TROOPS GO TO PUNXSUTAWNEY

Three Companies of the Fifth Regiment Ordered Out by the Governor.

NO BIG CLASH YET REPORTED

The Trouble All Arises, Apparently, Through the Fear of the Foreign Element in the Belwood Region That Non-Union Men Are to Be Brought Gourley Roundly Criticised, and the Governor's Action Pronounced Unnecessary - Miscellaneous News Concerning the Strike.

PUNXSUTAWNEY, Pa., June 21. UCH indignation is manifested here tonight owing to a rumor which has been affoat this afternoon that Governor Pattison has ordered state troops to the Walston and Adrian mines. An in-dignation meeting was held by the citizens of Claysville tonight at which Sheriff Gourley, of this county, and Governor Pattison were handled with-

out gloves. It is true that the foreign element at Walston and Adrian has been a little unruly in the last few days, but every one familiar with the situation here knows that there is no cause for apprehension. United States Inspector Conkling, visited Walston yesterday and to-day, in pursuance of his official duties, and he reports that everything is quiet and orderly. He said to-night: "I have been over the ground and fail to find any cause of alarm, and I assert, that if the sheriff would show a little backbone, everything would assume its usual quietness."

UNRULY FOREIGNERS.

No rioting has occurred, but should the Bell, Lewis and Yates company bring in new men, the foreign element, who constitute nine tenths of their old employes, are prepared to give them a warm reception. On last Sunday some person told those people that "black-legs" would be brought in to take their places this week. This unwelcome news aroused their anger and they immediately placed pickets at every point where men were likely to be brought in. They have even gone so far as to force the English speaking people of those places from their beds to do guard

The English speaking miners are doing all that lies in their power to pre-vent an outbreak and are meeting with success. The miners of the Berwind-White company held a mass meeting today. They favor compromise, but declare that they will remain on strike all summer before accepting the proposition of the company to return to work at the old price. The Berwind-White company have about 220 men at work in the No. 1 and No. 6 mines at Horatio, and have loaded forty-eight cars of coal during the past week. At this writing the militia had not ar-

Sheriff and District Attorney Told to Restore Peace.

HARRISBURG, Pa., June 21.-Governer Pattison sent to Sheriff Gourley at Punxsutawney tonight a telegram notifying him that the troops had been sent as requested and hoping that order and tranquility might soon be restored in the county. He suggests that prompt measures be taken for the arrest, prosecution and conviction of all those who have been engaged in violation of the law. The governor also telegraphed District Attorney McCracken, of Jefferson county, suggesting the necessity of impressing upon the people of the county the fact that open and aggressive violation of peace and dignity of the commonwealth cannot be practiced with im-punity. He advised prompt legal measures to bring the rioters to an accounting before the criminal courts,
Adjutant General Greenland left for

Bellwood this afternoon at 4 o'clock on the special train which carried to the Fifth regiment rendezvous the camp and garrison equipage and food for the troops. He ordered 2,000 loaves of bread from Pittsburg to be shipped to

Prominent guard officers will go to Gettysburg tomorrow to select the location for the annual encampment, which will be held as arranged, unless something wholly unforseen should prevent.

THE STRIKE SITUATION.

The old men at Bessemer all returned to work yesterday morning. The Berwind-White people received about seventy new men yesterday morning to work at their mines.

The labor leaders at Scottdale are making all possible efforts to prevent a general break in the ranks of the strikers. All the mine Coperators in the Massilon

district refuse to concede the differential, which means an indefinite continuance of the stride in that district.

The situation at Walston is unchanged.
The warlike Hungarians and Italians are in full possession and are moving things their own way. Every stranger who passes Walston must render an account of himself.

Superintendent Snyder, of Walston, was notified by the Italians to leave or he would be killed and he left for Ohio. No

actual riot is anticipated, unless an attempt is made to start the mines at Walston or Adrian in which case a desperate fight is

A resolution was adopted by Punxsu-tawney miners yesterday that "if Sheriff Gourley would mingle more with the workmen and hobnob less around with company officials, and show more courage in discharging his duties, it would not be necessary to appeal to the governor for troops."

Last night a special train of six coaches filled with colored men passed through Scottdale for the south end of that district. They will be put to work at Trotter, Davidson and Oliphant. Two hundred families have been evicted at these works within the past week to make room for the imported men.

If the Income Tax is Democratic, Then He Is Not a Democrat.

FALSE AND FICKLE LEADERSHIP

It Is This, He Contends, That Has Brought Humiliation and Shame on the National Democracy-Senators Chandler and Allen Have Another Interchange of Pleasantries-Nothing of Consequence Accomplished in the House.

Washington, June 21. ENATOR HILL'S attack upon the income tax was the chief feature of today's debate in the senate. The senator, among other things, presented a petition from a number of prominent business men of New York city asking that the income tax be stricken from the tariff vill. It was signed by Evan Thomas, William Steinway, Louis Windmuller. J. Edward Simmonds, S. D. Babcock, W. Bayard Cutting, John H. Inman and Alexander E Orr. Senator Hill

I do not wish to drive such men out of the Democratic party by our unwise legis-lation in the tope of supplying their places with Adullamites, Corevites, Socialists, and all the ragtag and bobtail elements of the community who will be attracted to us by our proposed raid upon the wealth of the country. This is essentially a war tax. Heretoforc, we, as Democrats, have clamored against it and others like it. the ending the last grand exalted ruler. If this is true Democracy I want none of it. If this is the best leadership which we can present in this great and important action which vests in the board of the grand trustees power it. I prefer to stand with Jefferson, and Jackson, and Tilden, in opposition to all income taxes and direct Federal taxation, but in favor of a revenue for federal purgrand secretary. According to the session's decision the majority of the members of the committee on laws and appeals will hereafter consist of law-yers, whose appointment shall be such that approved of the second laber to the special purposes, whose appointment shall be such that the second laber to the us astray after false gods, false theories, and false methods. I object to our reand tase methods. I object to our re-storing a war tax which the Republicans themselves rejected years ago, with our approbation. I cannot follow such lead-ership, which shifts and turns and temporizes upon every public question, which compromises every well-established Dem-ocratic principle for which the party con-tended when out of power: which stands ready to adopt every passing "ism" of the hour, which surrenders principle for expediency, and pursues no consistent course

committee was appointed to prepare a new constitution. The charter of the Springfield lodge was revoked, while one was granted Atlantic City lodge No. 276

A committee of five consisting of C. Ben Johnson, of Wilkes-Barre; C. S. Bartram, of St. Paul; E. B. Hay, of Washington; C. R. Tracy, of Wheeling, Hartford was Hartford was the best feature of the tariff bill. If that was so then he could only say, in the emphatic language of the senator from New Jersey (Mr. Smith), "God help the Democrat party." It was well understood that senators in

ANOTHER VOLLEY OF BILLINGSGATE. Mr. Higgins, Delaware, followed with a speech against the income tax section. Mr. Chandler, New Hampshire, renewed the controversy between himself and Mr. Allen, Nebraska, say ing that he regretted that he had discovered that the surroundings of the senator from Nebraska before he entered the senate were such as not to allow him to observe courteeles which all gentlemen regarded even in the most heated partisan debate. The senator from Nebrasks, he added scornfully, was to be pitied, not censured, for that

which he could not help.
Mr. Allen replied quietly but bitterly to Mr. Chandler's remarks. Any statement that he (Mr. Allen) had agreed to vote for the bill, in consequence of any concessions made, or to be made, to him, was untrue. He had said so yesterday, and he reiterated it today. He would stand by the bill "in spite of the low dirty instructions" of he senator from New Hampshire or any other man. The controversy wound up by a decisration of Mr. handler that the closing remarks of the senator from Nebraska only emphasized his statement that the senator did not comprehend the courtesies which should characterize debate in

the senate. The senate proceeded to act on amendments to this section of the bill. The first amendment was offered by Mr. Aldrich, Rhode Island, to have the tax terminate on Jan. 1, 1898 (instead of 1800) and that amendment was defeated: Yeas 23, nays 39. The three Populist senators, Allen, Kyle and Peffer, and two Republicans, Dubois and Teller voted with the Democrats against the amendment, and the terminal point was fixed at 1900. There was no further progress made on the income tax sections.

WORK IN THE HOUSE. The feature of today's proceedings in the house was a short speech by Mr. Pence (Pop. Col.), who used the recent interview on silver with Representative Reed as a text. He said he was glad to welcome Mr. Reed to the ranks of the silver advocates, but regretted that he had not taken the degree which made a man master of all free coinage at the ratio of 16 to 1. He intimated his intention to offer a free coinage amendment to the anti-option bill to-

THE NATIONAL SAENGERFEST.

Arrangements for the Splendid Concerts

in New York City. NEW YORK, June 21.-Indications low are that the song festival to take place in the Madison Square Garden on June 23, 24 and 25 will be the most imposing vocal performance ever heard in New York. The societies invited number 10,000 singers, and even if only one-half of the members should be able to come the festival would be on a par with the colossal concerts in which London delights. Philadelphia alone will contribute a thousand visitors.

The conductors are Messrs. Van der Stucken, Zoellner and Hein, and the soloists Mines. Materna, Emma Juch, Lillian Blauvelt, Tavary, Maud Powell; Messrs. Campanni, Emil Fischer, Conrad Behrens, Arthur Friedheim and

Victor Herbert. President Cleveland has signified his ntention of coming to the city on Friday. Less Than Fifteen Thousand Specta tors Saw the Crack Racer of the Daly Stables Make Off with the Seventeen Thousand Dollar Purse Without Even Feeling the Force of Competition-How the Other Animals Conducted Themselves in the Great Contest Yesterday.

NEW YORK, June 21. HE greatest suburban handicap in in the history of the classic event was won today by Ram-apo. It was not the richest suurban, as the prize was worth less financially this year than last year by nearly \$1,000. The winner got about \$17,000. He got nearly \$18,000 last year. The battle was a grand one and well fought, and Ramapo, the first fasterling aged golding Banquet only after a bitter and cruel struggle

That erratic beast Sport, took it into his head to try when it was too late. He came like a shot from the final sixteenth, and passing the other struggling contestants as if they were stand ng still, secured third place by a comfortable margin. There was not an admirer or supporter of Sport on the track that did not believe that he would save won outright, had Taral, Garrion, Simms or some equally capable jockey had the mount on him. Since the future books opened on the race, Ramapo has been a favorite. His best and most brilliant victory was when be won the Metropolitan handicap. He has not been defeated this year and unless he is allowed to grow stale the indications are that he will not be. His victory was a most popular one. The stable is in good odor with the backers and favorites and Taral, his rider, is one of the most popular jockeys on the turf.

TARAL'S LUCKY MOUNT. This victorygave Taral, who is rightwas run true and was a thoroughly clean and healthy one. Banquet, who is known to be nervous in a big field, was taken to the front and not allowed to feel his position. He was in consequence for the first time able to do justice to himself in a fair sized field.

Sport showed his temper in the early part of the race and Thompson could do nothing with him until too late, Sir Walter had been tampered with. His appearance at the post was not what it should have been. The pace was set by Kinglet and Bauquet was too hot for Pick-Pocket and Henry of Navarre. Don Alonzo was the same big hulking cur he always is in good company. St Michael and Charade were thoroughly outclassed. Comanche is a great horse the pace as hot as he knew how, and then left matters for his stable com-panion. Ramapo, to finish. King Lee acquitted himself creditably. e becomes thoroughly acclimated he will make some of the cracks hustle to

hold their own. THE RACE RECORD BROKEN. Ramapo's time, 2:05 1 5, is 2-5 of a second faster than the race has yet been run. Lowlander ran the race a year ago in 2:05 8-5. The best time prior to that was made by Salvator in 1890.

He went the distance in 2:06 4-5. The Suburban of 1894 was so far as the attendance was concerned, far behind that of the Brooklyn or Metropolitan handicaps. It is safe to say that although the weather was nearly perect, the crowd was the smallest that has witnessed the big event during the past four years. The management were at a loss to account for this state of affairs. A conservative estimate places the attendance at 15,000.

The winner, Ramapo, was bred by Otto Danner, at his stud farm in the Ramapo hills of New Jersey. He is 4 years old and has not been defeated this year. He is a long, rakish horse, and does not show to advantage until thoroughly extended.
