NEWS OF THIS VICINITY

PITTSBURGH.

Andrew Brown, of South Main street, was out bright and early yesterday morning in search of Chief Loftus. Thursday afternoon a man wearing a Grand Army button called at Mr. Brown's house. He claimed to be an umbrella mender and solicited some work. Though the visitor's appearance was against him, the button, which was recognized as a bond of fellowship among the wearers of the blue, appealed to Mr. Brown's nature and he took the stranger in and gave him the best in the house. Later he went away in search of work. About 7 o'clock in the evening the man returned with unmistakable signs of an extra quantity of rum "on board." Mr. Brown ordered him away, but he complained so hard of a tired feeling that he permitted him to rest himself for an hour. During the hour Mr. Brown occupied himself in reading an almanac. While thus engaged his attention was suddenly attracted by the barking of a small dog in another part of the house. On going to ascertain the cause he was surprised to find the stranger there. The man was hustled out of the house and left for parts unknown. Mr. Brown and his wife began a search in the house. In a short time they discovered two suits of clothes belonging to Mr. Brown and his son-in-law, together with a silver watch, were missing. Mr. Brown is fully convinced that the man is an impostor, who is successfully working the Grand Army button racket.

HAWLEY.

The Hawley Glass company are now working both furnaces on full time and everything looks for a good season, as orders are now coming in and the outlook is good. Benjamin Hoffman, who, for a number of years, has been running a portable steam saw-mill on the Pennsylvania Coal company's lands, has moved his mill to this place and will locate it on the flat near the Hawley Glass company's factory and will manufacture box boards for the Hawley Glass company. There is a large quantity of second growth pine timber near here which will supply the mill for some time to come. Mr. Hoffman will employ several men and a number of teams. This new enterprise will, no doubt, be a good thing for our town and give employment to a number of men.

A new company under the name of the Hawley Coal company has been formed and will screen and wash the coal which is now lying in large piles of culm back of where the old gravity plain No. 12 used to be, and will ship the coal to market from here. Various estimates have been made as to the amount of coal to be obtained. No doubt a large quantity will be found fit for shipping and it will prove a paying investment for the company. Work has been begun for the foundations for the buildings, and it is thought that the plant will be in operation soon.

The re-building of the Bellemonte silk mill, which was destroyed by fire on Aug. 17, is progressing rapidly. The roof is all on, the plastering is nearly done, floors nearly all laid, and within a few weeks the building will be ready for the machinery, which will be new and of the most improved style. Work on the mill has been pushed as rapidly as possible and it will be but a few months before the looms and other machinery will again be in motion, giving employment to the usual number of hands. Outwardly the mill looks but little different than before the fire, as but one of the walls fell during the fire, and that was the rear wall along the river.

HONESDALE.

The axe factory of G. White & Ham was totally destroyed by fire at 6 o'clock yesterday morning. When the fire was discovered, the entire factory was in a blaze, and in a short time it was lying in ruins. The origin of the fire is unknown, but it is supposed that it took fire in some manner from the stove in the paint room. The factory consisted of four wooden buildings connected to-

gether, and an office, employing twenty-one men, with a capacity of 175 axes a day. The insurance on the buildings was \$4,000; loss, about \$12,000. Blood Vitalized and Strength Renewed by Hood's Sarsaparilla.

"For a couple of years, I was subject to feelings anything but good. I always felt tired, I could not sleep at night and the little I could eat did not seem to benefit me any."

I did not have any ambition to go around or work and in fact was not able to do a good day's work. I happened to pick up a circular embracing advertisements and testimonials for Hood's Sarsaparilla, and after reading them decided to give Hood's Sarsaparilla a trial. I have taken five bottles and must say that I have derived wonderful benefit from it and
