REUNION OF THE VETERANS

Grand Army Encampment at Montrose Next Week.

WILL BE KNOWN AS CAMP REPOSE

A Great Gathering of Battle-Scarred Warriors at Susquehanna's Fair Capital—Grand Army Men from Lackawanna and Luzerne Counties Will Be Out in Large Numbers—One Hundred and Forty-third Day, Sept. 4.

Special to the Scranton Tribune. MONTROSE, Pa., Aug. 28. THE greatest reunion of veteran soldiers in the history of Susquehanna county will be held on the grounds of the Susquehanna County Agricultural Society in this borough during days of Monday, Tuesday and Wednesday, Sept. 3, 4 and 5, of next week.

The three days will witness the annual encampment of the veterans of this county, their reunion and the reunion of the famous One Hundred and Forty-third regiment members, principally from the counties of Lackawanna and Luzerne. The location of the camp site bears the reputation of being one of the most picturesque spots for such a purpose in the state and is capable of containing many thousands of old soldiers and sightseers. It will be known as Camp Repose. The following posts have ordered tents and will establish headquarters in camp: Colonel Moines, Scranton; Sergeant Fell, Waverly; Sergeant Roper, South Glendon; Sergeant Phillips, Clifford; Lieutenant Titman, Auburn; Bissell, Brook; Lieutenant Rogers, Brooklyn; Myron French, Jackson; Harvey Rice, Harford; Southworth, Franklin Forks; Captain Lyon, Glenwood; Four Brothers, Montrose, and the One Hundred and Forty-third regiment.

SPECIAL EXCURSION RATES. The Delaware, Lackawanna and Western railroad has offered a special excursion rate of \$1 from Scranton and Binghamton, and half fare from intermediate points, and from stations on the Bionnburg division. Tickets good going Sept. 4 and 5, and returning until Sept. 6, inclusive. The spirit which will prevail during the reunion and encampment is well illustrated by the following, which appears in the marching orders of the general committee: "And now, fellow soldiers, preparations have been made for an 'Old Fashioned Encampment'—such an one as you asked for when you elected me your commander last year. It will be here for you to enjoy; you will not enjoy it unless you are here, neither will it be a success unless you come. The invitation is broad; it is not confined to county lines or state boundaries, for fraternity and comradeship are far-reaching." Captain H. F. Boardley, general commanding, and who was recently elected at Fairview the president of the Seven Counties Veteran association, is in immediate executive control of the preliminary arrangements. This fact alone gives evidence that the plans perfected will be complete and satisfactory.

REUNION OF 143D. Sept. 4 will be "One Hundred and Forty-third Day" and will witness the arrival of that regiment in command of Captain P. DeLacy, of Scranton, and the surviving members from Lackawanna and Luzerne counties, honorary members and invited guests. They will reach Montrose at 11 o'clock a. m. on a special train over the Lackawanna and Montrose railroad from Alford, which will connect with the train leaving Scranton at 9 o'clock. The Susquehanna county veterans will meet them at the train and escort them to the Montrose House, where they will be tendered a dinner by Company H, of that regiment. Burgess H. C. Jessup, of Montrose, adjutant general, will give them a welcome to Montrose and at 1:30 they will be escorted to Camp Repose, less than a mile distant. Gustava A. Grov, congressman-at-large, from Pennsylvania, will deliver an address and other prominent speakers will also be heard. The One Hundred and Forty-third camp-fire will close the features of the day.

Veterans arriving Wednesday on the 11 o'clock a. m. special Lackawanna & Montrose train, connecting with the D. L. & W. 10:30 train at Alford, will be met by bands and a mounted escort and the delegations accompanied to the camp. Colonel C. K. Campbell, of Pittston; Justice McCollum of the Supreme court of Pennsylvania, and other prominent speakers will participate in the programme of the early afternoon. Company G Thirteenth regiment will give an exhibition drill after which they will storm and attempt to capture Fort Delaware from its complement of veteran defenders. In the evening the camp fire will be lighted and the "tie wedding" of Four Brothers post, of Montrose, celebrated. Bean soup, coffee and hardtack will be served during a period of music, speeches and song. By request of many veterans, who are now too old to endure the fatigue of drills, this feature has been eliminated from the programme.

Uniform or Useless.

Mr. Reed at O. O. Orchard. Protection, as a system, is something which can be understood and applied, without defended. Protection, as a principle, demands that this country shall do its own work. Protection, as a principle, demands that every thing which can be reasonably and seasonably produced in this country shall be made here, and that the markets of this country shall be open to our own products from one source or another, without discrimination as to the nature of the product, except such discrimination as is dictated by reason and good sense. In other words, protection, as a method of preserving the American market to the American people, is something which is defensible, but protection in spots, protection here and there, which charges which are falsely made against the true protection.

A MILLION A YEAR.

This Vast Sum is Annually Expended in Advertising by One Concern.

Much has been written and said about advertising and advertising, but it is perhaps not generally known that not only is the greatest amount of advertising done in America, but that the largest personal advertiser is an American. Several houses, both in Europe and America, expend upwards of half a million dollars per year in advertising; but the advertiser referred to has actually expended during the past year over a million dollars wholly in advertising. This vast sum of money has not been squandered, but has been carefully, judiciously, scientifically expended; and it has paid a profit of fifty cents for every dollar expended.

Here is certainly a valuable lesson for those who advertise or have advertising in contemplation. It shows that half-hearted attempts at wooing the Godless of Fortune by advertising are not profitable, and that even extended efforts are unprofitable unless they are systematically, scientifically and with the greatest care and judgment. It is not our purpose to give the name of this advertiser, who, besides being the largest one in the world, is certainly the most retiring and modest; but we may say, incidentally, that he is the projector of the pre-figured food, Paikola which, however, is only a small part of the business transacted by this concern. Men of this special genius are rare and the success which attends their efforts still rarer, but such success shows what can be accomplished by well conceived plans and superior effort.

Lightning on Shipboard.

My father was walking the poop of his vessel in Sydney harbor, and, as it was rather a close, warm evening, the awnings were furled. It was thundering and lightning. He had just got up and turned around when he saw something exceedingly bright drop before him, and he was knocked down. In falling he struck his head against the rail, which stunned him for a minute. When he got up he found that the front part of his legs was severely scorched. Two of the planks in the deck were charred about an inch deep for a length of seven feet, and the main mast of a ship lying about a quarter of a mile astern was broken off, though whether by the same stroke he could not tell. When the deck was repaired my father kept the charred portions, and he still has them to show to any one who doubts his story.

The ship that was struck by the lightning had no conductors on her masts. Most ships now have them. In the ship on which I served my time we had a platinum rod on each truck, with wire conductors passing round the class insulators down the backstays. On the top of the main royal the ends of these wires were thrown over the side. On dark nights, when there was any lightning flashing, the points of the platinum rods used to have a blue light glimmering on them, and the effect was very weird and uncanny.—London Tit-Bits.

The Use of Glasses.

Those persons who find it necessary to hold any object nearer than fourteen inches from their eyes, who find that their eyes become dry and itching on reading, need glasses. Persons under forty years of age should not wear glasses until the accommodating power of the eye has been suspended and the exact state of refraction determined by a competent ophthalmic surgeon. The spectacle glasses used by peddlers generally are hurtful to the eyes, as they are made much, as the lenses are made of inferior sheet glass, and not systematically ground. No matter how perfectly the lenses may be made, unless they are mounted in a suitable frame and properly placed before the eye, discomforts will arise from their prolonged use. Persons holding objects too near the face endanger the safety of their eyes and incur the risk of becoming nearsighted. The nearsighted eye is an unsound eye, and should be fully corrected with a glass, notwithstanding the fact that it may need no aid for reading. The proper time to begin wearing glasses is just as soon as the eyes tire on being subjected to prolonged use.—Detroit Free Press.

An Aeronaut's Carrier Pigeon.

When an aeronaut left Vienna with his balloon for Russia the society for rearing carrier pigeons made him take a number of birds with him. The aeronaut, after some days' sojourn in Russia, let them fly and telegraphed to Vienna, at the same time adding that birds of prey had pursued the pigeons as far as he could see them. Two days later one of the pigeons returned to its cote in Vienna, having made the journey from a remote part of Russia.—London News.

London papers gravely announce the "engaged mantle" as a New York novelty, worn, it seems, by young flances as a more outward sign of their contemplation of matrimony than the engagement ring.

Suits are just right at present, neither too full nor too skimpy. Some are paneled, some are slashed, and a few—a very few—are draped.

All That's Claimed

"I had a poor appetite, that tired feeling and was run down, but Hood's Sarsaparilla has done me a great deal of good. I have a better appetite and do not feel tired. I can recommend Hood's Sarsaparilla as an excellent spring or fall medicine to keep the blood in order. Myself and three daughters have used it and it has done as much good. We do not now have to call upon a doctor, as formerly, in the spring time, and I can say that Hood's Sarsaparilla is all that is claimed for it. I most heartily recommend it, and shall always keep it in my house." ALBERT KINSEY, Auburn, Pa.
