GENERAL NEWS

The Wilkes-Barre and Wyoming Valley Traction company's extension of their road from Wilkes-Barre to Pittston on the east side of the Susque-hanna has already been connected with the southern end of the old Pittston line. Aunouncement is made that the present Pitteton horse car line will be left undisturbed until after the special election on July 2, on the question of increasing the borough indebtedness for the purpose of making borough improvements. If the vote is favorable to floating the loan, the company will at once tear out the borse car line, lay a track of girder rails, and pave between rails and two feet on each side with the kind of pave the council de-cides on; if the anti-improvement crowd carry the day, T rails will be laid, and the celebrated Pittston cobblestones will remain

Many persons in the anthracite region are yet unfamiliar with the alleged causes of the recent bituminous miners' strike. A history of it is therefore appended: Prior to 1890, there was in existence between the coal miners and operators of the states of Pennsylvania, Onio, Indiana, Illinois and West Virginia, a wage agreement, which was called the inter-state agreement, because it provided for the payment, occases it provides for the pay-ment of wages proportionate in the states mentioned, to the local condi-tions prevailing in them and aimed, as far as possible, to give every operator in these states an equal chance to compete for coal trade. It prevented any particular set of operators from gob-bling up everything in sight by reason of any advantage they might possess in the matter of freight rates, water transportation or local advantages in mining coal. This agreement operated to the general advantage of the min-ing industry. But along before 1890 operators in the western states began to break away in the hope of gaining advantages over competitors. Then a meeting was held in Pittsburg and an attempt made by the miners to restore the agreement which had become badly shattered. But it was of no avail. The operators split on the quesion and from that hour the seeds of a national coal strike were sown.

As far back as 1892 Patrick McBryde, the secretary of the Miners' Union, predicted a national strike. There was a succession of local strikes, and som -times there were district strikes, but none of tuem brought permanent advantage. Operators bound by no contract and ever eager to gain advantage over each other cut wages as often as they found it necessary to reduce the prices in order to secure some large contract. And so it went on until the beginning of the strike, which was im-mediately preceded by a season of wage cuts in the Pittsburg district heavy and deep. The cuts extended over a period of six months and acted as an imme-diate cause of the strike, as they forced similar cuts, first in the Massillon district of Ohio, then in the Hocking Valley of the same state, then throughout the entire state and soon after in Indiscranton Wholssale Market.

Scranton Wholssale Market.

In this sizzing summer season it behoves the expert housewife and hostovated apples per pound, 6a7c; evapovated apples, 11a14c, per pound, Turkish
prunes, 5a5½c; English currants, 2a2½c;
layer raisins, \$1,75a1.80; muscatels, \$1.00a
1.40 per box; new Valencias, 7a7½c, per
pound. ing machines, which further decreased the power of the diggers or rather ma-chine men. It is conceded that the strike was well planned by John Mc-Bride, but the officials of the United Mine Workers place the blame of its partial failure largely on the shoulders of the strikers who alienated public sympathy by lawlessness.

Outside of this feature the most perious one with which the officials were confronted all through the strugrie was the refusal of the miners of West Virginia to join. Early in the strike an organizer of the United Mine workers was murdered in that state while trying to induce the miners to etrike against their will. There are 14,000 miners in West Virginia. Of strike began. The remaining 3,000 pails, 9%c.; in 5-pound pails, 9%c.; in 5-po ning day and night, week days and Sunday. The operation of these mines was the only thing that stood between a complete paralysis of business in sev eral Northern states. Under the terms of the Columbus compromise the men gain a small advance; but it is less ban half what they had expected and contended for. The strike cost \$20,-000,000, and ended in failure. Its only redeeming feature, so far as this region is concerned, is that it has given anthracite a chance. Much may yet come of this involuntary extension in the use of anthracite small sizes for industrial purposes.

At a meeting of those interested in the proposed Lehigh and Eastern railroad at Stroudsburg, yesterday, the following officers and directors were elected: President, S. H. Nichols, of Philadelphia; secretary, Liddon Flick, of Wilkes-Barre; board of directors, J. R. Perry, George Smith, J. B. Shiffer and Liddon Flick, from Wilkes-Barre, It was decided to fix the amount of capital stock at \$5,000,000. The amount of capital paid in is \$450,000. A cer-ificate of re-organization will soon be filed at Harristurg. The Lebigh and Eastern railroad, if over built, will begin near Tomhickon and run through Luzerne, Carbon, Monroe and Pike counties, terminating at Matamorats.

Some fast time is being made nowa-days on the Central Railroad of New Jersey. One of the best of these runs was made last Friday by Engineer John Hunt, of Easton, who held the throttle on the engine drawing passenger train No. 12, from Mauch Chunk That distance was to Allentown. made in exactly 34 minutes, which time included two stops. The schedale time is 39 minutes, with one stop.

MINOR INDUSTRIAL NOTES: On an average a 1 comotive engineer travels 20,000 miles in the course of a

The Lehigh and Wilkes-Barre surveyors

are busily engaged surveying about the Honey Brook wash banks. The combined earnings of ten prominent

coal carrying companies show a decrease from May a year ago of 4i per cent. An addition is being built at Harwood to place new machinery in the breaker owing to the increase of the coal trade. The excessive restriction of demand for iron at this time may be noted in the fact that furnaces in operation June 1 were producing at the rate of about one-third the maximum capacity.

REAL MEAR is the characteristic of Hood's Sarsaparilla, and it is manifested overy day in the remarkable cures that medicine accomplishes. Hood's Sarsapa-rilla is the kind. Try it.

Hoop's PILLS are the best family cathartic and liver medicine. Harmless, reliable,

FINANCIAL AND COMMERCIAL.

Stocks and Bonds. NEW YORK, June 18 .- It is a quiet day in stock circles, the transactions only footing up 116,000 shares. At the opening day in stock circles, the transactions only footing up 116,000 shares. At the opening the Industrials were strong with an advancing tendency, while railroad shares were inclined to weakness. St. Paul and Union Pacific were especially weak at this time. The other prominent railroad stocks declined by to 36 per cent. The engagement of \$2,000,000 gold for shipment operated against the market. Atchison sold down to 7 on the announcement that the assessment will be \$12 on the stock. The Industrials cut aloof from the other stocks and were strong throughout. Sugar, Chicago Gas and Electric advanced from 1/2 to 11/2 per cent., a part of which was lost near the close on realizations. The market was benefited in the late trading by the rise in wheat. Probably the best feature of the advance in this cereal list was caused by heavy foreign buying which, if continued, will soon put an end to the efflux of gold. Stocks closed firm and 1/2 to 1 per cent. higher than on Saturday. higher than on Saturday.

The following complete table showing the day's fluctuations in active stocks is supplied and revised daily by LaBar & Fuller, stock brokers, 121 Wyoming avenue:

A Million Friends. A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds, If you have never used this Great, Cough Medicine, one trial will convince you that it has wonderful curative powers in all diseases of Threat, Chest and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at Mathews Bros', drug store. Large bottles 5oc. and \$1.00.

FOR AND About Woman.

The discussion of the woman suffrage issue in New York is becoming almost exciting. The opposition has reached its lowest notch in the argument made last week by Francis M. Scott, in which he advanced as a reason why women should not vote the fact that there are 100,000 women in New York State who lead lives of unconcealed disnonor. Concerning this, the Rochester Post-Express very forcibly says:"We do not know that it is claimed that noto-rious women ought to be enfranchised; but we do not understand how a man can have the impudence to stand up and deny political privileges to these women, and to all women for their sins, and at the same time assert political privileges for the men that make, patronize, and live on the earnings of such fallen women." Mr. Scott has the floor for explanatious.

Too Much Emancipation:

He glowered fiercely.
"Wnat?" he demanded.
"No, John," she repeated, "I shall not get up and build the fire in the morning any more."

For a minute he ruminated bitterly.

"It strikes me——"
There was a suggestion of the duliness of despair in his tones.
"—this is carrying your blamed mannishness too far."—Detroit Tribune.

It may be interesting, while speak ing of the suffrage question, to note that Rev. Dr. Talmage, in other direc-tions such a powerful champion of the cause of woman, does not have un-limited faith in woman's use of the ballot. He says frankly: "I do not believe that woman will ever get justice by woman's ballot. Indeed, woman appress women as much as men do. Do not women, as much as men, beat down to the lowest figure the woman who sews for them? Are not women as sharp as me n on washerwomen and milliners and mantusmakers? If a woman asks \$1 for her work, does not her female employer ask her if she will not take 90 cents? You say, 'only 10 cents dif-ference;' but that is sometimes the difference between heaven and hell. Women often have less commiseration for women than men. If a woman steps aside from the path of virtue, man may forgive—woman never! Woman will never get justice done her from woman's ballot."

WHEN WOMEN TALE;

When women talk the air grows dense With adjectives, profound, intense; The sun is dimmed by brilliant wit, All earth is vanquished, bit by bit, And men in shivering silence sit, When women talk.

When women talk all space is strewn With clamoring voices out of tune; Art, music, fashion reach their lips, And from their dainty finger tips In tattered shreds each subject drips, When women talk.

When women talk sweet virtue pales, And science in her armor qualls: Facts are dethroned by morbid doubt, Established customs put to rout— The world is turned quite inside out, When women talk.

-New York Sun.

cooling draughts that can be made at small expense: Squeeze the juice of six China oranges and three Seville oranges, boil the peel of the Seville oranges in half a pint of water for half an hour, and add to it, with eight ounces of fine angar; then pour over them a quart of boiling water, cover, and let the liquid stand to cool; then run it through a jelly bag and ice it. Another compound is prepared thus: Take half a dozen juicy oranges and squeeze out all the juice possible. Rub a dozen large juicy strawberries through a fine sieve. Add a bottle of apollinaris water and sugar to taste. Slice an orange and a banana and put into the orangeade, with a few straw berries to float on each glass. If a ta-blespoonful of Maraschino is added to each glassful it will be a very attract-

ive drink When the girl of the period took to bicycle the fin-de-siecle purist took simultaneously to his microscopic search for suggestions of impropriety. Kate Field was the first to propound the conun-drum. Are bicycles immoral? Her conclusions, after a time, were in the negative. Now comes the Rev. John L. Scudder of Jersey City with a pulpit admission which ought to set the matter to rest and resssure every agile Scrantonian miss who may have feared to venture forth upon the graceful ladies' wheel. Says Dr. Scudder: "The bicycle is thoroughly Christain. It improves the temper, discourages disipation, makes one look on the bright side of things and puts vivacity into one's

CAN THIS BE TRUE. Married men are always preferred as workmen. They are more d ocile; they know what it is to be bossed.—Atchison

THE WRITING WOMAN:

With Hebrew, Greek and Latin She's acquainted more or less, And she's obviously pat in All the modern languages,

She has read her Herbert Spencer, Her Kant and Schopenhauer, And in logic she's a fencer Of unquestionable power. She is full of keen suggestion, Be the subject what it may; And on every social question

She has something apt to say. You may see her quick eye kindle With a bright and vivid flame At the mention of a Tyndall Or a Huxley's potent name, Scraps of learning she will dish up With a skill that makes them live.

She will argue with a bishop, Say, on church prerogative. With her own sex she will chatter, In the proper time and place, On some trivial household matter,

With a quaint and lively grace. She can cook, and wash, and mangle (Though perhaps she'd rather not), Play tennis, ride and angle, And is quite a champion shot.

From the public platform you will Find her talking fact or myth, With the vigor of a Whewell Or the wit of Sidney Smith.
'Mongst mere minnows she's a Triton Who will always have her way;

She's an admirable Crichton, Is the Woman of Today. -Cincinnati Commercial Gazette.

IN SUMMER: 1. Avoid either very hot or very cold drinks.

2. Use catmeal in drinking water. 8. Wear a flannel waist band.4. Use sait in bathing water; not rock salt, which is a refuse, but table salt,

which is pure.

TO REMOVE INK STAINS: Ink stains may be removed from colored table covers by dissolving a teaspoonful of oxalic acid in a teaspoonful of hot water, and rubbing the statued part well with the solution. -Ink stains may be taken out of anything

white by simply pufting a little pewdered salts of lemon and cold water on the stain, allowing it to remain, about five minutes, and then wash it out with soap and water, when the stain will disappear.

—Ink stains on silver or plated articles may be effectually removed without injury to the articles by making a little chloride of lime into a paste with water, and rubbing the stains until they disappear and afterward washing the article with soap and water.

and water.

- To remove ink stains from a mahogany table, put a few drops of spirits of nitre into a teaspoonful of water, and touch the part stained with a feather dipped into the mixture. Immedsately the ink stain dis-appears the place must be rubbed with a cloth dipped in cold water or there will be a white mark.

The world is always interested in the cure of consumption; yet its prevention is of far more importance. Dr. Wood's Norway Fine Syrup is guaranteed to cure coughs and colds. Sold by all dealers on a guarantee of satisfaction. guarantee of satisfaction.

P. P. for a disease of the skin, usually
known as skin cancer, of thirty years'
standing, and found great reflef; it
purifies the blood and removes all leritation from the seat of the disease
and prevents any sprassling of the
sores. I have taken five or ast bottles
and feel confident that another course
will effect a cure. It has also relieved
me from indirection and stomach
troubles. Yours trily
CAPT. W. M. BUST.

Attorney at Law.
