CHICAGO STRIKE IS ABOUT OVER

Concluded from Page 1.

In protecting interstate commerce and the transportation of the United States mails from the Debs boycott might perhaps command ten or fifteen votes out of the 356 members of the house, and that possibly a majority of five votes for conviction might be had among the eighty-eight senators who would form the court of impeachment if it were possible to present articles for trial. There have been only seven impeachment cases presented to the foundation of the government, and nearly every one of them resulted in acquittal.

IT IS SIMPLY AN APPEAL.

Grand Master Sovereign's Has No Right to Order a General Strike of Knights of Labor.

PHILADELPHIA, July 11.—The national headquarters of the Knights of Labor was deserted today by all the chiefs, none but assistants being in charge. Secretary John W. Hayes and Thomas B. McGuire and C. A. French, of the executive board, were in Washington yesterday in consultation with the attorneys for the Knights of Labor. The result of this consultation was the drawing up of a petition to the national house of representatives, requesting the impeachment of Attorney General Olney, charging him with alleged "crimes and misdemeanors."

This petition as drafted will be sent to the different assemblies with request to make similar petitions through congressmen representing all districts in which these assemblies are located.

It was stated at headquarters that there are six Knights of Labor in the house of representatives and three in the senate. Any one of the six in the lower house may be selected to make the impeachment on the floor. It was also stated that no information has as yet been received as to which of those would make the motion.

Advices were received at the national headquarters today from Grand Master Sovereign of Chicago, making an appeal to all Knights of Labor to strike in sympathy with the railroad men now out in the west. It was stated by an official in charge of the office that this was not an order, but came in the nature of an appeal or request.

"The grand master workman has no power to order a strike," said this official, "without the action of the general executive committee. This committee is not in Chicago, nor were they near Mr. Sovereign, so he could not order a strike. Therefore this request sent out by the Knights of Labor only for the purpose of district strikes for itself, unless under order of the general executive committee." This appeal will, therefore, be sent out from this office to all of the twenty-four districts, twenty-five state assemblies and 3,700 district assemblies, with the request that all assemblies strike in sympathy where such striking would benefit the present strike. Within the next two or three days the knights all over the country will meet and take what action each assembly deems necessary.

"We do not expect any strike in this city," concluded the official.

District Master Workman Traphagen, of D. A. No. 1, refused to give the number of knights now in good standing in this district.

MR. SOVEREIGN IS HOPEFUL. Expects Knights of Labor Throughout the Country to Join Strike.

CHICAGO, July 11.—While no official statement to that effect can be obtained from the union officials, it is nevertheless almost certain that the Great Northern employees will be called out in the next day or two regardless of the former action taken by that company. The idea in calling out the men on that system is to strengthen the movement in the east. The defection of one of the directors today, McVeen, who returned to his home in Cleveland without leaving notice of his departure, has served to awaken the board to the fact that a more decisive policy in connection with the men themselves is necessary. President Gompers will arrive here tomorrow morning, and at 10 o'clock a meeting of the executive board of the Federation will be held.

Of those who went out today among the train men were the German Bakers, the Toasters, Woodworkers, Cigar-makers, Coal-makers and Bricklayers. Several orders not affiliated with the councils, together with numbers of non-union men were reported at headquarters as out.

The question as to whether the call of Grand Master Workman Sovereign to all Knights of Labor in the United States was meant to be effective to that extent, is definitely settled by Mr. Sovereign, who states positively that all Knights are expected to join in the sympathetic strike all over the country.

SUMMONS FROM DETROIT. President Debs Called Upon to Answer Injunction Proceedings.

CHICAGO, July 11.—President Debs' private mail was returned to him by the United States officials this morning. A conference between Debs, Sovereign and other national leaders was held this afternoon. Services upon Debs to answer injunction proceedings in the United States court at Detroit was received this noon.

Mr. Debs will remove his headquarters from the Leland hotel to the Revere hotel opposite Ulich's hall. He continues in charge of American Railway union affairs and said this morning that no change in the policy of the union would be occasioned by the action of the federal authorities.

Reports to Debs are to the effect that over twenty local trades unions have already struck. Grand Master Sovereign said this noon that by Monday next every Knight in the United States would be out in sympathy.

AFRAID TO SHOW WEAKNESS. Reasons for Non-Compliance with Sovereign's Request to Strike.

PHILADELPHIA, July 11.—A prominent labor leader this evening volunteered the following reasons why General Master Workman Sovereign's appeal received so little attention in this city. First—That the Knights in this city only aggregate about 400, and they would only be a "drop in the bucket."

Second—That of these the majority are Powderly men and are opposed to Sovereign.

The striking employe think an attempt will be made to run cars non-union. The company's attempt to do so during the last strike ended disastrously.

Manager Anderson is credited with saying that he will close the road for a week, until he has time to get plenty of men, and then every branch in the city will be run.

LABORERS TO SPARE. The General Managers' Association Has Quit Hiring Men.
