BASKET BALL AGONY NOT OVER

Pittstouians Bite the Dust - Improve ments on the West Side-Burglars at Clear Spring Coal Office-Coming Amusements-Serious Accident.

Special to the Scranton Tribune. Pittston, Feb. 17.-Our alert and graceful basket ball players were taken advantage of in a disrespectful manner at Scranton Young Men's Christian Association hall on Saturday night. For reasons best known to the Scranton league the official umpire, Hessel, of Wilkes-Barre, was not present. George Jay, of Scranton, acted in his stead, and was very partial in his decisions favoring the home team on nearly every instance. Eugene Smith, of Pittston, acted as referee and fought hard guard, Malott, left guard, Murphy; right center, Gillern; center, Reese; left center, Milliard; right forward, Levi; forward Coleman: left forward, Koch. Weeks; right forward, Blackburn; forward, Bryden; left forward, Evens. The four men who were suspended from the Scranton association the first of this month were re-instated, as sufficient evidence was not produced against them. They continued the same rough playing as was introduced into the game here at Plitston, Score: Scranton, 6; Pittston, 3

There are many persons who believe that citizens of the Second ward will make no mistake by voting for John Jordan for alderman of that ward. Mr. Jordan, they argue, has all requisites necessary to fill such an important office, and they cite the fact that he has served five consecutive terms as justice of the peace of the upper district. Politics entirely apart, it is generally admitted that he is a man of sterling character and of strong judicial ability. He is well known throughout the city as an estimable gentleman. Bills That Will Be Considered by Congress During the Week.

HOPE FOR A TALK ON FINANCE

Bill to Authorize the Building of Dams One Hundred Feet High Across Two Minnesota Rivers to Come Be-

fore the House. By the United Press.

Washington, Feb. 16.-With five appropriation bills still unacted upon and but two weeks more of this session before it, the senate will not be inclined to discuss matters other than appropriation bills this week. The hope of getting a vote in the senate on the vaclous financial propositions has not been dtogether abandoned. It is believed that some agreement may be reached after the sundry civil bill is out of the way. The coming week will be required to pass the Indian bill and the sundry civil bill, which will be reported to the

senate tomorrow Tomorrow will be suspension day in the house, and arrangements have been made by which gentlemen in charge o several measures that have hitherto attracted more or less attention and occupled a greater or less amount of time will be recognized to ask that they be passed under suspension of the rules Among these are the following:

The bill to increase the efficiency of the revenue marine service by establishing a retired list in connection there with. This bill is earnestly advocated by the treasury department, and is be lieved to have the support of a large majority of the house, but hitherto Mr Clark (Dem., Mo.) has been successful in taking it out of place and preventing a vote.

The bill to equalize the pensions o he veterans of the Mexican war, making them \$12 under the general law.

The Big Dam Bill. The bill to authorize the construction of dams across the St. Louis and Cloquet rivers, Minnesota, by the Altamente Water company. This proposition involves the largest project ever undertaken in the west-the construction of a dam 100 feet high, 700 feet in thickness at the base, and 190 feet wide at the top. Primarily, it is undertaken to supply the city of Duluth with water; incidentally, a power estimated at 600,000 horse power will be developed that may be used for manufacturing the city and source of supply is a range of low hills about 100 feet high, and the dam is necessary to carry the water shares,

over that. dian affairs (which had jurisdiction because the building of the dam would flood the Fon Du Lac reservation), but a minority of the committee interpose a vigorous dissent, because, for one reason, they are not satisfied with the financial ability of the water company to carry out the project; that it has many of the unstable features of a boom, which If not carried out would end in destroying confidence in the resources of that section of the country and would partially retard its prog-

Speaker Crisp has notified the gentle men in charge of these several measures that they must have a quorum on hand to promptly dispose of them or they will be required to give way to other business. The consideration of the naval appropriation bill and o the general deficiency bill, which Mr kinridge has given notice he will call up as soon as the former is out of the way, will probably occupy the res of the week, save Saturday, which has been set apart for the delivery o culogies upon the late Senator Vance of North Carolina.

TO OUR PATRONS:

Washburn-Crosby Co. wish to assure their many paterons that they will this year hold to their usual custom of milling STRICTLY OLD WHEAT until the new crop is fully cured. New wheat is now upon the market, and owing to the excessively dry weather many millers are of the opinion that it is already cured, and in proper condition for milling. Washburn-Crosby Co. will take no risks, and will allow the new wheat fully three

months to mature before grinding.

This careful attention to every detail of milling has placed Washburn-Crosby Co.'s flour far above other
