LABOR FACTS. Artificial rubbers are made. There are five great cottons. New York has 20,000 barrels. France has 5,000,000 dwellings. Buttons are made at potatoes. There are hollow glass bricks. Germany boasts aluminum hose. Electric welding grows in favor. American journals employ 35,000. At Halley, Idaho, hay is \$2 a ton. Cattle are branded by electricity. Russia washes linen with petroleum. Wheat is 25 cents a bushel in Oregon. Uncle Sam has 200 women drunks. Telegraph lines stretch 1,005,000 miles. Ireland has 2,800,000 acres of bog land. Londoners pay 58 cents per 1,000 for gas. English letter carriers get \$4.50 a week. Alabama's supply of red cedar is exhausted. The south produces over 60 per cent of all the cotton in the world. At one time tanning of men's skin was a regular industry in France. The preparation of human hair for the market gives employment to 7,000 Parisians. The manufacture of tinware in England originated in a trade secret stolen from Holland. Toilet soap in the form of paper, but slightly larger than visiting cards, is used in France. Worsteds were first made at the village of Worsted, in Norfolk, England, about 1312. Horses are so plentiful in Chile and Argentina that it is not uncommon for beggars to ride. A steel cable 1 1/2 inches in diameter traveling 12 miles an hour can transmit more than 100,000 words a minute. Corner lots on Fleet street, Piccadilly and other desirable business locations in London are worth \$100,000 a front foot. It is said that the art of brick making has advanced more during the last few years than almost any other industry. M. Eiffel, builder of the famous Eiffel tower, claims to have invented a new kind of cement in engineering work one man is killed. At Leeds, England, there is an electric clock which is continually ticking since 1870. Its motive power is natural electricity. The Louisville and Madison woolen mills at Madison, Ind., have been sold to an organization of the bondholders, and their operation will be resumed. A Chicago paper says that there are in Chicago at least 500 places in the manufacturing district where workmen are in the habit of going for liquor. There are 62,000 postholes in the United States; about 67,000 do not pay their running expenses. The profit of the New York city postoffice is \$4,000,000 a year. Another British steamer engaged in the petroleum trade has been fitted with furnaces and oil jets to enable her to burn oil instead of coal. The steamer, however, will not be used. Soap has been substituted for wax on the recording surface of the phonograph by a Berlin inventor. The advantage gained is that it is unaffected by ordinary changes of temperature. An international telephone system to cover all Europe with its network is one of the latest moments in the relations between nations to more intimate and more peaceful relations with each other. The cities of Amsterdam, Rotterdam, Brussels and Antwerp are already connected by telephone and the extension of the lines is a question of only a little time—Philadelphia Record.

CHIAT FOR WHEELMEN. The first novice race ever run took place at Denver on Sept. 22. It was won by F. H. McCall and the time was 1.15. The American road record for five miles is now 11.15. It was placed at this mark on a recent Sunday by B. C. Van Nest, in the South Side Cycling club's road race in Chicago.

Chestnut runs are popular with Philadelphia wheelmen just now. Local clubs have caught the fever, and chestnuting parties are being talked of by a number of cycling parties.

Two Chicago cyclists on a tour of the world propose to explore a territory never entered by a wheel. The daring riders are F. A. Pedgett and William M. Brookbridge. They follow the Santa Fe to San Francisco, thence by steamer to Australia, traversing the Sandwich Islands, Fiji, and Samoa Islands, New Zealand and Australia. Leaving the colonies, Ceylon will next be visited, then across the straits and up the whole length of India. Leaving the British dependency, they will proceed to Constantinople, Constantinople through Palestine and Arabia over the Isthmus of Suez into Egypt; thence to Morocco, and enter civilization by way of Gibraltar.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became a Girl, she clung to Castoria. When she had Children, she gave them Castoria.

The first trial of Dr. Wood's Norway Pine Syrup will satisfy any one that the lung-healing virtue of the pine tree has now been refined into an effective and convenient form. It is sold by all druggists on a guarantee of satisfaction.
