THE VETERANS TO CELEBRATE

Extensive Preparations for the Grand Reunion at Montrose.

THE DISTINGUISHED SPEAKERS

Over Three Hundred Veterans Expected—The Grand Army Posts and Camps of Sons of Veterans Preparing to Give the Visitors a Hearty Welcome—Galusha A. Grow, Justice McCollum, T. V. Powderly, A. J. Colborn, Jr., Colonel Lacier and Others Will Speak.

Special to the Scranton Tribune.

MONTROSE, Aug. 30.

DURING the last few days both the citizens and Grand Army veterans of Montrose and Susquehanna county have been assiduously planning and working in anticipation of the great Veterans' reunion in this borough during Tuesday, Wednesday, and Thursday of next week.

It is expected that the encampment will attract the largest crowd known in the history of the town. According to Captain H. F. Beardsley, general commander of the veterans' organization of Susquehanna county, the reunion will be attended by over 3,000 veterans and possibly three times that number of visitors, sightseers and excursionists. Captain De Lacy, of Scranton, reports that large delegations of ladies will accompany the One Hundred and Forty-third regiment from Scranton, Waverly and points in Luzerne county.

The local Sons of Veteran's camp has decided to establish headquarters at Camp Repose and has so notified the members of that order in this and adjoining counties.

ALL OLD SOLDIERS WELCOMED.

The patriotic and hospitable citizens of Montrose have needed no suggestions as to the welcome they should give the old soldiers and visitors. The town will be generally decorated with flags during the day and lights and lanterns by night, and during the period of encampment business generally will be devoted to the needs of the occasion.

On Wednesday evening Sept. 5, the tin-wedding camp fire at the Four Brothers post, promises to develop one of the most peculiar and enjoyable features of the encampment. Thousands of the veterans will be served bean soup, coffee and hardtack, sing the songs of the battlefield and march, listen to brief speeches especially adapted to the occasion and be treated to a banjo, guitar and mandolin musical programme.

In addition to the special trains on the Lackawanna and Montrose railroad leaving Alford at 10 30 on the mornings of Sept. 4 and 5, there will be a special train on the Montrose railway leaving Tunkhannock at 9 a. m., Sept. 4, after the arrival of the morning trains from the west and east on the Lehigh Valley. Half-fare excursion tickets will be sold via the Delaware, Lackawanna and Western from Scranton and Binghamton and intermediate points, and from stations on the Bloomsburg division.

The following well known speakers are among those who will be present: Galusha A. Grow, congressman-at-large from Pennsylvania; Justice J. B. McCollum, of the supreme court of Pennsylvania; T. V. Powderly, and United States Commissioner A. J. Colborn, jr., Scranton; Colonel J. D. Lacier, Wilkes-Barre; Colonel C. K. Campbell, Pittston; Major Brown, Harrisburg.

Criticising a Young Lady.

"She would be a pretty girl for but one thing."

"What's that?" asked Charley.

George—Her face is always covered with purple and red blotches.

Charley—Oh, that's easily enough disposed of. Used to be the same way myself, but I caught on to the trouble one day, and got rid of it in no time.

George—What was it?

Charley—Simply blood eruptions. Took a short course of P. P. P. I tell you, it's the boss blood corrector. The governor had rheumatism so bad that you could hear him holler clear across the country every time he moved. He tried it, and you know what an athletic old gent he is now. If somebody would give Miss Daisy a pointer, she would thank them afterwards. All the drug stores sell it. **

Samuel Urquhart, father of Lon Urquhart, who was drowned in Seneca lake on Saturday last has gone to the scene of the accident. Concerning the possibility of recovering the body the Gazette of last evening says: "Scientific tests show the temperature of the water where the body lies to be 39 degrees, or 7 degrees above freezing, 200 feet below the surface. Below this point no tests have been made. The theory advanced by physicians is that the intensely cold water at the bottom of the lake keeps bodies in a perfect state of preservation, and that therefore they do not rise, as bodies ordinarily do, when decomposition sets in. Large rewards have been offered as an inducements to residents near the lake to search for the body, and in addition dynamite is to be exploded in the water, in hopes of bringing it to the surface. Twenty-five pound cartridges will be used at first, and they will be exploded at varying depths. If these explosions be unsuccessful, heavier cartridges will be used.
