TALES OF TWO PITTSTONS

A DEMAND FOR MODEST HOUSES

Splendid Opportunities for Capitalists. Miss Webber's Experience with a Dog. Mystery of a Floating Sealskin. Personal and Other Notes.

Special to the Scranton Tribune.

Pittston, Pa., Jan. 21.—We are growing. Constantly advancing on every hand. Advancing in industries, advancing in government, and most of all advancing in population. Even with our many new and improved dwellings erected within the past year on both sides of the river, our real estate agencies are unable to supply the ever increasing demand for comfortable houses of a moderate rental fee. An official of the Lehigh Valley Railroad company recently expressed a desire that more of his employes should move to Pittston, as it was much more convenient and would save a great amount of time and unnecessary travel to and from their work. His men, or their representatives, came to our city and after a thorough canvass found that it would be impossible for them to find dwellings within their means. The season is now ripe, with a new city charter, new manufactories and the re-organization of our board of trade, for our merchants and property holders to place before our would-be citizens houses that will make both adequate and pleasant homes.

The great fire sale will commence at J. B. Kirby's furniture store on Wednesday next and will continue until the entire stock is closed out.

Who Is the Owner?

A mysterious article was seen on the river early this morning which created considerable comment. The attention of a gentleman crossing the lower bridge was called to a lady's seal skin muff floating on the surface of the water. The incident may give evidence to another case of self murder. The muff had to all appearances been in the water but a short time. It may have been dropped from the ferry or Delaware, Lackawanna and Western railroad bridges. The nearest wagon bridge up the river is located at Tunkhannock.

We wish to rectify the error made in our letter this morning in regard to the sufferers to be aided by the West Side Methodist church. Their efforts are to assist the impoverished settlers in Nebraska. The collection taken yesterday morning amounted to $52, with many contributions of clothing, etc. The Pittston agents of the United States and National Express companies have very kindly offered to forward all goods to the sufferers free of charge.

Patrick Monghan died at his home in Port Griffith last Sunday evening at 5.30 from injuries received at No. 11 shaft some time ago. The deceased is survived by his wife and four children. Funeral will take place Wednesday at 9 a. m.

All complaints of non-delivery of The Tribune should be reported to our local office, 8 South Main street.

Bitten by a Vicious Dog.

Miss Theresa Webber, of Center street, was bitten by a savage dog on Saturday last. The dog was owned by a Polander and has been complained of as being very cross and vicious. The dog, without apparent cause, sprang upon Miss Theresa, throwing her to the ground, and succeeded in forcing his fangs into the flesh near the thigh. The screams of the girl attracted the attention of some workmen, who, with shovels, succeeded in driving off the brute. The Polander has been feeding his dog with fresh meat and whiskey for some time past. Burgess Maloney has issued an order that the dog be disposed of immediately.

The lady friends of the Eagle Hose company will meet tomorrow (Wednesday) night at the hose parlors, to arrange for the coming fair, Feb. 22.

The great fire sale will commence at J. B. Kirby's furniture house and continue until the entire stock is closed out.

WHAT YOU NOTICE

at first, perhaps, in taking the Carlsbad Sprudel Salt regularly, is a decrease in weight. It is getting rid of all the unhealthy, unnatural flesh and tissue---if you have any. That is what makes it so valuable in cases of obesity.

But after that, if you are thin already, the firm, sound, healthy flesh that you need comes in a thoroughly natural way. Your digestive organs are put into perfect condition; your appetite is sharpened; there's no waste; the food that you take nourishes you.

No matter whether you're too stout or too thin---the Carlsbad Sprudel Salt brings you to the proper, healthy standard, either way.

Take no imitations sold as "improved" or "artificial" Carlsbad Salt, which are only mixtures of ordinary Glauber Salt and Seidlitz Powder, sold by unscrupulous dealers in order to make larger profits. The only genuine imported article has the signature of "Eisner & Mendelson Co., Sole Agents, New York," and the seal of the city of Carlsbad on every bottle.

INDUSTRIAL TOPICS.

There were 13,885 business failures in the states last year.

The Pullman company has declared a dividend of $2 a share, payable Feb. 15 to holders of record Feb. 1.

The railways in Ohio, carried 85,000,000 passengers the last two years without a fatal accident to one of them.

Shipments of Pocahontas coal over the Norfolk and Western railroad for the week ended Jan. 12 increased 5,172 tons.

The Philadelphia Record intimates that the Lehigh Valley railroad may soon have an independent line from Bethlehem to Philadelphia.

It is estimated that the gross earnings of twenty-nine railroads for the second week of January decreased 1.67 per cent., and those of seventy-five roads for the first week decreased 1.6 per cent.

The year 1894 placed to its credit a total production of 30,000,000 barrels of oil from the Pennsylvania fields. This is only three-quarters of a million barrels short of the production of 1893. But while the producer sold his oil at an average price of 64 cents in 1893, the oil he produced in 1894 brought him over 84 cents a barrel.

The New York Sun says: "The value to the anthracite coal carrying companies of even a slight advance in rates is brought out clearly in the recently issued annual report of the Lehigh Valley railroad, in which the statement is made that an increase of .076 of a cent per ton per mile would have increased the revenues of the company $1,400,000."

Among the important actions that are expected to come up in court this week from Carbondale is that of C. P. Hallock vs. Stroud & Chamberlain. The suit is one for damages, the claim being that Mr. Hallock's property was undermined by the coal operators of the firm, that coal was taken therefrom and that the surface was also left in a dangerous condition.

Eastern lines are experimenting with an appliance to avoid rear-end collisions in case of accident. It is a simple carriage to run back on the rails, the motive power being a rocket, which can be exploded in any kind of weather. The carriage holds a quantity of Greek fire, which is lighted with the rocket, the propulsive power of the latter being sufficient to send the carriage back 3,000 feet. The most dangerous accidents are rear-end collisions, and this device will almost certainly obviate the danger of such accidents.

The proposed overland route from America to Europe, via the Trans-Siberian railway, is one of the biggest enterprises of the country, and is progressing at such a rapid rate that the Russian government is looking forward to its completion in 1901. The western and central portions, reaching down to Irkutsk at the foot of the Baikal, and the extreme eastern portion from Vladivostock are to be ready for use between 1896 and 1898, and the government is pushing on with the Baikal connections, so as to get them finished by the same date, if possible.

CAUTION

TO OUR PATRONS:

Washburn-Crosby Co. wish to assure their many patrons that they will this year hold to their usual custom of milling STRICTLY OLD WHEAT until the new crop is fully cured. New wheat is now upon the market, and owing to the excessively dry weather many millers are of the opinion that it is already cured, and in proper condition for milling. Washburn-Crosby Co. will take no risks, and will allow the new wheat fully three months to mature before grinding.

This careful attention to every detail of milling has placed Washburn-Crosby Co.'s flour far above other brands.
