FORECAST OF THE WEEK

Administration Anxious Over the Trouble with Germany.

Complications Arise at Every Hand to Harnss the Unterrified Statesman. Mr. Quay Causes Consternation by Amendment to Deficiency Bill.

By the United Press.

Washington, Jan. 5,-The present week in the senate willsprobably be remarkable more for that which it will that may be done. The most signifi-that may be done. The most signifi-cant feature will be the precipitation of fail to accomplish than for snything the debate that will grow out of the proposition in the urgency deficiency bill for the collection of the income tax. This will not come up, however, until well toward the laster part of the

There will be a continuance of the incidental Hawaiian discussion growing out of the resolution of Mr. Lodge requesting the president to inform the senate why this government has withdrawn our ships from Hawalian waters, provided Mr. Lodge and those acting In concert with him are able to carry out their programme.

It is rather expected in administration circles that a batch of Hawaiian correspondence now awaiting transmission to congress will negative some of the points made in the debate as to the attitude of Great Britain.

On the third of this month Mr. Peffer gave notice that he would tomorrow call up for consideration senate bills granting a service pension to soldiers and sallors of the war of the rebellion. and this may, to a small extent, antagonize Mr. Lodge's resolution. There is a well grounded belief, however, that Mr. Lodge will succeed in continuing the debate which he on Friday characterized as a "stunning success.

The Nicaraguan canal bill, which seems to be doomed to interminable debate, still remains on the calendar as the unfinished business, and Mr. Mitchell, of Oregon, has the floor to address the senate on that subject tomorrow.

Administration Auxious. The action of almost all the conti-nental governments of Europe has increased the anxiety of the administration to do something to remove the bone of contention-the discriminating on sugar imported from those countries that pay an export bounty. A committee representing the Democratic leaders called upon Messrs. Allison and Aldrich and consulted with one or two other Republicans and presented the case to them in the hope that they would consent to such change as would eliminate this discriminating duty of one-tenth of a cent a pound from the present law. No encouragement was given those who sought the conference and finding themselves able to accomplish what they desired only through an agreement that was, as they understood it, antagonistic to Democratic principles, the Democratic leaders have abandoned the idea of attempting to repeal the obnoxious clause in the su-

without any proposed changes in the tariff laws. In this matter Mr. Quay, of Pennsylania, seems to be playing the part of free lance, as is evidenced by the amendment to the deficiency bill, of which he gave notice the other day. Mr. Quay's amendment strikes out all reference to the income tax wherever it appears in the deficiency appropriation bill and substitutes a new wool

schedule As a vehicle for debate in the hands of a man like Mr. Quay, this amendment opens up a field for discussion that is practically inexhaustive. What amount of time he will consume is but problematical and the bare possibilities of what he may accomplish is causing the Democratic leaders deep seated concern, for the days still remaining to this session are swiftly passing, and so far but one appropriation bill has passed the senate and but one other is on the calendar.

RECEPTION TO HASTINGS. Hundreds of Prominent Pennsylvanians Honor the Governor-Eject. By the United Press.

Philadelphia, Jan. 6 .- For nearly two hours Governor-elect Hastings shook hands with friends irrespective of party at the Union league last evening. Not the least enjoyable feature was the reception tendered to General Hastings' late antagonist, W. M. Singerly and the party which accompanied Mr. Singerly, among whom were Attorney General Hensel, Secretary of the Commonwealth Harrity, Comptroller of the Currency James H. Eckels, Democratic State Chairman Stranahan, Naval Officer J. Marshal Wright, Postmaster W. W. Carr and ex-District Attorney John M. Garman, of Luzerne county.

Mr. Singerly congratulated Governor Hastings; Mr. Harrity congratulated of the future, and he would have the his successor, General Frank Reeder, public construct lines in the same manand Mr. Hensel congratulated his successor, H. C. McCormick. There was no speechmaking and Governor Pattison, in warmly grasping Governor Hastings' hand, simply said that he had called to pay his respects and wish his successor the success he deserved.

THE DENVER STRANGLER.

A Confession from a Man Who Was Made Intoxicated in a Saloon.

By the United Press. Denver, Jan. 6.—Two Frenchmen, Victor Monchareux and Alphonse Lamar, are suspected of complicity in the Mar- \$5,000 per mile, which he fixed, is below ket street strangling cases. Both men the average, it is said, of the expendi-are now in jail. On Thursday night ture on the county lines now in opera-Lamar made a partial confession. He tion in the state, and the work, done by entered a saloon in the stranglers' row, the public, would still further increase and while under the influence of whisky this expenditure.

asked Tony Sahders, the paramour of Marte Contassoit, one of the unfortunate victims of the strangler, if he knew the man Challou, who brought the Contassoit sisters from France. He was plied with liquor and was questioned closely.

Monchareux, who, according to Lamar, is responsible for Marie Cintas-NUTS FOR CONGRESS TO CRACK soit's death, was under the impression that Challou had given Marie \$7,000 just before they left for the old country, and robbery was the motive. Monchareux only secured \$67 in the room where the crime was committed. On Nov. 6 a woman was to have been strangled at 2132 Market street, and plans were completed for laying boards leading from the rear entrance of the house, so that footsteps could not be traced. Some one in the alley frightyesterday, and it is expected that he will make further revelations. Mon-

INDUSTRIAL TOPICS.

chloroformed first.

Most of the producing companies find their customers can be supplied by working their collieries three days a week and this rate will hardly be exeeded during January.

A Birmingham, Ala., dispatch says: Alice furnace, employing 600 men, went in blast Saturday. The Birmingham Rolling mill added 300 men to its pay roll, making 1,000 in all. The Alabama coal output has increased to 27,000 tons a day, the largest yet."

The report that there is trouble among the employes of the Lehigh Valley railroad is denied by officials of the company, who say wages have not been reduced. They assert also that, so far as known to them, no dissatisfaction exists among the employes.

The directors of the New Jersey Cenfrom earnings a sum equal to the amount of income tax which the holders of stock would have to pay on the dividends received by them during the year. This is a new item of expense and one not expected earlier in the year.

A new order has gone into effect on the Wyoming division of the Lehigh Valley railroad whereby engineers and their crews will receive only one and one-half days for making a round trip between Packerton and Coxton, instead of two days. The company claims that the trip can be made in less time than formerly, because of the completion of the mountain cut-off. The order does not include the local freights, but all others. It affects about five crews stationed at Mauch Chunk and about double that number at Coxton,

The Reading company reports good demand for its special brands but slowly. The line and city trade remains very dull, although prices are maintained firmly. The Reading company announces that during the present year it will make no contracts for pea and buckwheat coals with dealers, and the price has been fixed at \$1.40 gar schedule and will report the bill for pea and 85 cents for buckwheat. Whether contracts with manufacturers will be made is a question now under consideration.

The preliminary statement of the anthracite coal shipments for the year to bec. 29 shows the amount sent to market to that date to have been 41,170,665 of three minutes, Mr. James gazing tons as compared with 43,089,573 fons, a decrease of 1,918,872 tons. The official fergrees will not be set for a proposal of the propo figures will not be out for a week or nore. Shipments of anthracite coal for the week ended Dec. 29 show that the several companies closely followed the agreement to restrict the output. Only 397,487 tons were shipped, or nearly 50 per cent. less than for the corresponding week of 1893, when the total was 739,830 tons. The reduction was largest in the Wyoming region, aggregating 202,827 tons, but the Lehigh and Schuylkill

Total year to date., 41,170,065 43,060,537 Dec. 1,918,87. A mammoth electric railway project s proposed by Martin Dodge, of Cleveland, the president of the Ohio Road commission of 1893, says the Electrical Engineer, noted for the advanced position it took with regard to the construction of electric roads through the country districts. His latest project involves millions, but he is very confident that he will be able to carry it through. It is nothing short of a proposition to build a great network of electric lines all over Ohio at the public expense. He believes the electric road is the system ner as canals and highways have been built in the past, and are being built now. He thinks the time is ripe for an act under which the state and counties may join hands, and construct electric roads between all the county seats in the state, the lines to be operated by private enterprise on lease, after they immense work and the state the remainder. He estimates that this would require 4,000 miles of road, and would cost over \$20,000,000. The estimate of

JUDGE TAYLOR HAD A GUN

Sensation Created in the Venango County Court House.

ATTACK ON DEPUTY SHERIPP

Laboring Under the Delusion That th Deputy Had Been Spying on His Actions the Judge Points a Loaded Revolver at the Officer.

By the United Press.

Franklin, Pa., Jan. 6.-Yesterday afternoon President Judge Charles E. Taylor, who has served sixteen years ened Monchareux away just as he had as judge of Venango county, attempted to have been robbed, but the plan failed. | lor went into the sheriff's office in the Lamar confessed all this to the police | court house, and after exchanging a few words with Deputy Sheriff Shoe macher, started to abuse him, calling chareux has been in jail in California. him all sorts of vile names. He was ordered out of the office, but instead of Marie Contassoit, Lamar says, was leaving he walked over to the deputy who was sitting down at the time, and endeavored to hold him in his chair.

Shoemacher succeeded in arising and got hold of the judge, telling him to leave the office. With curses, the judge resisted, and exclaimed fiercely "I'll shoot you," and drawing a loaded re volver, pointed it at the deputy, who quickly grabbed the pistol hand and probably thus saved his life. H. Smith, an oil producer, was in the office at the time, and Marshall Phipps, deputy pro thonotary, who was passing the door ran to the deputy's assistance.

After a hard struggle the three mer succeeded in overpowering the judge and got the revolver from him.

Judge Taylor is 74 years of age. Lately it appears that he is laboring under a delusion that Sheriff Shaner, Deputy Sheriff Shoemacher and Register and Recorder Frank Barr, have been following and spying upon his actions.

A short time before the attempted shooting the judge met Sheriff Shaner tral railroad have decided to deduct and Register and Recorder Barr in the corridor of the court house and began abusing them, calling them vile names and finally striking the sheriff in the face. On account of the judge's age Mr. Shaner let the matter pass and walked away. It is understood that suit will be entered against the judge by the deputy sheriff for pointing fire arms. Mr. Shoemacher has consulted an attorney, but it was not divulged what action will be taken.

HENRY JAMES' NEW PLAY.

It Is Received with Jeers and Howls and the Gallery Calls It Rotten.

By the United Press. London, Jan. 6 .- Henry James' new play, "Guy Dormville," was given at St. James' theater last evening. Although splendidly mounted and well acted, it was a stupendous fallure. Like the author's novels, it is an ana-Its hard white ash coals are moving lytic study of character. Perhaps in the form of a novel it might succeed,

the footlights. They were received withstumultous hooting, groaning, and nervously from position to position.

Later, Mr. Alexander, alone, answered demands for a speech by telling how pained he was to experience such a rebuff after the many kind receptions that had been given him. The company had worked very hard to do justice to the play, he said.

"'Tain't your fault, guv'nor," came from the gallery, "It's the rotten play." More howls followed this, and Mr. Alexander disappeared in confusion His remarks are regarded as ill advised, for they tended clearly to throw the whole blame for the failure on Mr. James' shoulders.

Bad drainage causes much sickness, and bad blood and improper action of the liver and kidneys is bad drainage to the human system, which Burdock Blood

STOCKS AND BONDS.

New York, Jan. 5 .- Speculation at the Stock exchange today showed few features of interest. Distilling and Cattle Feeding developed some strength. Jersey Central was also strong, advancing to 87 and receded to 86. American sugars, Lead and Missouri Pacific were the weak spots, falling from % to 11/2 excepting Missouri Pacific, which sold 2% lower. Sugar was pressed for sale.

sales were 67,000.

The range of today's prices far the active stocks of the New York stock mar-ket are given below. The quotations are furnished The Tribune by G. du B. Dimmick, manager for William Linn, Allen & Co., stock brokers, 412 Spruce street,

TO OUR PATRONS:

Washburn-Crosby Co. wish to assure their many pat-rons that they will this year hold to their usual custom of milling STRICTLY OLD WHEAT until the new crop is fully cured. New wheat is now upon the market, and

owing to the excessively dry weather many millers are of the opinion that it is already cured, and in proper condition for milling. Washburn-Crosby Co. will take no risks, and will allow the new wheat fully three months to mature before grinding.

This careful attention to every detail of milling has placed Washburn-Crosby Co.'s flour far above other
