DEMOCRATIC CIVIL SERVICE

RETRENCHMENT ALL ONE WAY

If You're a Democrat, You'll Not Suffer; but if You're a Republican Government Employe, Possibly Crippled for Life, You'll Be Promptly Fired.

Special to the Scranton Tribune.

Washington, Oct. 17. A bill recently carried through congress under the leadership of Mr. Dockery, of Missouri, under the plausible plea of economy, dispensed with the services of 180 clerks by abolishing several important bureaus in the treasury department. Among other criticisms offered in opposition to this measure it was urged that it was cruel in the present state of unexempted business depression to legislate out of office so pation by wounds and diseases contracted in the military and naval services of the government, and thus augment to creat body of the unemployed and surering.

It is important to note just how the

old soldiers and the Republican officials and clerks have fared under the changes and transfers that have taken place. Every one of the Democratic officials and chiefs of division who were legislated out of office have been given places equally as good, and in many cases better, in other bureaus, where old and experienced and valuable offi-cials were dismissed in order to make places to be filled by these favored ones. In the transfers of the clerical force under the new law no Democratic clerk has suffered; but with the old clerks, nearly all soldiers, and who are supposed to be Republicans, the re-verse has invariably taken place.

PAY **ENOUGH**

Some people are too anxious to save when buying a watch, thinking that a cheap watch will do as well as a good one, and that all the difference in watches is the price. May be that it required a moral effort on your part to pay us \$10 for a plain looking but honest timekeeper, when somebody else generally offers you a gold watch for \$2.50 and—just for goodness sake—throws in a gold chain and charm. Of course it is all a "tame schwindle," as the Jew said when he went up in the balloon and couldn't find the silver lining of the cloud. It happens every now and then that a person sends off for a gold watch, gets it, and then loses faith in watches and humanity for ever and ever. We think it would pay you to call on us and see if we have what you want, and if we can't suit you at all out of a large stock of watches, why—it is time enough then to send out of town for a \$2.50 gold watch.
