SPAIN RESENTS DUTY ON SUGAR. Her Government Will Move Against the Present Treaty.

THE EFFECT OF DISCRIMINATION. The Spanish People Will Resist Our Efforts to Monopolize Cuba's Commerce—Tariff Talk at Washington.

MADRID, Aug. 21. EL NACIONAL today declares that in view of the new United States tariff, by which Cuban sugar is handicapped 40 per cent, it is forced to demand that the minister of the colonies, Sr. Becerra, propose to ask the Spanish government to denounce the existing treaty between Spain and the United States in regard to Cuba.

WASHINGTON, Aug. 21.—Additional errors in publication in the new tariff bill are constantly being discovered by the treasury officials. Today an important mistake was found in section 5 of the free list. This section provides that articles of foreign manufacture must be stamped with the name of the country of origin, and then says: "And until so marked, stamped, branded or labeled they shall not be delivered to the importer."

Up to this time Secretary Carlisle has not requested an opinion from the attorney general upon any of the many singularities in the bill, and probably will not do so until after the bill becomes a law. The secretary, however, has expressed the opinion that all goods in w bond which have been changed from the dutiable to the free list, will be subject to the duty in force when imported if withdrawn for consumption.

MR. WILSON'S HEALTH. Chairman Wilson will probably take a trip to Europe soon after congress adjourns. He has, however, taken a trip up the lake, and another to cross the ocean, and he inclines to accept the latter, as it gives greater prospect of recuperating his health.

ORIENTAL WAR INTELLIGENCE. Story of Japanese Commander's Wanton Destruction of Life Confirmed. MINISTER KURINO IS CONFIDENT. Japan's Diplomat Says the People of China Do Not Care if the Tartar Dynasty Goes to Pieces—An American Officer's Services Are in Demand with the Mikado.

LONDON, Aug. 21. A dispatch to the Times from Shanghai today says that the court of inquiry has established the fact that the commander of the Japanese war ship Naniwa ordered the destruction of the drowning man from the Chinese transport Kow Shing, which was sunk by Japanese torpedoes in the Bay of Peking. The Japanese Admiral Honorable Sir E. R. Fremantle, in command of the British-Chinese station, is collecting detailed evidence on this subject.

SHANGHAI, Aug. 21.—No news of any importance has been received here tonight in regard to the movements of the fleet or concerning the military operations. In fact, it may be distinctly asserted that no real news has reached Shanghai concerning the war between China and Japan, since Aug. 12. The two Japanese spies who were arrested in French territory of the Szechuan are under the protection of the United States consul, and will remain so until a charge is clearly formulated against them.

SAN FRANCISCO, Aug. 21.—Minister Kurino, of Japan, is keeping a very keen eye on the newspaper dispatches from Seoul and Yokohama. He said last night that he could not believe all that was being reported, for there was an understanding between himself and the government that when there was serious fighting he should be apprised at once. "I have consequently been expecting some news, but since my arrival I have not received one. Consul China has not received any either."

NOT IN NEED OF AID. "In connection with this, I want to comment the impression that I am here to raise a loan or possibly to get American troops and officers. My coming is in no way in reference to the war. We are in need of no guns, money or men. We have a standing army of 80,000 men and reserves sufficient to make 2,000,000. All are well trained. Even in 2,000,000 we have far more applicants for places to fight than we require. Our people are anxious to volunteer, but we do not need them. The volunteers would be sent to the front lines. Our people, too, are in need of the government, but we do not need it, and steadily refuse it."

"Since my arrival a number of Japanese and others have tried their best to influence me, but I have declined the real position and endeavor to discourage them. Besides the 800,000 trained men we have forty-seven war ships. We are thus well equipped. "I think the policy of China is not very wisely, but it is a disavowed, unnumbered country, and even then will avoid nothing. The people are not patriotic. It is a Tartar dynasty and they do not care for it. It is a disavowed, unnumbered country, and even then will avoid nothing. The people are not patriotic.
