

FOR GOOD CITY GOVERNMENT

Meeting of the National Municipal League at Indianapolis.

REPRESENTATIVES PRESENT

The Convention for the Promotion of Good City Government Assembles for Business—Addresses by William G. Low and Herbert Welsh.

Minneapolis, Dec. 8.—The convention for the promotion of good city government met at the Unitarian church this morning. Representatives of local organizations were present from Philadelphia, New York, Cleveland, Chicago, Kansas City, Duluth, Milwaukee and other cities. The meeting was called to order by Vice-President Richardson of the National League, with a few remarks upon the movement. President Crocker of the board of trade, spoke briefly of the relation of Minneapolis to this movement, and introduced Mayor Eastus, who made the address of welcome. The response on the part of the visitors was by Professor E. J. James, of the University of Wisconsin. George Burnham, of Philadelphia, was made permanent chairman of the convention, and the programme of the day began with an address by City Attorney D. F. Simpson on "The Scheme of Government in Operation in This City."

Herbert Welsh's address on "Municipal League and Good Government Clubs" was listened to with much interest. Mr. Welsh said, among other things: "The apathy and ignorance of a great community, which has long suffered the rule of a corrupt political ring, and has had the poison of the corruption running through its civic veins is, to those obliged to deal with it, appalling. Education of the most persuasive and systematic kind is needed to overcome it. But it can be overcome, and the way to work it is to go direct to the great centers of moral influence, seek out intelligent women of all classes, women who believe in right and hate wrong. Explain to them just how the political machine fosters and protects moral evil, and at once you have obtained a powerful auxiliary force, always enthusiastic and untiring. Then go to the ministers of all denominations, choosing, as far as possible, those of deep moral convictions, of sound sense and of a courage that will not fear the protest of the moneyed powers. The good, earnest people who will help the cause are found in every class—broadly, perhaps, in that which represents great wealth. It is just here that one great incidental benefit of this work comes in: by bringing together good people, widely separated and who would not ordinarily meet, the class distinctions are erased, suspicions are removed, and a feeling of common brotherhood, a co-operation in unselfish endeavor is engendered. It is quite indispensable to effective league work that a highly equipped, able executive officer, who can give his whole time to the work, should be obtained. Such a man should be paid an adequate salary. He is the pivot on which success hinges. "The brief history of the Municipal League's work in Philadelphia is not without encouragement to municipal reformers, though the work of reform in that city is more difficult than in New York on account of that protuberance which large numbers of our 'best citizens' have given the machine. We cannot boast of a municipal wickedness so lurid and so flaunting as that to which, let us trust, Dr. Parkhurst has recently given the coup de grace, but we face a civic corruption, an indifference to public honor, a confusion of right and wrong, which is even harder to deal with, because it is interlarded more inextricably with the business, the press, the education, and even the religion of the community. Our league numbers 2,500 members, with a very encouraging increase daily."

INDUSTRIAL TOPICS.

President Wilbur is busy these days negotiating for proxies. He has little difficulty, however, in getting them. The No. 4 proving hole, Auderfield, on the South dip of No. 11 slope, is so far advanced that it will guarantee ten years' production. Last Friday 720 mine cars of coal were hoisted at No. 7 breaker, Millville. This breaks the record of hoisting in this region. Henry William Biddle, of Philadelphia, has sold to the Washington and Lake Erie Gas Coal Company 530 acres of coal lands in Peters township, Washington county, for \$125,000. The Lykens Valley vein at No. 4 Honeybrook, is about to be developed, and it is in as good condition as that at the Beaverbrook colliery. It will supply the breakers for about fifteen years. The Silver Brook No. 5 slope has been ordered to close down by Mine Inspector Stein until a better system of circulating air is introduced, and consequently every miner in the slope has been suspended. Mr. Wanamaker appears to be in great demand, these days, as a reorganizer of bankrupt railroads. Perhaps those who talk so much about him are inclined to overestimate his real worth in an unfamiliar business. The Pennsylvania canal will be abandoned this winter and will be filled up and the Pennsylvania will use the bed for railroad purposes, beginning in the spring. It is said that a double track will be built between Wilkes-Barre and Williamsport. The Lehigh Valley railroad has just issued an order compelling all trainmen to wear a uniform, and to be supplied with a Mauch Chunk and the Packerton yards to take up their residence between Mauch Chunk and Stratton, on and after Dec. 17.

week, a new basin was struck north of No. 10 Honeybrook, containing twenty-seven feet of the finest anthracite. It will take at least fifty or twenty years to mine the coal. Next spring another breaker will be constructed. The plant will give employment to upward of 400 men and boys. All the companies that are living up to the new anthracite prices faithfully and vessel freights have been arranged on the basis of 46 cents from New York to Boston, and 50 cents from Philadelphia, which, in the Inquirer's opinion, cuts off the last possible scheme for price-cutting. What a good buyer should do with an individual producer has not yet developed, possibly because there are no good buyers in need of coal at present. They all have orders in for a large amount for future deliveries. Last year the production of Nova Scotia coal was 2,497,281 tons, of British Columbia coal 1,066,989 tons, of the northwest territories coal 238,216 tons, and of New Brunswick coal 6,200 tons, making a total production of 3,808,686 tons for the whole of Canada. Of this there was exported from Nova Scotia 1,800,000 tons, from British Columbia 600,000 tons, and from the other provinces 50,000 tons, or a total of 2,450,000 tons. This left the total consumption of Canadian coal in Canada for 1900 at 2,317,000 tons, which was Nova Scotia coal and 485,000 tons of that of British Columbia. The Philadelphia Stockholder asserts, upon shadowy authority, that Coke Bros. Co. are selling their coal at Philadelphia at \$2.25 per ton, or 30 cents below the circular. This is 10 cents per ton less than the Reading is receiving, and the latter is really receiving the benefit of the cut. The Reading figures are practically equivalent to the selling price at tide-water. It is asserted that Lehigh Valley is also selling their coal at the Coke Bros. & Co.'s price. This, however, has not yet been confirmed.

STOCKS AND BONDS.

By the United Press. New York, Dec. 8.—Realizations were the order of the day at the Stock exchange. The opening was strong for American Sugar and rather irregular for the general list. Sugar receded the best figure of the week, having advanced to 93. On Tuesday the stock dropped 8 1/2. The stock figured for 75,000 shares in a total of 18,000 for the entire lot. In the last hour of trading there were heavy realizations and the stock dropped to 91. A belief that there will be some heavy shipments of sugar to the west week induced selling of the general rally, and Manhattan declined 1/4, Erie 1/2, Jersey Central 1/4, Burlington 1, Chicago & N. W. 1/2, Reading 1/2, St. Paul and Northwest 1/2, and the other issues 1/2 to 1/4 per cent. Speculation left off barely steady. Net changes show losses of 1/4 to 1/2, Manhattan leading. Lake Shore gained 1/2. The range of today's prices for the active stocks of the New York stock market are given below. The quotations are furnished The Tribune by G. du B. Dimmock, manager, 411 Broadway, Allen & Co., stock brokers, 412 Spruce street, Scranton.

Table with columns: Op'n, High, Low, Close, est. int. Includes WHEAT, OATS, CORN, LARD, and various other commodities.

Advertisement for Washburn-Crosby Flour, featuring 'Gold Medal' and 'Superior' brands. Includes images of flour barrels and text: 'The goods are yours at your own price, if you happen to be the lucky bidder.' 'UNRESERVED AUCTION SALES of C. W. Freeman's valuable and high class stock of Diamonds, Watches, Jewelry, Silverware, Brics-a-Brac, etc.'

CAUTION TO OUR PATRONS:

Washburn-Crosby Co. wish to assure their many patrons that they will this year hold to their usual custom of milling STRICTLY OLD WHEAT until the new crop is fully cured. New wheat is now upon the market, and owing to the excessively dry weather many millers are of the opinion that it is already cured, and in proper condition for milling. Washburn-Crosby Co. will take no risks, and will allow the new wheat fully three months to mature before grinding. This careful attention to every detail of milling has placed Washburn-Crosby Co.'s flour far above other brands.
