

GOVERNOR'S NEXT MESSAGE

Points in Pattison's Forthcoming Communication to the Legislature.

WILL FAVOR FORESTRY LAWS

Pleasant Words for the National Guard. To Prevent Stream Pollution—Measures Needed to Check Tuberculosis Among Cattle.

By the United Press.

Harrisburg, Dec. 3.—Governor Pattison is at work on the outline of his biennial message to the legislature. He has secured from Secretary Harritt and other heads of departments advance copies of their annual reports, and will weave into the message some of the practical suggestions and recommendations of the various heads of departments.

Special reference will be made to the large increase in the state revenues the past two years and the redemption of over \$2,000,000 of bonds within the past year. The governor will point out the imperfections in the ballot and recommend such changes as will make it nearer perfect. He will, no doubt, approve the suggestions made by Secretary Harritt in his report, which is in the hands of the state printer, that the law amending the constitution for a specific form of ballot blanks, for certificates of nomination papers, and for a form of oath. Under the existing law the form of the official ballot is different in nearly every county of the state.

Secretary Harritt's report also contains the decision of the Dauphin county court the past two years on the ballot law, in order that members of the legislature may see for themselves the changes that are necessary.

FOR FORESTRY PROTECTION.

Governor Pattison will speak kindly of the National Guard, and commend its efficiency as shown at the division "encampment" last summer at Gettysburg and during the riots in the bituminous region. In this connection, he will probably discuss the outbreaks and trouble in the coal region.

The necessity of the adoption of measures for the preservation of the forests of the state and the stoppage of the pollution of its sources of water supply will be advocated. He will doubtless recommend the enactment of a law providing for the establishment of township boards of health, with powers similar to those of cities and boroughs. Mention will be made of the relief which has been made to the overcrowded state insane hospitals by the establishment of the hospital for the chronic insane at Wernersville, and of the good which is expected to follow the erection of the State Institute for Feeble Minded children at Polk, and the Industrial school for soldiers' Orphans at Scottdale.

The governor will approve the efforts of the State Agricultural society, the Grange and kindred organizations to secure the passage of an act by the next legislature to prevent the spread of tuberculosis among domestic cattle. A measure of this kind has been prepared by Secretary Edge of the State Board of agriculture, and generally has been indorsed by the agricultural classes. It provides that when it shall be brought to the notice of the governor and secretary of the state board of agriculture that tuberculosis exists among domestic animals anywhere in the state, they shall have power to place infected animals, herds and premises in quarantine, to employ such assistance as may be necessary and regulate their compensation and the movement of animals and articles likely to convey the contagion.

It is also proposed by the bill that when it may be necessary to condemn and kill any animal or animals to prevent the spread of the disease and an agreement cannot be made with owners for the value thereof three commissioners shall be appointed, two of whom shall be one of the state treasury after they have been approved by the governor and secretary of the state board of agriculture.

TO PROTECT CATTLE.

It is also proposed by the bill that when it may be necessary to condemn and kill any animal or animals to prevent the spread of the disease and an agreement cannot be made with owners for the value thereof three commissioners shall be appointed, two of whom shall be one of the state treasury after they have been approved by the governor and secretary of the state board of agriculture.

THE DECEMBER OUTPUT.

It will be restricted to 2,600,000 tons. New Anthracite Prices. Special to the Scranton Tribune. New York, Dec. 3.—A meeting of the anthracite sales agents was held here today. After some discussion of a harmonious nature, it was agreed that the December tonnage should be 29 per cent. of the June tonnage, or 2,600,000 tons in round numbers. Prices were advanced slightly. The new circular rates for coal at \$2.50, chestnut and stove coal at \$3.50, and lump coal at \$3.75.

It is a unique sight to view at Carlsbad the motley row of drinkers of all nations, languages, manners and costumes hurrying down in single file to the boiling Sprudel Spring with an earthenware mug in their hands, or slung by a strap around their neck or over the shoulder, and patiently waiting their turn to sip of the precious fluid. For three centuries or more, all sorts and conditions of men, from the king to the tramp, have pilgrimaged hither in search of new life or relief from pain. But we cannot in these competitive days afford the time and money to travel so far afield, so it is brought to your doors bottled in its natural and original form at the Spring, or in powder evaporated on the spot, and so well known as the Carlsbad Sprudel Water, and Carlsbad Sprudel Salt. The signature, 'Eisner & Mendelson Co., Sole Agents, New York,' is on every bottle. Beware of imitations.

REUNION OF THE CORWINS.

Forty-Two Members of the Family Partake of Thanksgiving Cheer.

New Milford, Dec. 3.—A reunion of the family of S. C. Corwin was held at the home of his daughter, Mrs. H. W. Edwards, at East New Milford, on Thanksgiving Day. Mr. Corwin and his brothers, Alfred, Horton and George, were present. Their average age is 82 years, 10 months and 27 days. Mr. Corwin, the youngest of all who were present, except one son whose home is in Florida.

Forty-two persons partook of a sumptuous Thanksgiving dinner, after which remarks were made by the four old gentlemen. Music and recitations added to the pleasure of the occasion. It was decided to hold a family reunion every year and the following officers were elected and committees appointed:

W. S. Corwin, president; Mrs. Stanley Fletcher, first vice-president; S. B. Corwin, second vice-president; E. B. Corwin, treasurer; Miss Emma Melburnish, secretary. The committee on music and entertainment were Mr. and Mrs. E. D. Corwin and Mr. and Mrs. H. A. Westcott, of Scranton. All other arrangements were left to the board of officers.

The next meeting will be held in September, 1895, at the home of George L. Corwin, New Milford, and all who are connected with the Corwin family will be invited, when arrangements to more fully perfect the family organization will be made.

MR. HAVEMEYER TALKS.

Reviews the Sugar Situation to a Sun Reporter.

New York, Dec. 3.—The Evening Sun this afternoon prints the following: President Havemeyer, of the sugar trust, was seen today by a reporter of the Evening Sun.

"Work has been resumed in the refineries on a very reduced scale," he said. "I do not anticipate the passage of a free sugar bill. The Franklin refinery in Philadelphia is working with a reduced force. The Sprucefield refinery is not working at all. The Boston refinery is working with about one-half the regular force. The Madison and Wickersham refineries are working with about one-half force. The Brooklyn refinery is idle. The Havemeyer and Elder refineries are working with nearly a full force."

Mr. Havemeyer denied reports of differences with other directors. He also denied having a conference with senators at the Fifth Avenue hotel.

HOWGATE IS INDICTED.

Grand Jury Returns True Bills on Charge of Embezzlement.

Washington, Dec. 3.—The grand jury today presented two new indictments against Captain Henry W. Howgate for embezzlement. It is presumed that the forged indictments against him will hold good, as none were presented by the grand jury today for that offense.

Judge McComas, who presides in the cases against Howgate now has under consideration the indictments against Howgate originally prepared by an assistant of the attorney general's office.

Great stress is laid in one count on the fact that Howgate, at the time he was recaptured at New York was a fugitive from justice. It is said that the original indictments in the embezzlement cases will be thrown out tomorrow morning when Judge McComas will render his decision on the demurrers thereto.

INDUSTRIAL TOPICS.

Elle passes are not honored on the Delaware and Hudson company's Jefferson division. The Reading is behind \$1,183,452 for the eleven months of the year. This sum includes over a half million spent for improvements.

A Pittsburg dispatch says that another cut will shortly be made in steel rails and it is not unlikely that the price, now that they have started on the down grade, will reach \$29 before the market acquires anything like stability.

The Erie railroad does not check bicycles or allow them to be checked over its lines, but it carries them free under a release of liability when accompanied by the owner, the owner agreeing to receive and deliver the machine at the door of baggage car.

The Mount Vernon Coal company expects to have its reconstructed Archibald breaker ready for operation by Jan. 1. Twenty thousand dollars have been expended in improvements. The daily capacity will be 300 tons at first.

Of the ninety-three engines on the Pennsylvania division forty-four are equipped with the Westinghouse automatic air brake and seven others are now at the company's locomotive works for general repairs and a similar equipment. The balance of the motive power as rapidly as they can be gotten at.

The Fern Cliff breaker near Archibald is working daily to its full capacity and shipping about 180 tons of coal to market, under the management of Charles Hawley. The supply for this breaker is furnished from the culm dumps of the old Fern breaker which has recently been closed.

Chicago Stock Market. By the United Press. Chicago, Dec. 3.—Wheat—Receipts, 19,000; firm: No. 2 red cash and Dec. 56½¢; No. 2 red, 56½¢; No. 3 red cash, 54¢. Corn—Receipts, 79,000; shipments, 30,000; steady: No. 2 mixed Dec. 45½¢; No. 3 yellow cash, 45¢.

Chicago Stock Market. By the United Press. Chicago, Dec. 3.—Cattle—Receipts, 14,000; market strong; common to extra steers, \$38.60; stockers and feeders, \$23.35; cows and bulls, \$13.25-14.00; calves, \$1.50-2.25. Hogs—Receipts, 42,000; market firm; heavy, \$4.50-4.75; common to choice mixed, \$4.30-4.50; choice assorted, \$4.20-4.50; light, \$4.10-4.50; pigs, \$2.50-3.00. Sheep—Receipts, 17,000; market inferior to choice, \$1.25-1.40; lambs, \$2.40-4.10.

Philadelphia Yellow Market. By the United Press. Philadelphia, Dec. 3.—Yellow is quiet and steady. We quote: City, prime, in hogheads, 45¢; country, prime, in barrels, 45¢; do. dark, in barrels, 43¢; do. cask, 50¢; grease, 4¢.

Oil Market. By the United Press. Pittsburgh, Dec. 3.—Oil opened and lowest, 85¢; highest, 85½¢; closed at 85¢.

Mother's! Mother's! Mothers!!! Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with the best results. It soothes the child, softens the gums, allays all pain; cures whooping cough, and is the best remedy for diarrhea. Sold by druggists in every part of the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup" and take no other kind. Twenty-five cents a bottle.

loss, it is claimed, would be saved on the same coal if it went by canal from the mines direct to the distant lake ports, as Duluth, for instance, or about enough saving to pay canal toll charges on the entire 3,000,000 tons.

STOCKS AND BONDS.

New York, Dec. 3.—American Sugar led in point of activity, the sales—the stock footing up 102,000 shares in a grand total of 238,000 shares. It opened ½ higher at 85½, fell to 84½, jumped to 86½, dropped to 84½ and rallied to 85½. The early rise was due to the announcement of the purchase of its original intention of a complete shutdown of the refineries, and has ordered the cessation of work at the Williamsburg plants. This induced considerable covering of short stock, but when the president's message became public there was a rush to sell and the stock fell to the lowest point for a long time. Rumors about the dividend which is to be decided either today or Thursday helped to depress the stock feverish, in usually well-informed quarters it is believed that Havemeyer's interest favors a reduction of the dividend. It was not, however, now that the president has come out in such strong terms against the company. Chicago Gas was heavy on liquidating notes dated to 68½, influenced by rumors of a reduction in the dividend rate. The general market was weakened in the early trading by the stock market. For market news the talk about gold exports. The early decline averaged about ¼ per cent. After awhile the market cut away from the Industrials and moved up all along the line. The consumption in stock at general list ranged from ½ to 1¼, Northwest leading. The market strengthened in the late dealings by the announcement that the Lehigh Valley road had agreed to a reduction in output for December and to tide water, line and other prices. This was accepted as a meaning that the industry, general factors had been brought into line. The market closed firm, except for Sugar.

The range of today's prices for the active stocks is given below. The quotations are furnished The Tribune by G. du B. Dimmick, manager for William Linn, Allen & Co., stock brokers, 412 Spruce street, Scranton.
