Pure Blood

It is absolutely necessary in order to have good health. The greatest affliction of the human race is impure blood. There are about 2400 disorders incident to the human frame, the large majority arising from the impure or poisonous condition of the blood. The best remedy for all blood diseases is found in Hood's Sarsaparilla. Its remarkable cures are its loudest praise. It is not what we say but what Hood's Sarsaparilla does that tells the story. No remedy has ever had so marked success, or won such enormous sales. Scrofula in its severest forms yields to its potent powers, blood poisoning and all other diseases are permanently cured by it. For a general Spring Medicine to remove those impurities which have accumulated during the winter, or to overcome That Tired Feeling, nothing equals Hood's Sarsaparilla.

He had already signed the contract, and that the burgesses has no authority to veto it. The burgess claims that a late act of the legislature empowers him to veto any measure upon which he sees fit to spill ink, and that the vote of five members out of the six is necessary to pass it over his head.
