# HOW?

The problem often is-how well dressed on little money? Looks like a difficult thing, but it isn't. It's mostly in the buying.

Of two women who spend the same amount for clothes, one will be well dressed-the other poorly dressed. The knack, or the lack of the knack, of right buying does it. It's a knack that can be acquired and cultivated.

The first thing is to find the right store to buy from. It's a common saying, "one woman's money is as good as another." It isn't true. One woman buys here and gets more for her money than the other woman can get elsewhere. Money is only good for what are of the opinion that it can be made

# WHEN?

Now is the time to begin to look about for Fall and Winter Goods. In our recollection there has never been a time when styles and fabrics were so beautiful, or so varied. There certain. ly never has been a time when goods were to good for the prices. There certainly was never a time when we had so GOOD or so LARGE, or so WELL SELECTED a stock.

We are proud of the stock and we'll be glad to show it Lookers are as welcome as buyers here. The more people look around and the oftener they come to see us, the surer we are of their trade. Our business is based on solid merit-it will bear investigation, and the closer it is the better we like it.
