All arrangements for the Christian Endeavor convention to be held at Cleveland beginning with Wednesday next have been perfected. J. C. Man-ning, the local official representative and transportation agent for this section of the association in this place, who has been actively at work for the past few months in looking after the details of the trip, received a dispatch on Saturday from the railway authori-ties, over whose lines the excursion proposes to go, that there need be no fear on the part of the delegates as to not being able to reach the city on ac-count of the strike. The dispatch was based on the assurance of a committee of the American Railway union that they and President Debs, of the union, would do everything in their power to facilitate the movement of trains carrying delegates to the convention notwithstanding the strike. The convention promises to be the largest held in the history of the order. Since its organization thirteen school excursion to Farview July 18:h. years ago last February the idea has grown into a stupendous movement. More than 30,000 societies will be represented with a membership exceeding 1,850,000 persons. The programme arranged is, in the opinion of General Secretary J. Willis Barr, the best ever presented to a Christian Endeavor convention.
