HAWAII TALK IN

Debate Over Resolution Calling for Certain Information.

EXPLANATIONS ARE DESIRED

As to the Withdrawal of American War Ships from the Cane-Producing Islands-Carlisle's Currency Cadaver Dissected in the liouse.

By the United Press. Washington, Jan. 4.-There was a very lively and interesting discussion in the senate today over Senator Lodge's (Rep., Mass.) resolution calling on the president for information as to the withdrawal of American vessels of war from the Hawailan islands. All of the Republican senators who participated in the discussion favored the adoption of the resolution, while the Democratic senators argued in favor rail trust. of its reference to the committee on foreign relations. One Democratic senator-Call, of Florida-opposed the reference and favored the resolution. The morning hour expired before any vote was taken, and the resolution lost its place on the table and went to the calendar, where it will be heard of no

The military academy appropriation ,ill was passed, with a few amendments-occupying no more time than was necessary for the clerk to read it. The pension appropriation bill was taken up, but went over without final action, and at 3.55 the senate adjourned till Monday

House Proceedings.

Today's debate on the currency bill in the house of representatives was in some respects the most notable and interesting that has occurred. The speeches of Messrs. Dingley, of Maine, and Hepburn, of Iowa, Republicans, were significant in that they were to express the purpose of the Republican majority in the next congress to proceed at once, upon its assembling, to the preparation of a revenue measure which will, in their opinion, provide enough money to meet the expenditures of the government. Nothing short of that, according to their statements, will be sufficient to remedy or remove the evils from which the treasury and the whole country are suffering. Mr. Hepburn would also go further and proceed to legislate for a most general use and coinage of silver. but Mr. Dingly was silent on that point. Representatives Hendrix (Dem., N.

Y.), also made a notable speech. He said the bill would be a failure as far as the purposes which it was sought to effect were concerned. Other speeches were made by Messrs.

Caruth (Dem. Ky.) and Gresham (Dem., Tex.) in favor of the bill. Mr. Sperry (Dem., Conn.) gave notice of a substitute he intended to offer, and Mr. Walker (Rep., Mass.) presented two additional sections to his substitute, requiring the payment of customs dues in part in gold for a certain period, and authorizing the secretary of the treasury to sell 3 per cent, bonds to cover deficiencies in the treasury and to maintain the gold reserve.

A night session was held under the

rules for the consideration of private

ATTEMPTED SUICIDE.

William C. McCane, of Denver, Becomes Tired of Life at Norristown. By the United Press. Norristown, Pa., Jan. 4.-William C.

McCane, of Denver, Colo., who claims to be a wealthy mine owner, attempted suicide in the hospital here this afternoon. He came here to visit relatives was taken ill on the street. He was taken to the hosptal and placed in one of the private rooms. An hour later he was found unconscious, having turned on the gas. The usual remedies were applied and he was restored to consciousness. He was taken to the police station, where he stated that he was sorry he attempted to take his life and said it was on account of

He is 31 years old and has a wife and family residing in Denver. He says that in the last year he met reverses in business and lost \$20,000. He had considerable money with him and promised to return home if discharged. He was released.

SHERIFF SHOOTS A DOCTOR. One of the Results of the Recent Election in Kentucky.

By the United Press.

Harrodsburg, Ky., Jan. 4.-At 11.50 this morning Sheriff John I. Van Arsdall shot and killed Dr. F. L. Harrod. The killing took place in Lawyer's Row. The physician had just returned from the postoffice, when he was intercepted by the sheriff, who opened fire on him at close quarters, firing three shots.

The killing is attributed to the recent election in this county. Van Arsdall was a candidate for re-election and was opposed by the doctor and was defeated. Dr. Harrod had many friends, and it is not unlikely that trouble will follow the killing.

ELIJAH EMERICH ACCUSED.

Another Poor Director Drawn Into the Pottsville Scandal.

By the United Press.

Pottsville, Pa., Jan. 4.-At the almshouse investigation today Justice of the Peace Partridge testified that he had drawn up the affidavits for Poor Director Day and Poor Director-elect Dietrich, which pledged the two men to stick to each other in appointments

FOR FIVE HUNDRED YEARS

and over, the whole world has been coming to Carlsbad to be cured. Disorders of the stomach, of the liver, of the bowels, of the kidneys and bladder, gout, rheumatism, diabetes, obesity --all have been sent to Carlsbad.

Here is the very same remedy now, right at your own door -- the Carlsbad Sprudel Salt, the water solidified and put into powder form at the spring.

for this year. Day was to appoint the steward, clerk and boss farmer, and Dietrich the doctor, solicitor and assistant farmer. These were the prin-cipal offices and the two men were to alternate in picking out the other twenty-four or twenty-five officials. 'Squire Partridge also swore that he was promised the clerkship by Day, who after-ward begged off on the plea that he had

to appoint some one else. At the almshouse yesterday afternoon the auditors found on examination of several of the female inmates that charges had been preferred against Elijah Emerich when he was steward, and two of the girls testified that they and Emerich had been criminally intimate.

INDUSTRIAL TOPICS.

After Jan. 1 the price of steel rails n the east, at mills, will be \$22, and at tidewater \$22.75. In the west the price will be \$23. With steel billets selling at \$15, this leaves a handsome margin

The recent placing of an order for 20,000 tons of ralls by the Pennsylvania Railroad company clearly indicates that that company at least does not look for lower prices for rails in 1895 than now prevail.

A thorough investigation fails to de velop any cutting of coal prices by the leading companies. Some of the independent, an I possibly one or two of the smaller companies, are shading their prices slightly, but the concessions are in no way affecting the trade. Coxe Bros. & Co. are holding prices to the circular. The volume of business shows an Increase, because of the cold

John G. Johnson, the noted Philadel phia lawyer, has been assigned the task of drawing up the papers for the foreclosure of the Reading road for the Olcott committee. He says the work will require careful investigation and research, and that some time will elapse before he can conclude it. A few deposits of securities have been received by the Olcott committee in the last two days.

It was fearned, yesterday, that the price to be paid for the 30,000 tons of steel rails recently ordered by the Monctary Apprehension Pennsylvania Railroad company is \$22 per ton. Last year the company paid \$24 per ton for its ralls, and the present price is the lowest it has ever been. The contracts were placed with the Pennsylvania Steel company, Scranton Steel company, the Cambria Iron company, and the Edgar Thomson Steel works

Scranton and Carbondale Traction company earnings for the fiscal year ending Oct. 31, 1894, are reported as fol-

Gross earnings	\$30,525
Operating expenses	12,496
Net earnings	18,029
Interest charges	9,000
Surplus	9,029
Earnings for the first seven	weeks

the current fiscal year \$4.543, compared with \$3,992 for the same period in the previous year, an increase of 15 per

The prospects for trade in iron and steel grow more favorable day by day, and increased activity early in the new year is confidently looked for by manu-turers east and west. Many large orders for pig iron and partly-manufac tured iron and steel products have been placed, and the outlook for aditional orders is very bright. In Pennsylvania and Ohio several of the great pig-iron producing companies have made con tracts for their ore and fuel for 1895, thus insuring work for iron-ore miners,

That President Harris, of the Reading, will receive an enormous vote at the coming annual election is shown by the fact that he has already received proxies representing 395,000 shares of stock. So far comparison of proxies has only been made with about 100,000 shares of the re-organization committee's deposits. The work of comparing the remainder will be undertaken in a few days, and it is believed it will be found that the committee has at least 100,000 shares that have not been duplicated by proxies sent to the management. It is estimated that the vote to be cast for President Harris will range

from 500,000 to 600,000 shares. Philadelphia Stockholder: "That harmony no longer exists among members of the Lehigh Valley so-called protective stockholders' committee is beyond question; it was apparent at the meeting of stockholders in Assocciation hall on Wednesday, and was more pro-nounced yesterday. According to street reports, Chairman Hutchinson is now occupying that position merely in a nominal capacity, and it is openly asserted that the Dick faction in the com-Mr. Hutchinson, on the other 'done' with the Dicks. Under ordinary

motiee wants nothing more to do with hand, is reported to have said openly at Wednesday's meeting that he was circumstances such a state of affairs would naturally lead to the belief that the dissolution of the committee was

near at hand." Philadelphia Record: "The movement to place the anthracite coal trade on a sound business basis, which has been placed in the hands of a sub-combeen placed in the hands of a sub-committee composed of T. F. Torrey, of the Delaware and Hudson Canal company; W. H. Sayre, of the Lehigh Valley, and C. E. Henderson, of the Reading companies, has not yet got fairly under way. The committee has in hand the work of preparing statistics of production, distribution, etc. ,and will make an exhaustive and comprehensive examination, and later report to the general committee. It is not expected that report can be made ready much before the close of the month, and frequent conferences will be held in order that all obtainable data may be carefully considered. The record of each company, showing its facilities for mining and distribution, will be made up, and be embodied in the report. Some of the producers and carriers are dissatisfied with their percentage of the total and the Reading officials have all along maintained that the company's percentage was too low, and that the other producers and carriers have profited at its expense. In the proposed reorganization of the trade all such matters will receive careful consideration, and the object of the presidents is to formulate an agreement that will prove satisfactory to all interests, and result in harmony and unity of action in the trade. Efforts will be made to remove every cause of existing friction, and the interests of the individual producers will be considered from the same standpoint as those of the organized

Mothers! Mothers!! Mothers!!!

You need it for constipation, for indigestion, for biliousness, just as much as in other and graver ailments. All druggists keep it. But see that you obtain the genuine imported, with the signature of "Eisner & Mendelson Co., Sole Agents, New York," on every bottle.

Mothers! Mothers!!! Mothers!!!

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain; cures wind colle, and is the best remedy for diarrhea. Bold by druggists in every part of the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

EXCEEDS

Causes of Stagnation in Trade During the Past Year.

THE CONTROLLING PEATURES

Extraordinary Abundance of Money lia Resulted from Duliness in Business Enterprises-Commodities Are at the Lowest Level in Price.

By the United Press.

New York, Jan. 4 .- R. G. Dun & Co.'s weekly review of trade tomorrow will say: Failures for 1894 are fully re-ported this week, being 13,885 in the United States and 1,856 in the Dominion of Canada. Liabilities in the United States were \$172,992,856, and in Canada \$17,616,215. Neither the decrease of over half in this country, nor the increase o over 40 per cent. In Canada is surprising, but the statement shows that most of the decrease in the United States is in manufacuring liabilities, while the increase in Canada is in Habilities of

trading concerns. A few states, including New York and Pennsylvania, show more failures than in 1893, and in a few southern states the amount of liabilities is larger, but in central and western states very much smaller. In eleven of the last thirty-eight years reported liabili-ties have been larger than in 1894, though for this year and 1893 the statement is confined to commercial failures, as it was not in former years. The failures have been 12.5 in every thousand firms doing business; the liabilities have averaged \$137.77 to each firm in trade, and in proportion to the volume of solvent business represented by all clearing house exchanges, \$2.63 for every \$1,000.

A complete review of different branches of business today places in a clear light the fact that prices of com-modities are at the lowest level ever For the year all United States railroads have thus far reported earnings of 11.9 per cent. less than last year for the same weeks or months, and

Monetary Apprehensions. During the greater part of the year business has been disturbed by mone tary apprehensions, the gold reserve in the treasury having fallen dangerously low. Extraordinary abundance of money has resulted from the general duliness of trade, and the movement to this center has been unprecedented

n volume. The condition of industries has been largely governed by the fall in prices, and, while production is much greater than a year ago, the aggregate increase being fairly measured by the increase of 8.2 per cent. in hours of work done in November. Compared with the previous year it has been the controlling feature in almost every important industry that consumption has not kept a pace with the output, and has not ustained prices. In Iron and steel the lowest prices of the year are at the close, and the lowest ever known, the lemand calling for less than half the usual quantity of rails, with large derease in many other branches, though probably the use of structural forms was larger in 1894 than ever before. The year has been especially note worthy for the lowest prices of wheat and cotton on record. Both suffer from wholly unprecedented accumulation of stocks, the crops being large,

STOCKS AND BONDS.

New York, Jan. 4.-Wall street review: Trading at the Stock exchange was less active today, the total tran-The opening of the market was featureless, but soon afterward the entire list moved up ¼ to 1% per cent., Lake Shore leading. The advance was soon checked, however, by the engagement of \$2,350,-000 gold for export to Europe tomorrow. Reports that thirty millions gold would have to be forwarded before spring in order to fill European requirement added to the bearish feeling. The decline in prices ranged from 1/2 to 2% per cent. Jersey Central fell 2% to 84% on the reiteration of the rumors that the dividends would be reduced. Chicago Gas sold down to 1% to 72% on the postponement of action on the dividend. Sugar was sold down to 87% from 89% on Washington advices that the ways and means committee will at once take up the bill abolishing the one enth differential duty. Louisville and Nashville, Missouri Pacific, Lead and a few other prominent issues declined 1/2 to 11/2 per cent. In the final dealings a steadier tone prevailed and a rally of 1/4 to 5/4 per cent. ensued. Speculation left off about steady. Net changes in the active list show losses of ¼ to ¾ per cent, outside of Jersey Central which fell 1% per cent.

The range of today's prices for the acket are given below. The quotations are furnished The Tribune by G. du B. Dim-mick, manager for William Linn, Allen &

TO OUR PATRONS:

Washburn-Crosby Co. wish to assure their many pat-rons that they will this year hold to their usual custom of milling STRICTLY OLD WHEAT until the new crop of mining Street 12 of the wheat is now upon the market, and owing to the excessively dry weather many millers are of the opinion that it is already cured, and in proper condition for milling. Washburn-Crosby Co. will take no risks, and will allow the new wheat fully three months to mature before grinding. months to mature before grinding.

This careful attention to every detail of milling has placed Washburn-Crosby Co.'s flour far above other brands.
