

SOUTH SIDE IN THE FOLD

Two Twentieth Ward Meetings Display Thought and Enthusiasm.

FOR THE GOOD TIMES PARTY

Laboring Men and Mechanics Standfast for the Republican Ticket from Top to Bottom--Audiences Attentive and in Harmony with the Speakers.

Two lights upon today's election were thrown from the South Side last night and cannot help but prove indicative of favorable results in that section of the city.

The gatherings were entirely composed of laboring men and were held in the Twentieth ward, one of the supposed Democratic strongholds.

Major Everett Warren, Captain James Moir and Attorneys Dawson and Hamilton were the speakers of the two meetings.

Each was accorded the greatest attention and succeeded with but little effort in bringing forth the plaudits of his hearers.

In Phillips' hall, where John Simrell presided, Attorney Dawson was announced as the first speaker.

He called attention to the proof of history that the periods of the nation's greatest prosperity were under systems of protection.

He contended that if a tax could be levied on incomes ranging from \$4,000 to \$400, it might result in a tax upon even the \$1 capital of the laborer.

Entertaining Captain Moir.

Captain Moir very aptly brought attention to the misdeeds of the free trade party by witty allusions which met with generous applause.

The meeting was concluded by the brief speech of Major Warren.

Fred W. Rose presided over the gathering in Moeller's hall, which was filled with thoughtful mechanics and laborers.

An equal number were unable to gain admittance.

Major Warren's speech in Moeller's hall might very properly be termed a plain explanatory talk.

It was neither an argument nor an appeal, but a statement of facts and reasons which of themselves would indicate to workmen that they should not be cajoled into voting irrespectively of benefit or principle for any particular candidate.

In considering which of the great political parties was the party of the plutocrat, reference was made to the statement of T. V. Powderly, published two years ago in the official journal of the Knights of Labor.

It was to the effect that the Democratic party had become the party of the poor man and would always keep him poor.

In view of a statement that the Republican party is fostering the American Protective Association, Major Warren alluded to the New England dinner attended by Archbishop Ryan in this city.

The gathering was otherwise composed of descendants of New England Yankees, who, according to the noted prelate's own statement, had given him one of the pleasantest evenings in his memory.

The speaker also cited the presence of Archbishop Ireland and McGouldrick at the recent large Republican meeting in Carnegie Music hall in New York.

These facts, the speaker contended, do not argue that noted Catholics and Irishmen believe the Republican party is allied to the American Protective Association.

A Question of Principles. The question is not "who is going to be judge, sheriff, district attorney, etc.," but it is a question of the principles represented by the candidates.

This view applies, he said, more particularly to the legislative candidate who will make the laws of the nation.

FIRST DAY OF NEW TERM

Grand Jury Met but Was Not Sworn or Charged.

POSTPONED UNTIL WEDNESDAY

A Petition Asking for the Creation of the Borough of Dalton Presented to the Court--It Will Be Considered Friday Morning.

IN LOCAL THEATERS.

Edward Harrigan and his New York company will present two of their greatest New York successes at the Academy of Music this and tomorrow evenings.

This evening "Relly and the 409" will hold the boards, and tomorrow evening "Cordelia's Aspirations" will be the attraction.

Mr. Harrigan and his company seldom travel except to a few of the metropolitan cities of the east.

His writings are not of real life; true, he aims at extracting as much humor as possible out of the studies, but it is nevertheless true to nature.

In this vein "Relly and the 409" is extremely happy. We all know the passion of the simple-minded to imitate the fads of Jewellery, and when Ward McAllister told the Americans that there were only four hundred names which had any right to the title Aristocratic, Harrigan immediately saw that the party would be among the first hunters to secure the distinction;

he also knew that the aforesaid hustler would not be the true American, but the foreign pretender, who with a brogue or dialect you could not claim to be descendants of the Puritans.

Citizens of the town of Dalton, in North Abington township, yesterday by petition asked the court to create the borough of Dalton out of a portion of North Abington township, outlined on a map that accompanied the petition.

The names of eighty-six persons are attached to the petition, which by order of court, will be laid before the grand jury on Friday morning.

The proposed borough has Lily Lake within its borders.

Two petitions asking for the construction of bridges at the expense of the county were yesterday presented to court yesterday.

Attorney John F. Scragg, representing a number of citizens of Ransom township, presented a petition asking for the construction of a bridge over Gardner creek on the road leading from Milwaukie to Pittston.

The width of the creek at that point is forty feet, and it will cost \$1,000 to construct a suitable bridge.

A petition signed by a number of citizens of North Abington township was also presented asking for the construction of a bridge over Kennedy's creek in that township.

The petition "near the residence of J. B. Knight, where the public road leading from Hiram Long's to G. E. Hoffer's crosses the said creek." The width of the creek at that point is twenty feet and the cost of building the bridge is fixed at \$1,000.

Both petitions will be considered by the grand jury Thursday morning.

Minor Court Matters. The license of the hotel conducted by Philip Rinsland at 129 North Main avenue was yesterday transferred by the court to George Gindoff.

The voting place in the Second district of the Sixth ward of Carbonade was yesterday removed by order of court from the premises of John F. McHail at Peck and Dundaff streets to premises of Thomas Hart, 206 Dundaff street.

Attorney R. H. Holgate by permission of court withdrew the petition for a review of the proposed road in Scott township and the report of the viewers which was confirmed finally some time ago, will now be allowed to stand unchallenged.

Opening Night Schools. Names of the Teachers Who are Instructing Night Scholars. Superintendent G. W. Phillips informed a Tribune reporter last evening that arrangements were not completed for opening all the night schools, but the work of preparation would be pushed on and active work commenced as soon as possible.

The following teachers commenced duties last evening: No. 2 school, Miss Kate Mawn; No. 3, J. M. Beaumont; No. 9, M. H. Jordan; No. 15, F. P. Durkin; No. 23, Miss Anna Barrett; No. 25, Miss Sara Claherty.

Election officers are hereby notified that a plan has been discovered to change the maps on Republican ballots.

LAUNDRY HINTS.

From the Philadelphia Record. Try soaking table linen (and other fine articles that have become badly soiled) over night, with a little ammonia added to the water.

This will soften the dirt as well as the stains, and in the morning, with a very little rubbing, thorough rinsing and careful blotting they will be ready to hang out.

Try sprinkling delicate wash dresses with this sun water, when it becomes necessary to iron them by the course of wearing when they have not been washed.

For mixing with the starch for the white clothes, use about a tablespoonful of gum water to a pint of the warm, boiled starch.

Try hanging the table-cloths and linen sheets one-half or two-thirds their length over the line, without using clothes-pins, unless absolutely necessary.

As rough clothes-pins, in careless hands, will often ruin delicate fabrics.

Try to discover why there are so many holes in the corners of handkerchiefs and napkins. It will no longer be a cause of wonder when you notice how the average servant hangs them on the line.

In order to save time and trouble several handkerchiefs or napkins will be taken up by the corners and fastened in a bunch on the line, with one clothes-pin; and when dry the entire bunch will be taken down with the little "jerk."

Is it any wonder that the holes soon appear?

Try spreading the table linen and all straight smooth articles that can be dried in this manner, on the grass, if you are fortunate enough to have "real grass," and the sunshine will complete the work in a most satisfactory manner.

In the city yards, where there is no grass and space is limited, it will be a good plan to set a small "clothes-horse" in the sun and run across the line the thin fabrics that should not be hung with the clothes-pins.

Try to have the damask ironed so that the pattern will be clear and distinct. Sometimes it shines like satin, but more often it merely shows the pattern at all. It takes a "moderate" iron and an even pressure to do it properly.

Too hot or too cool an iron never does good work.

Try boiling the soap before putting it into the tub, and use it in liquid form. Borax can also be added to the soap while it is dissolving.

Borax will not hurt the clothes, as it is a neutral salt. Housewives who cling to the economical and old-fashioned method of preparing "soft soap" find it a good plan to do their whole wash, except the flannels and towels, with the soft soap.

Boiling hot water on it in the tubs before the clothes are put in.

CHANCELLOR HOHENLOHE. Sketch of the Man Who Has Been Chosen to Succeed Caprivi.

Clodwig Carl Victor von Hohenlohe-Schillingfurst, Prince of Rathenow and Corvey, was born at Rathenow, Bavaria, March 31, 1819.

It will thus be seen that he is actually six months older than was Bismarck when four years ago the emperor overthrew the Iron Chancellor on the ground that he was too old.

Hohenlohe was educated at Heidelberg, Bonn and Gottingen, and held some minor offices in the German civil service until 1846, when, having come into the domain and title of Schillingfurst through a compact with his elder brother, he returned to Bavaria and became a member of the upper chamber.

In 1867 he became minister of foreign affairs and president of the council.

At first Hohenlohe posed as a Bavarian patriot, and undertook, with others, to stem the rising tide of Prussia's power and to preserve the autonomy of the smaller states.

He was vice-president of the first Imperial Reichstag, and in 1874 was sent to Paris as the German ambassador.

THE HEART. It is liable to great functional disturbance through sympathy. Dyspepsia, or indigestion, often causes it to palpitate in a distressing way. Nervous Prostration, Debility and Impoverished Blood, also cause its too rapid pulsations. Many times, Spinal Curvature, or bowing of the back, is to be traced to the heart. Sufferers from such Nervous Affections often imagine themselves the victims of organic disease.

ALL NERVOUS D
