CHAPTER VI.

By the time Meryon, Chase and the others arrived, the young monarch was well settled on his throne, and was showing himself a wise, skillful and merciful administrator. He welcomed the artist with heartfell joy, and they told all their adventures to each other. Meryon was given a suite of rooms next to the prince's own, and they were

always together, with Chase in the chair as moderator. The prince expressed regret at the miscarriage of the Terah affair. He had no better substitute to offer than Senuah, who was his half-sister by another mother and Terah's father-a rather obscure and roundabout relationship.

"She's a nice girl," said Meryon, "and her birth would be no obstacle; but I'm not marrying just now." "We haven't got any airtight harems in the states yet," commented Chase;

"but we may come to it later." "I still shall hope to visit you some time in New York," said his highness, "and see the white house and the ward politicians and the other things. Meantime, the misfortune that keeps you on this divan is my gain, for it compels you to stay with me."

"You must thank Chase." replied Meryon, with a moody grin; "he won't treat it as I advise," "The man imagines that the bullet is

still in the wound," Chase explained. "His real trouble is the block of wood In his head, which will come away only with the head itself."

"I wish I were assure of the whereabouts of the hollow ruby as of that bullet," Meryon observed; and, having said this, he shut his eyes as if intend-

In fact, he remained motionless and seemingly asleep for about twenty minutes, during which the prince and the surgeon conversed in low tones and smoked their nargitehs.

Then Meryon opened his eyes and fixed them upon Chase, with a strange

'Horace," said he, in a busky voice "something queer has happened. I've been back in that cell in the big rock. and saw myself there as I was when those fellows threw me in. I saw all I

did while I was in there-and I know

"that became of the ruby!"
"Oh! that's it, is it?" returned Chase, lipping his fingers on his friend's pulse, and winking to the prince to numor the sick man's fancy. "We were just wondering what had become of

You think I'm cracked, but the story will prove I'm not," contined the other, speaking with emphasis, but not wildly. "I lay stunned for awhile; when I came to I was delirious-and that's the reason I wasn't able till now to remember what happened. But the ruby was on my mind and the first thing I did was to hunt in my pocket for it, and there it was all safe. I tried to get it in my mouth, but for some reason I couldn't understant-it was the gag, of course-it wouldn't go in." "Well?" said the surgeon, regarding him with mingled perplexity and in-

"Then I thought I was standing in front of a safe in a vault," Mervon went on, "and I was being hunted by thieves who wanted to get the ruby from me The safe wouldn't open. I felt all over It in the dark to find an opening; at last I found one-a small hole in the upper part-but, when I touched it, omething sharp came through and gave me a jab so that I yelled with pain. But the thieves were close up by that time, and my only chance was to get the ruby through that hole, if I died for it. So just as they appeared, I made a desperate effort and crammed it in; and got a lab that sent me off unconscious again. The next thing I knew-however, that's no matter. The ruby is in that hole."

"What does the boy mean?" said Chase, impressed by the force and vividness with which the tale was told. "I understand him," interposed the

A cough is usually the telltale of a weakened physical condition. Correct that condition by the use of a proper remedy and the cough will soon disappear.

Scott's Emulsion of Cod-liver Oil and Hypophosphites acts in two ways. It nourishes, strengthens and builds up the system, at the same time allays the irritation and heals the inflammation. It gives immediate relief at night from the choking sensation so often accompanying a cold.

cleared up and I should have been a "Horace, you don't mean towell man by this time. I knew there was something there, and naturally supposed it was a bullet; but there's no arguing with a man who can't see farther than his nose. Get your instruments, now," he added, testily, "and have the job over. If it hadn't been for my vision I should have gone to my last accounts, I am happy to add, there grave with that confounded talisman my body and a cloud on my reputation. Let this be a lesson to you?

It is not necessary for us to assist at a surgical operation. In ten minutes it was over. The hollow ruby, cleansed from its gory stains, was lying upon a white satin cushion, upon which it shed its glorious light. Meryon was reclining on the divan with an expression of pardonable self-satisfaction on his pallid features. Chase was looking subdued and thoughtful, and the prince

"Meryon, my friend, the jewel is ours. My only sorrow at its loss was that I was thus prevented from giving it to you. No less precious a keepsake would be worthy of our friendship. If it bring you no good fortune, may it at least remind you of the youth who loved you, to whom in his obscurity you were as a light of day and the warmth of the sun at noon."

This was very handsome; too much so, indeed; and Meryon would have declined the gift on the spot but from unwillingness to hurt the prince's feellngs, Perhaps, however, it was not unite so valuable as the prince sup-

oosed. I saw it last year in Meryon's studio and I must say that it seemed to me * * * * but, after all, I am not an expert in those things. Hatipha, in another attempt to

scape, fell headforemost into a waterbutt and was wedged in so tightly that he drowned before they could get him out. As for Senuah-ah, yes! there is something to tell about her. She made herself very useful and

agreeable during Maryon's conval-escence—a period of a month or more. But for her skilful and tender nursing he might have been bedridden twice as long. He and Chase had agreed to go home to New York together as soon as he got well. But one morning the surgeon came into his room, and, after examining him and pronouncing him fit to travel, added: "By the way you'll have to excuse me."

"What for?"
"About going home, I mean; I shall have to stay here for the present. The

prince, gravely, "The stone is in his fact is, I have another patient-at

you understand!" "If you don't regret it, my dear boy you may be sure I shan't," replied Meryon, with a broad smile; and up to seems to have been no cause for dissatisfaction. Yet we should not get, in considering the incident, that it is an exception and not a precedent
