whose apartments are located in the Morgans block, on North Main avenue, had a very narrow escape on Saturday from injuries which would have proved serious if not fatal. He was engaged in preparing his celleloid heater for immediate use, and had filled the apparatus with steam. As he was about to

leave the room the heavy iron door of the heater was forced open by the pressure of the steam, and hurled with violent force against the building, making an indenture in the waterpipe. The door just grazed the doctor. Had it struck him he would have been serious or acquittal.

ROOF TINNING AND SOLDERING All done away with by the use of HART-MAN'S PATENT PAINT, which consists of ingredients well-known to all. It can be applied to tin, galvanized tin, sheet iron roofs, also to brick dwelings, which will prevent absolutely any crambling, crack-ing or breaking of the brick. It will out-last tuning of any kind by many years, and it's cost does not exceed one-fifth that of the cost of tuning. Is sold by the job or pound, Contracts taken by ANTONIO HARTMARN, 527 Birch St.
