

THE LATE Josh Billings said he had read a number of good essays on "Milk," but the best thing he had ever seen on it was cream.

Now, Then

That is what we have to say of our new stock of FALL AND WINTER DRESS GOODS—it's the cream assortment of foreign novelties in Dress Patterns, at from \$5 to \$20 a pattern, of American production, the cream assortment of novelties, in two-toned effects—and we certainly feel proud this season of what American manufacturers can do. We know you are not ungrateful, and when you see these novelties at 50c. and 75c. a yard, you'll say you never saw anything like them for the price.

In Silks

Art and economy are combined—the colors and designs plain and fancy weaves throughout are exquisite, dainty and most attractive in the matter of prices.

I tell you, it's the best blood corrector. The governor had rheumatism so bad that you could hear him holler clear across the country every time he moved.
