Miss Slee, vulged from the fact that no check acompanied the bid, which was evidently of a free advertisement. A large gathering of bridge company

representatives attended the session and their interest in the proceedings is explained by the unusual similarity four selections were received with and closeness of the blds. The city clerk was instructed to return the certified checks of all but the five lowest bidders. A previous resolution of councils pro-

vides for a special method of awarding the contract in an expeditious manner. The joint streets and bridges committee will notify the mayor when it is ready to make its recommedations on the award, and the mayor will immediatly call a special joint meeting of councils to hear the report.

Mayor Connell's veto of the bill of \$316.60 of York street viewers was confirmed. The mayor explained in a communication that the city solicitor had refused to approve the bill on the ground that exceptions have been filed to the viewers' report, which leaves their work unfinished and makes a settlement premature.

Appropriations Are Exhausted. A communication from the city soli-

citor stating that the balance of \$421.54 in the judgment and incidental appropriation is more than exhausted, by the bills approved, to the amount of \$500; that the appropriation for repairing fire company houses is exhausted, and recommending the transfer of the viaduct appropriation of \$19,000 according to a previous request of Aug. 6, was referred to committee.

A petition of property owners that the roadway of Linden street be narrowed and the sidewalks widened between Monroe and Clay avenues, was

granted. The ordinance permitting the Scranton Traction company to double-track Franklin avenue between Spruce street and Lackawanna avenue passed third and final reading, Members Finn, Thomas, Durr, Connell, Clemons and Chittenden voting negatively.

Two amendments were made to the ordinance giving the Scranton and North End Street Railway company the right of way over certain streets in the North End. One amendment provides that the streets must be kept in proper condition by the company; the

OFFICIAL FIRE BOARD Commissioners to Be Appointed

from the Two Councils.

FIRE MARSHAL RECOMMENDED

Paid Fire Department Urged on Account of Constant Strife and Clashing in Several Companies-Trouble in the Nay Augs and Franklins.

Following a conference held yesteray morning by the promoters of the paid fire department idea, it was de-cided to finish the proposed ordinance and present it in select council at the earliest possible day. It appears that there are constant blokerings and clashing of factions in several companies, and that in two instances the strife among members has assumed serious proportions and argues for decisive action.

The ordinance in preparation provides for a board of six fire commissioners to be appointed by the mayor and to consist of three common and three select councilmen, the board to contain an equal number of Democrats and Republicans. The office of fire marshal recommended by the board of trade, insurance men and business men, will be reated either in the ordinance or in a eparate measure.

Trouble in the Companies. A sample of the present unsettled affairs in several of the companies is shown in the recent dismissal by the Nay Aug Engine company of an ap-

pointment by the mayor. Norman Griggs, secretary and treas urer of the company, and recently appointed stoker by the mayor, was dismissed by the company about a month ago. A disagreement over the details of his treasuryship was the cause of the trouble. Chief Ferber instructed Mr. Griggs to resume his position as stoker. Mr. Griggs was informed that he was an appointee of the city government and was entitled to his position until the mayor relieved him from duty and councils ratified the state of the city government and was entitled the state of the city government and was entitled to his position and councils ratified the state of the city government and was entitled to his position and councils ratified the state of the city government and was entitled to his position until the mayor relieved him from duty and councils ratified the chief execu-

A faction in the company took an op posite view of the case while others

urged Mr. Griggs to remain. The orders were so confusing that Triggs relinquished his duties and the Nay Augs have been without a stoker for a month. In the meanwhile certain members of the company preferred charges against Griggs with the mayor while the latter, with his counsel, At torney Vaughan, visited the mayor and told the other side of the story. He was instructed to retain his position, but under the circumstances has re frained from doing so. The Nay Augs will take further steps in the matter a a meeting this evening.

Franklin's Two Factions. It is an open secret that Franklin Engine company is controlled by two sets meeting, rescinding the action of the other faction at the meeting previous and vice versa. Members of several companies scurcely speak to each other

n the street. The two instances mentioned were referred to yesterday and have been talked about in fire circles for weeks.
