brokers, 121 Wyoming avenue.

Table with columns: Wheat, Corn, Oats, Beans, Potatoes, etc. Lists prices for various commodities.

NEW YORK PRODUCE MARKET. NEW YORK, June 11.—FLOUR—Quiet, held firmly. WINTER WHEAT—Low grades, \$1.55-2.00; do. fair to fancy, \$2.00-2.50; do. patents, \$2.50-3.00; Minnesota clear, \$2.50-3.00; do. straits, \$2.00-2.50; do. patents, \$2.50-3.00; city mills, \$2.50-3.00; do. patents, \$2.00-2.50.

PHILADELPHIA TALLOW MARKET. PHILADELPHIA, June 11.—Tallow was dull and unchanged. Prices were: Prime city in kegs, 45c; prime country, in barrels, 45c; do. dark in barrels, 45c; cokes 6c; grease, 4c.

A Quarter Century Test. For a quarter of a century Dr. King's New Discovery has been tested, and the millions who have received benefit from its use testify to its wonderful curative powers in all diseases of Throat, Chest and Lungs. A remedy that has stood the test so long and that has given so universal relief is positively guaranteed to give relief, and the money will be refunded. It is admitted to be the most reliable for Coughs and Colds. Trial bottles free at Matthew Bro's, Drug Store. Large size 50c, and \$1.00.

THE SCRANTON CASH STORE. F. P. PRICE, Agent. Coal of the best quality for domestic use, and of all kinds, delivered in any part of the city at lowest prices. Orders left at my office. NO. 118, WYOMING AVENUE. Rear room, first floor, Third National Bank, or sent by mail or telephone to the mine will receive prompt attention. Special contracts will be made for the sale and delivery of Buckwheat Coal. W. M. T. SMITH.

DO YOU EVER NOTICE

Or don't you notice the difference in our prices, and the prices usually charged even by the stores that claim to sell very low. Why the simple fact is we are away below any store in this valley. Yes, we repeat we are away below any concern in this valley or in the state in prices on first class goods so far as we can learn. We do not handle a large line of fancy goods, but we do have a big stock and full assortment of strictly FIRST CLASS staple goods. Nor do we use any one or two articles as bait to draw trade. Our plan is to cut the price on everything just as much as we possibly can so that you will very seldom find a single article in our store that we are not selling for less than it can be bought anywhere else and furthermore while we are always doing our best to get at and keep the prices down we never for a moment lose sight of quality. No article can come into our store unless it is at least standard quality but is much oftener EXTRA than otherwise.

We have a large trade and we often think when we put the selling price on an article and know that the same goods are invariably sold at that it is strange why we do not sell all the goods in our line that is sold in the city and have to conclude that it certainly is not on account of quality or price, but must be for some other reason. While we did not intend to quote any prices in this article we will mention a few just to prove what we say and see if you don't wonder also if what we say is correct why we do not sell all or nearly all of the goods sold. Of course each dealer has friends who trade with him for friendships sake knowing all the time that they are losing money by so doing. Now while we appreciate friendship yet we want every person who buys goods of us to be fully satisfied that they get good value for their money or we would actually prefer to miss the trade. But here are some prices as proof of our statements, we avoid the large articles simply to show that we do not confine our low prices to some of the leading articles:

- Canned Tomatoes, extra quality, usually sold at 12 1/2c, we are selling for 8c.
Bartlett's Shoe Blacking, large box, regular price, 10c; we give 3 boxes for 10c.
Vienna Bread, large loaf, never sold less than 10c; you can buy it from us 2 loaves for 15c.
Fancy Table Butter, that sells for 20 to 25c., we offer at 17c.
Tea that brings 75c. a pound and in some stores \$1, we only ask 45c.
And Tea that sells for 40c. you can buy from us at 19c.
Gloss Starch, pound packages, worth 8c., we will sell at 4 1/2c.
Corn Starch, also usually sold at 8c., we sell it at 4 1/2c.
And a 3-pound can of Gloss Starch that you would have to pay 25 for anywhere else, you can buy of us at 14c.
Able's Pie Preparation, always sold for 10c. or 3 for 25, we offer you at 5c.
Cigars that could not be bought elsewhere for less than \$1.25 a box, we sell at 60c.

And aside from offering goods much lower than any other establishment in the state we believe we have one of the most complete stocks of groceries in the state. Whenever anything new in our line comes on the market and has merit we add it to our stock. We wholesale a great many goods and at figures lower than exclusive wholesale houses. Our cigar and tobacco stock is complete. Our tea and coffee contains as fine a line of both as can be brought together. Our confectionery stock includes the fine grades in abundance as well as the more staple varieties of confection. We serve as fine Soda Water at 3c a glass as can be had in the city at any price. In our butcher shop we handle as much and as fine a grade of beef and other meats as any in Scranton and from 2 to 4 cents a pound lower than any shop in the city. On Tuesdays, Thursdays and Saturdays we have a full assortment of green vegetables 25 per cent below market rates. Finally we think we are safe in saying that we give more and better goods for the money than any concern in Pennsylvania. Here are some of the reasons we have for wondering why we do not sell all or nearly all of the groceries sold in Scranton. Come and see if you can find us misrepresenting facts in any of the above assertions. We would like to have your trade or part of it and will make it worth your while to buy of us.

THE SCRANTON CASH STORE. F. P. PRICE, Agent. Coal of the best quality for domestic use, and of all kinds, delivered in any part of the city at lowest prices. Orders left at my office. NO. 118, WYOMING AVENUE. Rear room, first floor, Third National Bank, or sent by mail or telephone to the mine will receive prompt attention.
