To my friends: I hereby announce that I will be a candidate for the nomination of district attorney, before the Republican County convention. JOHN R. JONES.

CITY NOTES.

-Tribune readers leaving for their summer's vacation can have their favor-ite paper sent to them without extra cost, by notifying this office of the de-sired changes in the paper's address. Dr. Kay, formerly of Providence, is now located at 206 Penn avenue.

The seats for the College hall have arrived and are boing put in place. A lemon social was given last evening at the Penn Avenue Baptist church. Judge Gunster dined and entertained the

Okell Rod and Gun club last evening at Lake Ariel.

The hammer department of the Cliff works has resumed operations after an idleness of about a year. The excursion of the cathedral parish to Mountain park on Aug. 13 promises to be one of the largest of the season.

The Surricks will give their entertainment this evening and tomorrow evening.

Also matines tomorrow afternoon. Admission, children, 15 cents; adults, 25 cents, at Young Men's Christian Association hall. The will of Stephen D. Miller, late of Scott township, was vesterday admitted to probate and letters testamentary granted by Register of Wills H. T. Keeher to George F. Miller and Arthur

Michael L. Vail, charged with assault and battery, gave bail before Judge Edwards yesterday in the sum of \$300, F. H. Scutt becoming his security. Vail was thereupon liberated from the custody of the sheriff.

Last night Owen Cusick was much better, but he is yet in a greatly debilitated condition. Dr. Dolan was more hopeful condition. Dr. Dolan was more noperar of his patient yesterday than at any other time since the accident happened and begins to think that there is a chance for Mr. Cuaick to recover.

Marriage licenses were yesterday granted by Clerk of the Courts John H. Thomas, to William E. Baker and Rebecca Walker; Peter Ryder and Annie Francy, of Scran-tor; William P. Smith of Olyphant, and Elizabeth J. Joseph of Scranton, and Giacomini Nazzareno and Anna Domini

of Lackawanna.

The Eim Park Epworth leagus carried out a musical programme at its rooms last evening. The large audience was well entertained by some excellent numbers. The league orchestra opened with a fine selection. F. A. Beidleman's sketch of musical authors was followed by a tenor solo by Alfred Wooler, W. H. Peck gave a talk on church music, Will Beck rendered a bass solo and Miss Stella Huber gave a recitation. Miss Lizzie Raub concinded the programme by a review of Bible music. The entire audience wes invited to partake of cake and ice cream. of Lackawanna.

Open All Night at Lohman's Spruce street.

Lawn Razors, Refrigerators, Ice Cream Freezers. I have now on hand and will sell at cost

Tice:

Scranton Rapid Transit Company Again Asks Councils for a Franchise.

BIG RENT FOR A RIGHT OF WAY

The New Street Car Company Will Give \$500 a Year for the Privilege of Running Its Cars Over the Proposed Linden Street Bridge-The Proposed Route-Doings of Common Council.

The Scranton Rapid Transit company will make another fight for a right of way through this city. Nothing daunted by the death of the ordinance granting them this privilege, which orlinance was killed by select council a short time ago, they caused another to be introduced in council last evening, this time confiding it in its infancy to the tender mercies of the lower branch. Tots new company is especially de-sirous of securing the right of way over the proposed Linden street bridge. and offers the city a bonus of \$500 a year for the privilege. In the ordinance the company indicates that it will construct a line and run cars within two years over the following routes: Beginning at the intersection of Lackawanna and Washington avenues, thence nlong Washington to Spruce, to Jefferson, to Bank, to Liu-den, to Quincy, to Pine, to Webster, to Ash, to Frescott, to the city line; also on Platt place from Bank street to Ridge row, to Monroe, to Linden; also from Ridge Row across the proposed bridge to be constructed at or near this point, thence to Prescott avenue to the city line; also beginning at the inter-section of Beech street and Prescott avenue, along Beech to Stafford, to the old county road leading to Moosic to the city line.

INTRODUCED BY MR REGAN. Mr. Regan, of the Sixth ward, intro-

duced the ordinance. There was no dis-cussion occasioned by its introduction, it having been promptly referred to the reilway committee.

In the absence of President Nealis, Mr. Robathan was chosen to preside over the meeting. The pels tax or-dinance passed first and second reading after having been favorably reported apon by the committee immediately pon its receipt from select council. The first matter that came up under

the head of convenient business brought up a nice little point of parliamentary law. It was a resolution exonerating Mrs. Katheryne Rusne, of Gibbons street, from a tax of 90 cents. The mayor had vetoed it on the ground of unconstitutionality and the select conncil had passed it notwithstanding the mayor's veto. A motion to concur in the action of select council was put and it might have passed had not Mr. Rob-athan called attention to the fact that it required a two-third vote to pass of measure over the mayor's head. A call of the ayes and mays showed six for and eleven against. Some of the members, Mr. Sweeney in particular, wanted to make out that a two-third vote meant two-thirds of the mombers pres-ent, but Mr. Robathan ruled that it called for two-thirds of the members

contended that it was just as lawful to experate a poor widow from her small front of the General Phinney Hose The prisoner w taxes as it was to remit the taxes of a

corporation for a long term of years.

Mr. Golden, who had been otherwise engaged during the discussion, when called upon to vote, said he did not understand the question before the house. Clerk Muhon informed him that it was a motion to pass a measure over the mayor's veto. Mr. Golden waited for, no further explanation, but voted an emphatic "yes" and resum at his conversation with a gentlemen on his left.

MR. ROBATHAN'S SUBSTITUTE. Mr. Robathan announced that he would be absent on a European trip for seven or eight weeks and asked that some one be appointed to take his place on the visitet committee which at present is busily engaged on the consideration of this contemplated im-provement. With the permission of provement. the council the chair appointed Mr. Thomas, of the Fourth, to fill the va-

cancy. following resolutions were The passed and sent over to the select council for concurrence: Providing for repairs to the Neptune engine house providing for a runway at the General Phinney engine house; providing for the repairing of the roof of the Niagara hose house; asking the city solicitor to give an opinion as to whether the city owns the surface over sewers; direc; ing the city engineer to give grade on Schimpff court and on Rosar place, and directing the chief of the fire depart ment to erect a fire hydrant on the river bank at Alder street.

Other new measures introduced and passed, were a resolution directing the chief of the fire department to erect a fire hydrant on the corner of Richter and Ash streets, in the Tenth, and a resolution exonerating Mrs. T. P. O'Malley from paying the penalty for 1892 taxes. Ordinances directing the mayor to sign contracts for water to supply hydrants and providing for the pavement of West Luckawanna avenue same over from select council and were referred to their respective committees.

MEETING OF SELECT COUNCIL.

The Bridge Ordinance Passed on Third Reading.

The was but a quorum and one to spare when select council convened last evening. In the absence of President Chittenden, John E Roche was elected chairman pro tem on motion of Mr. Manley. Those present were Members Finn, Thomas, Clark, Roche, Durr. Wagner, Schwenk, Manley, Burns,

Westpfahl, Connell and Lauer. Although a deluge of matters were acted upon, none were of great im-portance, except the Linden street bridge ordinance which passed third and final reading, and at no period did the proceedings reach a point where the ayes and nays were cailed.

Mr. Manley presented the report of the paving committee recommending favorably the property owners' peti-tion that Franklin avenue be paved between Spruce and Vine streets. The following awards of contracts were recommended by the streets and

bridges committee through its chairman, Mr. Thomas: Culvert over Leggett's creek at North Main avenue, Julius Maier, \$2,190.33, less \$250 for old stone now on the ground. The two next lowest bidders were John Stout and Corcoran & Donohue in the order

Improvements on the Prospect avenue culvert over Stafford meadow brook, Corcorau & Douohue, \$998.
Improvements on the Pittston avenue culvert over Stafford meadow brook, V. H. O'Hara, \$397,50.

ANOTHER EFFORT MADE

Carbstones, sidewalks and gutters on Seventh street, Walter Greaves, 55 cents per lineal foot for curbing, 19 cents per square foot for sidewalks, 55 cents per quare yard for gutters.

The report was accepted with the exeption of the portion relating to the Pittaton avenue culvert, which on mo-tion of Mr. Connell was changed in avor of Corcoran & Donohue, their hid being \$150, or \$17 lower than the bid of V. H. O'Hera.

STATEMENT OF COMMITTEE.

Mr. Thomas explained the committee's action by stating that, inasmuch as Corcoran & Donohne has been awarded one contract, and because of their failure to execute the work on the Carker street bridge aboutments in the time specified, the unjority of the committee favored accepting the bil of Mr. O'Hara. Mr. Connell contende that such action was contrary to law and while not questioning the commit tee's good intentions, urged the amend ment as a matter of justice.

The streets and bridges committee recommended favorably the ordinance providing for the opening of Wyoming avenus between Phelps and Ash streets, which was received and ordered

The report of the sewers and drains committee, presented by Mr. Durr, recommending that the contract for building sewers on Carbon, Jordan and Mineral streets and Silex court be warded to John Ferguson at \$1.10 per ineal foot, was adopted.

A communication from the city engineer directed the urgent necessity for action caused by the extensive cave-in beneath the Schultz court main sower. The city engineer and street commissioner were directed to repair the dam-age and charge the expense to the inidental and judgment fund. A more detailed account will be found in an

other column. The auditing committee's reportwas adopted, including the \$60 bill of James W. Guorge for oiling hydrants. This bill had been expunged from a previous report by vote of council,

BRIDGE ORDINANCE PASSED. On motion of Mr. Connell the meet ing went into the eighth order of busi-ness, and, in addition to the Linden street bridge ordinance, the following measures passed third and final read ings: Appropriating \$320 for a team for Neptune Engine company; provid-ing for the purcouse of the engine now being used by the Nay Aug company from the Citizens' Fire association for \$3 000; providing for the laying of sidewalks on North Main avenue, between Jackson and Pettebone streets; providing for opening and extending Ross avenue.

After the passage of the bridge ordinance Mr. Roche called attention to his resolution of a previous meeting directing the city engineer to give the bridge plans preference over all other work. Mr. Roche said his action was only for the purpose of burrying the work along and did not convey any criticism of Mr. Phillips, who is deserving of the city's compliments for the detailed and masterly plans for the Linden street bridge.

The meeting returned to the third order of business and passed a large number of concurrent resolutions, among which are the following;

Directing the city solicitor to give his opinion of the rights of the city in the possession of a main sewer when the same is laid in the bed of a natural stream, and the rights of abutting property owners; directing the city en Mr. Hickey fought for the passage of the exoneration, saying that he wanted to make a test case of it. He wanted to make a test case of it. He house; directing the city engineer to prepare plans and estimates for the laying of sidewalks, curbs and gutters on Penn, Caponse, Washington and Wyoming avenues, Marion, Green Ridge and New York streets, in the Thirteenth ward, Green Ridger providing for the repairing of the Niagars and Liberty Hose companies' and

the Neptune Engine company's quar-The ordinance providing for the repaving of Penn avenue between Luckwanna avenue and Spruce street with asphalt was referred to the paving com-

mittee in conjunction with the city so-An adjournment was made until Aug. 9

PLANS OF LINDEN STREET BRIDGE. The Kind of a Structure That They

Call For. The plans and specifications prepared by the city engineer for the Linden street bridge show it as it will appear when finally constructed across the river. It is what is known as the "camel back" type, and consists of three spans, the total length of which s 687 feet, including the ten feet across he tops of two supporting towers which rest on piers. The easterly span is 236 feet long, the central span 210 feet and the westerly span 221 feet. The estimated cost is \$85,000 which cludes masonry, iron work, painting,

flooring and elevation. The west and east spans are sixteen and nineteen feet above the Jersey Central yard and the Lackawanna's Diamond branch respectively. The river lies seventy feet beneath the cen-

tral span. A wooden flooring is specified, but the stringers will be punched and so arranged as to receive buckle plates to support a concrete and asphalt pave it such is at any time desired. The width of the bridge permits a 31-foot roadway and an 8-foot sidewalk on

either side. Four angles and three plates comprise each truss beam, which are designed to carry eighty pounds per square foot. The floor and primary truss members will carry 100 pounds per square foot, and in addition a 16 ton electric car on a 71 foot wheel base or a steam road roller weighing

fifteen tons. The whole structure is supported in the middle by a pier on each side of the river and a tower on either pier. Each truss is 38 feet high at the center and 26 feet at the end posts.

A light and graceful, rather than a heavy and massive structure, the whole

appears from the drawings. The New State Normal Echool, The fall term of the East Stroudsburg State Normal school will open Sept. 3, 1894. Marvelous success the first year; 1,165 pupils enrolled during the three terms. Aug-nificent buildings. All rooms carpeted and furnished throughout with the most modern furniture. But Those Who Were in at the Death Weren't Thrilled a Bit.

GREAT EXCITEMENT IN DE 'ATE

Early Evening Pedestrians Treated to a Little Variety on Linden Street and Washington Avenue-An Absent-Minded Youth Nearly Scared to Death and the Ridiculous Denovement Which Followed.

Timt's the man!! Linden street was crowded with a notley throng of pedestrians, some ushing and crowding with the anxiety business cares depicted on their ry movement; some merely promen-ing unconscious of anything savor ng of worry, living, for the time be ng, only in the desire to pass an evenng of quiet pleasure; some were or so side of the street and some were a the other and some were crossing rom one side to the other. The mos but there wasn't any moon, come to hink of it, and if there had been on wouldn't have cut any figure in the

Electric City, anyhow. Our of this hetrogenious congregagation was a lithe youth who walked icisarely along with that graceful abandon which bespeaks freedom of mind and a refreshed body. The fact that he was wiping his moustache with he back of his coat sleeve also betoken I that he had but then refreshed his ody. In fact it was this refreshment of body that inflicts this tale on the

When the ominous words with which this chapter is opened, rang out upon the cool crisp (cool crisp isn't right, but it's cupho nous) alr, the litne youth with the weeping mustache was heading towards the court house square. A liceman suddenly sprang out of the darkness or a barn or some old place along there and made a rush for the l.

The latter was frightened very muca indeed and started to run. So lid the policeman. So did the promenaders. Likewise the business people. We were going to add a messenger y, but on sober second thought we'll

Along Linden and out Washington mad coass led. Many of the seven undred pursuers had distinctly heard the snot. Others had heard two shots and one little knot of men who had con standing on the corner were positive that a woman's screams followed the shots.

As the crowd ran it grew in size ntil it reached the top of the hill on Washington avenue, when it was sudenly brought to a standstill by runoing up against itself. That is, the foremost ranks stopped and the others

ouldn't get past.
"They've got him!"
"Toat's him!"

"Isn't he vicious looking ---Two officers and about two dozen of in first ones to reach the spot had the lithe youth in custody and each was explaining to the crowd how he had aptured him. Some of the later arrivals, who knew a thing or two about such cases, retraced their steps with

The prisoner was safely pinioned between the two officers, and surrounded by a crowd which had now grown in numbers to about 2 000, the start to the cene of the crime was begun. When to corner of Wyoming avenu, was reached the mob was met by a portly man in white apron and shirt sleeves, the same one who had raised the alarm. With rage flishing out of his eyes and uplifted hand he rushed ward the lithe youth. The crowd made way for him. In fact the crowd made way for four or five street cars, abreast, when portly uncoated, beaproned gentleman addressed the lithe

youth with: "You pay for dot beer now, you dum lumbiseckie!"

The little youth smiled. He had forotten to pay for his glass of beer. Then he became angry. The policemen remembered that their beats had been reglected for some time. The bartender ot his five cents. Too lithe youth got over his surprise and on to a Nay Aug car and went home.

EDITOR J. W. GOULD'S BRIDE.

Wyalusing Rocast Pays Tributs to Her Many Good Qualities.

Concerning the marriage of Editor J. W. Gould, of the Evening Express, and Miss Mary E. Dodge, of Camptown, the Wyalusing Rocket says:

"The wedding was quite a surprise, so quiet that only the brothers and sisters of the bride, with the minister, knew about it. Miss Dodge was a great favorite with the people, A lady of culture, one of the highest and most faithful workers in the community, and shurch. She carries with her to her new home the prayars and best wishes of the people. Camptown's loss will

e the gain of Scranton. Mr. Gould is a bright young newspaper man of Scranton. He is a naber of years has followed the newspaper business, doing the greatest mount of this work upon The SCRAN TON TRIBUNE. He is now managing ditor of Scranton's new afternoon daily, the Express, on which he is doing excellent work. Our nearty congratulations are extended to Mr. and

SOME NEW BUILDINGS.

The Plans for Them Have Been Com-

pleted. On or before Feb. 7 a 6 story double Washington avenue, by Carter & Konnedy, who purchased the property a few weeks ago. The plans are now practically completed and are at the office of Architect I. L. Williams.
The building will have a solid ston

front, and the contract for its erection. which is to be awarded next week, wi provide that work shall begin Aug. The upper stories will be arranged for lofts and will be reached by two freight and a passenger elevator.

Another new building upon which work will soon begin is that of the

Sterling Sitk company at Sixth and West Elm streets, which will cover a surface of 40 by 140 feet. It will be of dow-burning construction and built of brick with a separate boiler and engine house. The total cost will b \$15,000 The contract provides that the structure be completed by Oct. 1

SCHULTZ COURT SEWER DAMAGED

Pipes Dropped Into a Mine Opening. May Cost Several Thousand Dollars to Repair It,

A considerable portion of the Schultz court sewer, of the Tenth district syslying between Mulberry street and the Delaware, Lackawanna and Western tracks on the hill has been lamaged to such an extent by a set lling of the ground into the old mine workings of the Lackawanna Iron and Coal company that it will have to be rebuilt. The cave-in was discovered Wednesday afternoon by a corps from the city engineer's department, City Engineer Phillips later went into the mine and found it foul and recking

with escaped sewage.

The Schultz court sewer affected by the fall of earth was built but a year igo and is intended to receive ten imes its present volume of refuse by For this reason the damage which may incur an expense of several thousand dotlars will have to be repaired in time to receive the current from the sewers

now being built. The city engineer's investigation shows that the man hole at Linden street is damaged so badly that a new one will have to be constructed and that for a distance of several rods north of the manhole the sewer has dropped completely out of sight, the ipes lying in the mine beneath. South of Linden street also a portion of the sewer has fallen with the earth. For a considerable distance the mine workings are but fifteen feet below the

sewer line.
The city engineer's theory is that the rock and earth were loosened by the blasting when the sewer was built, and the constant crumbling resulted in a

final and general cave-in. At last night's meeting of select council a communication was received from Mr. Phillips, substantially in accordance with the above facts and urging immediate action providing for the repairing of the sawer. A resolution was passed directing the street commissioner, in conjunction with the city engineer, to rebuild the sewer and charge the expense to the incidental and judgment fund.

THE Delaware and Hudson Canal comany's new passenger station at Scranton will be opened for business on Monday, ruly 30. All trains will arrive at and depart from that station on and after the above date, and the passenger stations at Bridge street and Vine street will be

store building will be erected on the Soo Hoo Doo Gives a Description of the Army old Presbyterian parsonage lots, of the Celestial Empire.

METHOD OF FIGHTING

Services in the Army Is Not Compulsory, but on Account of the Large Population No Difficulty Is Found in Securing Racruits-Candidates Must Pass an Examination Before They Can Be Admitted to Army.

Now that the entire country is eathlessly listening for the runi-ings of war from the Celestial empire d awaiting with dreadful forebodgs the signal for a conflict which, on count of the great population of that untry, will necessarily entail a stu-ndous sacrifics of human life, an idea their military operations furnished one of our own residents will un-ubtedly be of interest.

Believing this, a TRIBUNE reporter esterday visited Soo Hoo Doo, the Vashington evenue merchant, who is no of the most intelligent Chinamen this section, and gleaned some very ateresting information concerning the rmy of China and their method of thting, subjects upon which very litif anything, has been written in

is country. Mr. Doo, although possessing a very ecided pigeon inflection to his English, as quite an extensive yocabulary an makes himself easily understood. He tends English well and keeps abreast f the times in all affairs relating to Chinamen and is looked upon as eader among his countrymen. He is a Christian and has been instrumental in turning many of his countrymen from the Confucian doctrine. That he is also prominent in Chinese affairs is evidenced by the fact that through inormation gained from him the writer is offering. the completion of extensive sewer formation concerning the figst which operations now under way on the hin. the Six Companies made against the Geary law.

SERVICE NOT COMPULSORY. Mr. Doo in answer to the reporter's questions stated that in Caina, unlike as great European countries, service i the army is not compulsory, but as has a population of 610,000,000 it exerial for its large standing army only the very best men of the nution re allowed to enter. Casto is not conidered, but each candidate must page examination as to general intelligence, and undergo a test of strength, and lso skill in handling arms. This test conducted by officers trained in chools corresponding to our West coint, and is made in public. The canidate is also required to answer quesions as regards the science of uch as the attack, defense and erec ion of fortifications, the movement and istenance of armies in different kinds

I countries, etc. He must snow a skill bordering on erfection in the handling of a riff, amboo bow, sword and another instrument, which from a drawing made by Mr. Doo, might be termed in Eugish, a battle-ux:. His strength is ested by the lifting of weights and hi

Never complain about our Tinning and Plumbing bills.

 $\mathrm{WHY}?$ Because we have the quickest and most competent workmen in the city. "No boys." "Its

endurance is shown by running. The soldi-rs, he says, are paid good wages, in Mexican coin, are under pay the year around and are pensioned after disability. In battle they are fearless and anxious for glorious achievements. The greater part of the army is infantry which are quartered in the barracks in the larger cities. The control of the army is, of course, vested in the emperor, and the governor of each province is the commander of the soldiers in his district. The discipline is very strict and the punishment for in-

fraction of rules severe. CONDITIONS TO ENTER THE NAVY. Of the navy the Doo had but little knowledge. The requirements for admission to this arm of the service are as exacting if not more so than in the army. It is comparatively small, but it is excellent as regards the fitness of the men. Mr. Doo told of an exhibition given by the force of one of the naval vessels which he witnessed when a boy. Among other interesting features of the drill he related one which is certainly novel, so much so that it almost passes belief. At a signal, says Mr. Doo, the entire force of the ship saped into the water, each man bearing a large bamboo snield on his arm. They strung themselves along in the water between the ship and the shore and while supporting themselves on top of the water held their shields in such a position as to form a compact and safe bridge over which many peo-

ple passed.
Mr. Doo says that should China and Japan engage in a long war the loss of life would be terrible, as both couptries would throw their entire forces
