

QUAY SAYS IT IS DEFUNCT

The Income Tax, in His Opinion, Will Never Become Operative.

SUGAR MUST CARRY A TAX

It is the Only Safe Way Out of the Financial Hole Into Which Democratic Incompetency Has Plunged the Nation's Finances.

Philadelphia, Nov. 29.—Just before he left here for Beaver Senator Quay said: "I do not think the income tax law will ever be put in operation, and I do not believe Secretary Carlisle is in favor of operating it. I shall vote for every measure favored by the administration in the line of appropriations, and I think the Republicans will not oppose any reasonable demands made for money; but I do not think congress will authorize Secretary Carlisle to commence the collection of the income tax or that the secretary himself expects it to."

Revenue to be Raised from Sugar.

"The estimated deficiency in the event of the failure of this provision of the Wilson bill is \$30,000,000, and there are many other ways much easier and less expensive than this of raising the money for the use of the government. The income tax scheme has always been clumsy and awkward, even as a piece of problematical legislation; and, as an actual law, it is almost, if not quite, impossible of being carried into successful effect."

"I look upon sugar as the remedy for our national financial ills, and I think the Democratic administration is taking the same view of the matter. With Senators Sherman and Cameron, I opposed in 1890 the repeal of the tax and the bounty on sugar, as proposed in the McKinley bill, and I believe that had this feature been retained we would have \$300,000,000 of gold in the treasury which is not there now."

Sugar the One Hope.

"The over-production of sugar through the world during the past year is estimated at 1,300,000 tons, and this in itself is proof that the sugar trust is not in a position to control or to seek to control legislation. In the complaint over the sugar schedule which will take place in the senate I look for a hot contest, but I believe the majority of the senators favor the restoration of the old rate of 2 cents a pound, rather than the present schedule of 40 per cent. ad valorem."

"I shall propose the McKinley bill schedule as a substitute to each one of the five popgun bills, and I suppose the Republicans will also introduce a sugar bounty measure. That this is better than a sort of a revenue-creating legislation is admitted, but a direct tariff is to be preferred. I think the demoralization of the Democratic party and the straitened condition of the national finances are largely due to the Democratic bungle on sugar."

NO BACK DOORS.

Georgia Will Have a Dispensary System Similar to South Carolina.

Atlanta, Nov. 29.—There is a strong probability that Georgia will in a short time have in full operation a dispensary system similar to that established in South Carolina. The Rush dispensary bill has been pending before the general assembly for several days, and the senate temperance committee has just agreed to a report a substitute providing that in incorporated towns where liquor is now being sold to be sold, a vendor may sell it only on a petition of a majority of the freeholders of the town or city to the mayor and council. He shall then give bond to the ordinary in the sum of \$5,000 for faithful observance of the law. He shall pay \$100 to the state and all municipal and national taxes for one year. He shall only purchase liquor to sell, which has been pronounced by the state chemist pure and unadulterated, and to retail in quantities not less than one-half pint, and shall not sell to minors or habitual drunkards. Each vendor shall have only one place of business and nothing shall be sold in that place except intoxicating liquors, and it shall be in full view of the street and there shall be no back doors or back windows or side doors. Each place shall be cleared at 10 p. m. and not opened until 5 a. m. This measure is likely to pass the general assembly and become a law."

MAY FAVOR SILVER.

Grover Said to be Ready to Placate the Western States.

Washington, Nov. 29.—One of the reports said to have its origin in administration circles is that Mr. Cleveland will make some recommendations in favor of silver in his message. The statement is made on semi-official authority that, if the president enters into the discussion of the new financial plan, there are three or four points to which he will give particular emphasis. It is said that his plan will involve the repeal of the 10 per cent. tax on state bank circulation; a recommendation of some of the features of the "Baltimore system," and a provision that a certain percentage of silver shall be used as a basis for bank note currency.

NICARAGUA CANAL'S HOPE

Congress, in the Opinion of Representative Storer, Will Favor It.

FEDERAL OWNERSHIP URGED

Exact Status of the Bill Which Speaker Crisp Would Not Permit to Come Up Last Session—Will It Fare Better, Now?

By the United Press. Washington, Nov. 29.—The actual condition of the Nicaragua canal project which, in a subdued and quiet way, seems to figure in the present imbroglio at Bluefields, to an extent is this: At the last session of congress a bill was unanimously reported from the house committee on commerce, providing for a United States governmental construction and control of the Nicaragua canal. The bill authorized an issue of bonds amounting to \$70,000,000 by the government for a term of thirty years to bear interest at 5 per cent. per annum. It was proposed to pay to the incorporators of the Maritime company, of which Warner M. Storer, of New York, is president, \$3,500,000 of stock in the new company for the charter obtained by them from Nicaragua and Costa Rica, and also to reimburse them in stock for the sums expended by them in the preliminary work of building the canal. The governments of Nicaragua and Costa Rica were also to receive in stock the amount guaranteed to them by the Maritime company, while the remainder would be held by the United States government.

Bill Squelched by Crisp.

The management of the canal was delegated to a board of eleven directors, eight representing the United States and the other three the governments of Nicaragua and Costa Rica and the Maritime Canal company respectively. The bill was prepared by a sub-committee of the house committee and a strong point in favor of it was made by them to the full committee. The sentiment of the house seemed favorable to the measure but Speaker Crisp objected to it and the measure was not called up. It is understood that strong pressure will be brought upon him to make it a special order for next week and the holiday recess. Representative Bellamy Storer, of Ohio, who has been a champion of the bill, said this morning that the Republicans were generally favorable to the proposition and that in the next house, if not in this, the bill would pass beyond a peradventure.

Deal Estate.

It is understood that strong pressure will be brought upon him to make it a special order for next week and the holiday recess. Representative Bellamy Storer, of Ohio, who has been a champion of the bill, said this morning that the Republicans were generally favorable to the proposition and that in the next house, if not in this, the bill would pass beyond a peradventure.
