MR. O'MALLEY'S TWO MEASURES

A Bill Providing Bond for Tax Collectors and Providing Plumbing Inspectors for Large Cities-Prominent Scrantonians to Be at Inauguration.

Special to the Scranton Tribune.

Harrisburg, Pa., Jan. 14 .-- Representative O'Malley introduced two bills in the house this evening to change the method of tax collection in boroughs and townships. The measures were prepared under the supervision of and have been approved by the Lackawanna county commissioners. One of the bills provides that tax collectors shall give a judgment bond to be approved by the county commissioners. The other by them. Under existing legislation when taxes are paid within sixty days the collector is only allowed 2 per cent. This has caused much trouble throughout the commonwealth, as tax collectors refuse to file bonds and collect county taxes under the present arrangement.

Mr. O'Malley also introduced a bill providing for the registration of plumbers in cities of 20,000 and upwards with a board to be composed of two practical plumbers, two master plumbers and a plumbing inspector. The bill makes it the duty of the plumbing inspector to inspect all plumbing work, sewerage and drain with especial reference to samitation.

WRANGLE OVER INCOME TAX

Maryland's Senator Consures the Course of Mr. Hill and Appeals to the Republicans to Aid in Preventing the Bankruptcy of the Treasury.

By the United Press.

Washington, Jan. 14.-The senators and a large number of spectators in the senate galleries were entertained for five hours today with speeches by Senators Gorman (Maryland) and Hill (New York) on the subject of Mr. Hill's mendment to the urgent deficiency bill, by which he seeks to confer on the United States court jurisdiction (in advance of the collection of the income tax) to decide upon its constitutionality

Mr. Gorman discussed with great earnestness the condition of the treasury and opposed warmly any proposition that would impede the collection of revenue. In doing so he criticised very freely Mr. Hill's whole course in regard to the tariff law. Mr. Hill defended his position and retaliated upon the Maryland senator with an equally severe criticism of his course.

the Democratic party undertook it. The bill was a compromise measure; and no bill could have passed the senate except by a compromise. The senator

from New York was not a party to that compromise. There is something in the atmosphere of northern New York, which, it seems to me, makes it impossible for a statesman from that section, ever to compromise (laughter). Does Not Favor Increased Debt.

The question then was-the McKinley act or the pending bill; but the senator from New York told his colleagues on me my way, or you shall never pass the bill." In that compromise we put this

senator from New York for antagonizing the provision if it were not for the fact that while we were considering the tariff bill he not only opposed the income tax feature of it, but he joined

with all the extreme tariff reformers who wanted to cut down the revenue from customs. If that senator had had his way, he would have had five hundred millions of bonds to issue in order to pay the current expenses of the gov-

ernment between that time and 1897. I could never follow a leader who would deliberately put this government in a position to increase the national debt to pay its current expenses. I do not believe that a national debt is a na-

supplying additional revenue and reforming the currency, as he had co-operated in repeal of the Sherman law. Mr. Hill (New York) replied to the

speech of Mr. Gorman, who should, he said, have confined himself to a vindlcation of his own course instead of trying to put other senators in a false po-
