Have You Seen the

BROOKLYN BRIDGE

It is well worth seeing, bringmg to mind some of the artistic features of the World's Fair. The bridge is made of Castile Soap. It is a pure White Castile, and is a floating Soap; made only from pure vegetable oils. We are selling it at the unheard of price,

We are enabled to put the Soap on sale at this low price by special arrangement with the manufacturer, who is anxious to introduce it to the trade in Scranton!

It is already having a big sale, and we may have to pull the bridge down in a few days in order to supply the demands; therefore, if you wish to have a look at it make your visit as early as possible. Bring the children with you; such a sight is always welcome to the little ones.

The best friend the working girl has ever had is Paine's celery compound. It keeps her well and full of strength and courage. It restores vitality to tired nerves: It feeds every tissue of the body when unusual waste has reduced the weight and strength of the body, as is frequently the case in the heated season. It gives new appetite, and keeps every part of the body, nerves and blood, so well nourished that the nervous, exhausted, tired, "run down" feeling from worry and hard

work soon disappears.
In headaches, the head is not alone the offending part. The brain is the center of the great nervous system, and there is a continual communication from every part of the body to it. Hence a derangement of the stomach, liver, or kidneys produces headaches, shough the head be in a healthy condi-

SUNDAY OBSERVANCE AND THE UN-LICENSED SALOONS.

DEAR SIR-Allow me to compliment you for the space you give in your excellent paper, The TRIBUNE, to the North End notes. It is a thing that we greatly needed for some time. But I was quite surprised this morning to find such a list of disorderly persons here during the last month. I do not remember that I have ever seen an account of that published from here before. It is the very thing that ought to be printed every month and from this time out I hope it will be done regularly. I rembember well when the high license question was discussed here some pears ago that one of the strongest argu-ments used in favor of it was that the li-censed people themselves would take care for their interest to shut up every unli-censed place everywhere. After a number of years of high license experience in the city I am not aware of a single inproduction of fresh nervous energy and pure blood was the one endeavor of Prof. Edward E Phelps' long study of nervous exhaustion. The result of his life work was Paine's celery compound, that remarkable remedy that permanently and speedily cures diseases of the liver, kidneys and stomach. It is the greatest regulator and blood purifier of this present century.

Briggs will forward his plans to Washington and apply for a patent.

The employes of Storrs' mines will

and pay the costs and have the pleasure of seeing the offenders go free without even a charge, "Go and sin no more." We as Welsh churches of the North End have united to hold meetings every month concerning Sabbath observance and very naturally some political points branch up in it now and again which create quite a ripple of enthusiasm, although our meet-ings are not a political movement in any way but a religious gathering for an en-tirely religious object of teaching a better observance of the Sabbath amongst ourobservance of the Sabbath amongst our-selves. But the more we discuss the Sab-bath observance question the more we see the need of city officials who are not afraid to declare the law and enforce it. The movement has done a great deal good here already and we expect better things in the future. The sentiment is raised concerning the Sabbath and a great deal of enthusiasm has been created throughout the place. The result will be by and by; I expect that we will go in enthusias-ically at our part election for better man ically at our next election for better men in office in the city who will not be afraid to declare themselves in favor of the Sabbath and the law of the land, and against every law-breaker as well as against this

slackness on the part of our officials to declare the law and to entorce it. Yours, W. S. JONES.

Scranton, Pa., Aug. 3.

WANTS SPEAK E SIES CLOSED. Editor of THE TRIBUNE: DEAR SIR-I was pleased to see in your issue of this morning, under the heading, "News of North End," attention called to a matter that has become a standing disgrace to our once quiet and well-behaved community, and a source of shame and anxiety to the many good people of Provi-dence. Fifty-one arrests in July is cer-tainly a record of shame that should arouse all decent people to act at once and apply the remedy (if we have any) that will close these "holes in the wall" effectively and confine the saloons (if we must have them) BRANCH STORE: Watt Building, Carbondale. to the exact limits of the law. When edi-tors of what are called secular papers, especially such papers as have great influ-ence, take hold of this matter, there is some hope for our country. That this accuraced thing has been going on for some time and these dens of vice have become quite open and defiant is a fact well known, and it is time something was done for their suppression and the enforcement of law and order. The discontent with the existing state of things is growing every day. The muttering of the thunder is heard in the distance. The storm will soon burst. The people will not endure this intolerant rum curse forever. You have our hearty support and conversion. have our hearty support and co-operation in this good work. Every true minister of Christ-aye, every true Christian—will stand by you in an affort to purge this otherwise excellent community from this shameful record, and drive out a class that

no liberty-loving, honor-cherishing, Godfearing, purity-promoting, law-abiding cltizen can regard with respect. D. M. KINTER, Pastor Providence Christian Church.
