Industrial and Commercial.

MINE, MILL AND RAILROAD.

A small party of determined mine officials entered the water level tunnel of the burning Luke Fidler colliery at Shamokin Monday and made three desperate attempts to find some trace interior of the mine and the searchers | trains. have reason to believe that the fire is still burning above the water level and and steel trade incident to the elections dams are now being constructed in order to force the water to a vertical height manufacturers, however, do not look of 100 feet above this tunnel. An idea of for any pronounced improvement until of 100 feet above this tunnel. An idea of the immense quantity of water required after the first of the year, or until the to extinguished this fire can be obtained, says the Dispatch, by considering that starting up of new works practicable. from 10,000,000 to 25,000,000 gallons have been run into the mine each day for a period of thirty-four days and the water is still 200 feet below the water level. The vertical height already filled with water aggregates about 630 feet and 300 feet remain to be filled up before the the flames have been entirely extin-

Anthracite collieries are now being worked to about two-thirds or threefourths of their capacity, though unlimited production is now being allowed. | vancing rates to a reasonable basis and But many of the companies are short of coal cars, and are endeavoring to increase the supply by bringing into use develop material benefit to the railbox or freight cars of every discription, and in one case at least (the Lackawanna) flat cars, with common plank sides, have been pressed into service. The Reading last week shipped 11,745 east of Pittsburg and Erie for the year tons of anthracite less than it did in the thus far has been 13,407,908 tons, comsame week last year, or a total of 296,-534 tons, against 308,280 tons last year. But for the company's light supply of cars the shipments would have been were coal, a decrease of 1,470,493 tons, and very much larger. So far this year it 2,830,388 tons coke, a decrease of 629,588 has shipped 11,551,175 tons of coal, a decrease as companied with the corresponding period last year of 869,148 tons.

ore furnaces tells a Lebanon Report man that he does not anticipate many material changes at those furnaces as a result of the starting up of the South Steel company in this city. The improvements previously outlined for No. many others will follow. Condensers the engine capacity from twenty-five to thirty pounds. The stoves are to be almost entirely rebuilt, so worn have they The old gas system of roasting will be relegated to the desert of the junk dealer, to be replaced with the most modern new one-in which gas also will be used-the Davis patent. Upon the completion of No. 2, No. 1 will be blown out, to undergo similar treatment, when both furnaces may be put down as modernized to date with the latest and most approved methods. sold at 87% and 91%, with the final All four stoves will be arranged so that they may be used on either furnaces. The premises will, when everything is done, be treated to a thorough painting.

The railroads of Nebraska have re ceived a decided setback from the decision declaring the maximum freight law constitutional, although the court finds that the reduction in rates as fixed is excessive, and the operation of the low rates is suspended. In effect, the decision supports the position taken | nished The Tribune by G. du B. Dimmick by the Nebraska railroad commission, | manager for William Linn, Allen & Co. and the latter, says the Commercial Advertiser, are not likely to concede to the railroads any points that they can possibly avoid, so far as rates are concerned. The decision, while it recognizes the injustice of the rates as established by the commission and con-tested by the railroads, affords the latter no remedy. The suspension of the enforcement of the low rates will at best be only temporary, and the fact that the obnoxious law has been declared constitutional is a blow at railroad investments in Nebraska and other western states where the railroad commissions are openly favorable to the granger element and equally open in their hostility to the railroads. The decision comes at a time when the railroads of the country are making an earnest effort to regain some of the income lost during the past year and a half, through an adjustment of rates to a basis which shall be mutually just to the shipper

The old story that the Canadian Paclfic is preparing plans to build an in-dependent line to Buffalo has been revived, and just now appears to have for its basis the transfer of real estate at Niagara Falls and near Buffalo. The story has it that a new bridge will be built over the Niagara river for the Canadian line. It is hardly necessary to say that there is nothing to confirm the report.

MINOR INDUSTRIAL NOTES: Murray, Dougal & Co., and the Car-

sle Manufocturing company, will build

FREEDOM FROM FRECKLES,

and from all such disfigurements and blemishes, follows Carlsbad Sprudel Salt. freshens the skin wonderfully--takes away that

ted look that comes from stomach derangements. Even in chronic and stubborn cases of skin disorders like eczema, it is the prescribed remedy.

prescribed remedy.

The blood, the liver, the stomach, the kidneys—all are acted upon powerfully, but naturally, by the Carlsbad Sprudel Salt. You get the same benefit, the same cure, the same feeling of lightness and clearness all through your system, as if you were at Carlsbad itself.

Beware of the many imitations sold as "improved" or "artificial" Carlsbad Salt. These are only mixtures of By the United Press. Seidlitz Powder and common Glauber Salt, sold by unscrupulous dealers for the larger profits they yield.

Insist upon the genuine imported. natural Carlsbad Sprudel Salt, which is evaporated from the Spring at Carlsbad, and bears the seal of the city and the signature of "Eisner & Mendelson Co., Sole Agents, New York," on every

1 1,400 new coal cars for the E. P. Wilbur Trust company, for use on the Lehigh Valley. These cars will be of much the

same pattern as those in use on Mr. Coxe's road. The Pennsylvania Railroad company is to reduce its train time between the of the bodies of the four workmen who east and west by at deast one hour. lost their lives there just a month ago. The change will go in effect on the inbut their efforts were fruitless. There auguration of the fall and winter schedwas plenty of evidence, however, of the fearful fire that had raged in the will apply to both Chicago and St. Louis

> The return of confidence in the iron is more or less perceptible; the larger close of the winter months renders the The fastest run ever made over the Pennsylvania was that of last week with General Manager Prevost and a number of officials, from Jersey City to Pittsburg. The train left Jersey City

at 8.30 a. m. and reached Pittsburg at 5 o'clock in the evening, and occupied mining experts will feel satisfied that about eight hours and thirty minutes in covering the 432 miles. M. E. Ingalls, president of the Big

Four, is quoted as saying that he has never known the railway managers, presidents and general managers se much in earnest on the question of adthen maintaining them strictly. He says the present agitation cannot fail to roads of the country.

The Pennsylvania railroad reports that the quantity of coal and coke originating on and carried over its lines pared with 15,507,959 tons in the corresponding period of 1893, a decrease of 2,100,051 tons, of which 10,577,520 tons

Contractor King is grading an extension for the Jersey Central at the Coleraine colliery. There will be additional Superintendent Baker of the Cornwall 850 feet added to both the loaded and empty sidings in order to give thecrews an opportunity to handle the shipment without difficulty. Another siding is to be constructed alongside the main works of the Lackawanna Iron and track by A. S. Van Wickle, which will be used by the Reading for the storage of loaded cars. The latter company ex-2 are being rapidly accomplished, and | pects to enter the Van Wickle domain some time next week. With the enare to be placed in position, the water trance of this great coal carrier the of the tuyeres being used, increasing Coleraine plant will have three outlets by rail to tidewater.

STOCKS AND BONDS.

By the United Press.

Am. Cot. Oil ...

Am. Sugar Re'g Co. 91%

Atch., To. & S. Fe ...

New York, Nov. 14.-Recent buyers of stocks on the theory that the official announcement of a bond issue would lead to a raise in prices were disappointed, as the treasury circular calling for bonds fell flat. Sugar monopolized transactions at the lower figures. There was absolutely no support to the stock and no valid reason was advanced for its downward course.

Speculation closed steady for the gen-eral list and heavy for sugar. Net in bbis, 45a45c.; do. dark in bbis, 45c. changes show losses of 14 to 114 in the usually active list and 314 in sugar, Total transactions were 236,000 shares.

The range of today's prices for the ac tive stocks of the New York stock market are given below. The quotations are furstock brokers, 412 Spruce street, Scran-

GOOD WORK FOR AMERICANS.

dowly at former rates. We quote: City,

Credit Given Them As Being the kindliest Race in the World. Take them as a whole, the Americans are the kindliest race on the face of the earth. In spite of their eagerness, their

push, their desire to be in the front rank at all times and all seasons, the true American seldom fails in kindness He wants badly to prevent any one get ting ahead of him, mentally, physically and morally, but if his competitor fails in the struggle he will make untold sacrifices to help him up. The rule in American business is pure cut-throat competition, carried to its logical con clusion. You are expected to press and push every point as far as it can possibly be pushed and pressed, and no one is expected to consider whether, in making a commercial coup, you will not ruin Brown, Jones and Robinson, The moment, however, that Brown, Jones or Robinson actually goes under he is treated with the utmost generosity and consideration.

The hand which struck him down is instantly stretched forth to help him, and as much care and trouble are used to put him on his feet once again as were originally employed to knock him off them. In social intercourse, this kindness and sunniness is specially attractive. The American will take in finite pains to make the merest stranger happy. He is courteous and pleasant can; but in most cases the sense that all is for the best in the best possible of works has mastered it altogether.

Scranton, Pa., Nov. 12, 1894.

SEALED PROPOSALS WILL BE REspoken, not like the Frenchman, from convention, but from the sense of pleasure which his instinctive optimism teaches him to diffuse. Hisoptimism has even proved strong enough to break down the shyness which naturally belongs to the English race. One sees, no doubt, survivals of it in the American; but in most cases the sense that small be forfeited to the school district in case of refusal or omission on the part of the bidder whose proposal shall be accepted to execute contract within ten days after the awarding of said contract. The Board reserves the right to reject any or all bids. By o.der of the Scrauton Board of Control.

Scranton, Pa., Nov. 14, 1894.

Notice to Bondholders. COMMISSIONERS' OFFICE,

the direction of Cherubini, Berlioz was an unruly genius, and not in favor with his teachers, especially the precise and "classical" Cherubini. One examination day Cherubini was running over a piece which Berlioz had submitted, when he came upon a complete rest of two measures.

"What is that?" he asked in his usual ill-natured tone.

"Mr. Director," said the pupil, "I wished to produce an effect which I thought could best be produced by silence."

"Ah, you thought it would produce a good effect upon the audlence if you suppressed two measures?"

"Yes, sir."

"Yery good. Suppress the rest; the effect will be better still."

TO OUR PATRONS:

Washburn-Crosby Co. wish to assure their many pat-rons that they will this year hold to their usual custom of milling STRICTLY OLD WHEAT until the new crop is fully cured. New wheat is now upon the market, and owing to the excessively dry weather many millers are of the opinion that it is already cured, and in proper condition for milling. Washburn-Crosby Co. will take no risks, and will allow the new wheat fully three

months to mature before grinding.

This careful attention to every detail of milling has placed Washburn-Crosby Co.'s flour far above other
