## MIKADO'S ARMY IS ADVANCING

## ARE ADVANCING ON MOUKDEN

### Chinese Attempt to Resist the Invaders Unsuccessful—Troops Wanted at Hong Kong and Other Ports to Protect Foreign Residents Against the Native Feeling—A Decisive Victory in Manchuria is Reported—Russia Not Liable to Remain Friendly Without Compensation.

SHANGHAI, Sept. 28.—It is reported here that the Japanese have succeeded in entering the province of Manchuria and that they are advancing upon the capital, Moukden. It is also said that fighting has taken place between the invaders and the Chinese at a town between that city and the frontier, which ended in a decided victory for the Japanese, who established themselves in the position previously occupied by the Chinese troops.

No details of this reported battle are given and the Chinese here discredit the report.

The Chinese report that the Japanese have been repulsed at both Anju and Wai.

LONDON, Sept. 28.—A dispatch from Simla to the Times says that the English papers there are urging the dispatch of troops to Hong Kong and the other treaty ports from India, as letters have been received reporting a dangerous anti-foreign feeling in those places.

PARIS, Sept. 28.—It is stated "on the best authority" that in July last a provisional agreement was arrived at between Russia and China in regard to the future action of Russia in the Pamirs.

It is added that the two countries agreed that the forces of neither power should pass the Sarrikh range. This agreement, it is concluded, re-establishes friendly relations between Russia and China and has an important bearing upon the final fortunes of China in the present struggle.

Russia, however, it is added, is not likely to maintain a friendly attitude toward China without substantial returns.

NOT OFFICIALLY REPORTED.

WASHINGTON, Sept. 28.—At the Japanese legation today an official confirmation of the reported Japanese invasion of Manchuria and the reported decisive victory of the Japanese near Moukden, could be obtained, but the reports were credited. It was pointed out by the Japanese that an invasion of Manchuria would be a direct result of the Japanese victory at Ping Wang, and the diplomats at the legation were willing to credit the news of a repetition of the triumph of the soldiers of the Mikado in the new territory.

The report from Paris of a provisional agreement between Russia and China said to have been effected July by which Russia agreed not to cross Sarikul range was regarded as possible, if not probable, at the Japanese legation, although the fact of its having been kept so long secret was believed to militate against its authenticity. It was pointed out, however, that such an agreement made just as the trouble between China and Japan was being precipitated had no bearing on that struggle and was probably simply a provisional settlement of the familiar question which has long been a contention of the diplomats of the Chinese empire and czar.

The Pamir tablelands, inhabited by the Tartars, lie on the northwestern frontier of China, separating that country from Asiatic Russia.

LONDON, Sept. 28.—The Shanghai correspondent of the Times says: "It is rumored that Li Hing Chang will be permitted to take the field and that he will probably have his headquarters at Latai. It is reported that the Chinese troops have evacuated Korea and are massed thirty miles west of Yalu river."

## BURNED BY BRANDY

### Horrible Death of a Young Lady in New York.

NEW YORK, Sept. 28.—Miss Nettie Lee, 28 years old, the youngest daughter of Henry Lee, the millionaire, died tonight in terrible agony from severe burns about the hands, face and body, received through the upsetting of a pan full of brandy on a lighted stove.

The deplorable accident occurred shortly after 10 o'clock this afternoon. It appears that Miss Nettie usually superintended the yearly preserving of fruit for the use of the family. Shortly before the accident brandy was placed in a pan, and there, with the aid of two domestics, commenced "brandy" peaches. ## DARIEL'S OPINION

### Cleveland's Secretary Sees No Reason Why Hill Should Not Be Elected.

WASHINGTON, D. C., Sept. 28.—Secretary Darriel gave his views today upon the nomination made by the New York Democratic convention.

"I see no reason," said the secretary, "why Mr. Hill should not be elected. New York is a Democratic state and has been for 30 years. Mr. Hill is a vote getter and the campaign will undoubtedly be an active one. He has his own way of making a canvass and will lock elsewhere for his votes. He has unquestionably looked the ground over and knows about where his strength lies, and thoroughly understands the situation."

## RAGING IN EASTERN GERMANY

### The Frontier of the District of Marienwerder Closed Against Russia. Quarantine Notices at Lisbon, Sofia, Athens and Cyprus—The Situation in the Infected Portions of Europe and Asia—According to Reports the Cases Are Increasing.

Advice from Vienna dated the tenth states that the last official bulletin, embracing three days, gives 533 fresh cases in Galicia and Bukowina and 304 deaths. On this day (the 10th) for the first time, eight cases and four deaths are reported to have occurred in the city of Lemberg, where the Austrian emperor is now on a visit to the exhibition. A report from Vienna dated Sept. 13 says that the number of cholera cases is still on the increase in Galicia and Bukowina. ## APPOS THROAT OUT.

### Witness for the Lexow Committee in the Hospital.

NEW YORK, Sept. 28.—The throat of George Appo, the Lexow committee's green goods witness, was cut this afternoon at the corner of Barclay and West streets. Several witnesses say that Appo dia the deed himself, and the police are inclined to take this view of the case. Nevertheless Captain O'Connell, church street station, and his detectives were still working at a late hour tonight to obtain proof that Appo tried to kill himself. The light in the window was only slightly, but it was not the extent, but the fact, makes the matter serious. Appo was removed to the Chambers Street hospital a prisoner. The police say that he was in such an intoxicated condition that he could not tell how he received the cut.

Since George Appo gave testimony against the green goods men and his fellow before the Lexow committee he has often declared that he was being hounded and that he considered his life in danger.

## THE HOWGATE CASE.

### Detective Drummond Will Be Asked to Produce Records That Have Vanished.

WASHINGTON, D. C., Sept. 28.—It is said that Detective Drummond, who effected the capture in New York yesterday of Captain W. H. Howgate, will be called upon to explain why no record was left in the files of the secret service office in connection with the Howgate case.

Mr. Drummond was chief of the secret service under the Harrison administration. When the Democrats came into power, Mr. Drummond was working on the Howgate case, and in consideration of that fact he was retained for a period of eight months. Having accomplished nothing at the close of that period, he was replaced by a Democrat, William P. Hazen, of Ohio. Mr. Hazen found no trace in the files of the department of anything concerning the history of the efforts of the secret service to capture Howgate.

The first impulse of the treasury officials was to demand an examination from Mr. Drummond, but this demand, for obvious reasons was postponed. It is now said that during the early part of September the secret service bureau received information that Howgate was in New York. What they were pursuing their investigation. Mr. Drummond made the capture. It is now understood the department will at once call upon Mr. Drummond for all papers or data bearing upon the Howgate case which may have been in the bureau at the time he resigned.

District Attorney Birney says that immediately upon Howgate's arrival in Washington he will be taken before the criminal court and committed to jail to await trial. The district attorney does not believe Howgate will be allowed to furnish the bail which will be required.

## CORBETT IS ANGRY.

### Champion Visibly Affected by the Talk of Sullivan and Others.

PORTLAND, Me., Sept. 28.—Corbett, the prize fighter, was much displeased today when shown the dispatch sent out last night in which ex-Champagne Sullivan accuses him of beating about the bush.

Corbett said: "Sullivan had a quarter more month than courage. He is a quitter from the word go, and I do not want to have anything to do with him. He is out of it. But there is one thing, if I ever meet Fitzsimmons in the ring I will make a better fight than Sullivan did with me. I will give him a lesson. Sullivan and Jackson are sore, and I know it, but that does not make any difference to me. The Olympic club does not want a fight in which they are out of me. Now, I am not inclined to let them have a fight until I have proof that Fitzsimmons is somewhere in my class, and this he can demonstrate by knocking out Corbett in a few days." Corbett is angry and is reported to have circulated within the past few hours.

## ONE MINER IS STILL LIVING

### Rescuers at Northwest Mine Are Greeted by Their Comrade's Voice.

### HE MAY BE REACHED TONIGHT

At 3.30 O'clock Yesterday Afternoon the Rescuing Party at Work at Simpson Are Overjoyed at Learning That John B. Fanning, One of the Imprisoned Miners, Is Still Alive—The Fate of the Three Other Men Still in Doubt—Scenes at the Mouth of the Slope.

SPECIAL TO THE SCRANTON TRIBUNE.

CARBONDALE, Sept. 28.—SINCE the time of the awful accident which occurred in the Northwest mine at Simpson yesterday afternoon, the rescuing parties have been working earnestly. They had not the remotest idea of finding any of the unfortunate miners alive, but at 3.30 o'clock this afternoon they were happy in discovering that one of the men was still living. It is John B. Fanning.

The rescuing party have carried on a conversation with him, and there is now hope of rescuing some of the others from what at first seemed to be sure death.

An account of the narrow place it is impossible to employ many men at a time in the work of rescue. There are three shifts, each working eight hours. Each shift consists of ten men.

C. W. James and Thomas Moyles are in charge of the gangs. The whole mass of fallen rock will have to be cut through, and it is estimated that the men, or perhaps it may be their relatives, will be reached some time tomorrow night.

At the mouth of the mine there are crowds of anxious ones waiting in hopes of again seeing their loved ones alive.

## MRS. PEARY'S DENIAL.

### She Flatly Contradicts the Story Told by Private Secretary Swain.

WASHINGTON, Sept. 28.—Mrs. Peary, the wife of the Arctic explorer, denies emphatically the strictures of some of the members of her husband's party upon their alleged treatment.

Three charges, in brief, are that Lieutenant Peary's autocratic methods were offensive to his associates; that he was inconsiderate of their comfort and ungenerously in his treatment to them; that they were nearly starved to death.

Mrs. Peary, in conclusion, said that she had received a telegram from friends in Philadelphia advising her to pay no attention to the statements of Mr. Swain. In that city, she said, her friends who had backed him in the expedition, were indifferent as to what any members of the party may say.

Mrs. Peary said that her husband was unusually considerate of his men. "As to the men, he gave them the best he was possible to obtain."

"No party was shown. Lieutenant Peary, all reports to the contrary notwithstanding, ate at the table with his men, and shared their hardships in every way I could go to the public table on account of my baby. Some of the delicacies, given to me by friends, were used by me, but my husband declined to share them with me, saying that he preferred to have only what was given to the rest of the party."

"Mr. Swain," Mrs. Peary continued, "wants to get a little advertising out of the expedition, which accounts for his unjust criticism. He is welcome to that; but it strikes me that it is unfair to attack Mr. Peary when he is not here to reply."

## JOHNSON'S FEAT.

### He Lowers the Fastest Bicycle Mile Record.

WALTHAM, Mass., Sept. 28.—The biggest record of the world's mile with pneumatic wheels, has been set by John S. Johnson, of Syracuse, this afternoon on the Waltham cycle park, the most sensational feat of the whole season.

Until this afternoon the world's record was 1:23.5 made by J. P. Bliss at Springfield. The fastest mile ever ridden in the world on a bicycle had been set by Miles Diraberger, of Buffalo, but this record was not accepted as official as he was paced by horses. But the Waltham track 1 mile holds a faster record, Johnson's time being 1:20.8.

Besides breaking the world's mile record, Johnson also beat the three-quarter mile record, doing that distance in 1:23. Two more class A records were broken by Miles Davidson, of Toronto. He set the quarter class A record at 27.5 seconds and the third at 32.25.
