We note by the Scranton Tribune that the ballots for Lackawanna county, exclusive of the city of Scranton, cost the taxpayers \$21 per thousand. Doubtless the price is none too high, as every printer who has had experience with that sort of work knows it is the most exacting and trying in its nature, especially at a spring election, when such frequent changes of form have to be made. The ballots for this county are being printed at the New Age office and cost the county less than \$16 per thousand. When it is considered that some of the townships have but about forty voters, and none run above 500, it will be seen that the price is exceptionally small.
