STOCKS AND BONDS.

New York, March 6.-The stock market during the early dealings was firm and a more cheerful tone characterized the trading. Prices moved up anywhere from ¼ to I per cent., Delaware and Hudson, Chicago Gas, Louisville and Nashville, the grangers, Manhattan and Lead being prominent in the upward movement. Chicago Gas got up to 71% on western rumors that the Ogden Gas franchise was not as valuable as at first supposed. In the afternoon there was a selling movement in New Jersey Central, New York Central, Sugar, Louisville and Nashville, and Western Union. The transactions were heavy, especially in Baltimore and Ohio. Sugar was weaker and sold down to 91%. COLD AND COUGH CURES

GUARANTEED TO CHECK A COLD IN A FEW HOURS AND PREVENT GRIP AND

Colds lead to coughs, coughs to Grip. Pneumonia and Consumption;; therefore, it is all important to check a cold before it reaches the lungs. Munyon's Cold Cure will positively break a cold inside of 'twenty-four hours if taken as soon as the cold manifests itself. When the cold reaches the lungs or bronchial tubes the Cough Cure should be used alternately every half hour with the Cold Cure. The Cold Cure is guaranteed to prevent pneumonia if used in the beginning of a cold. Pneumonia, or inflammation of the lungs can be controlled by the use

of these two cures. The Cough Cure positively cures bronchitis, tickling in the throat, hoarseness loss of voice, soreness of the chest, difficulty in breathing, backing cough and all pulmonary diseases where the lungs are not too far decomposed or covered with tubercles.

If you are alling, step into the nearest your disease or how many doctors have falled to cure, it will give you relief.

Those who are in doubt as to the nature of their disease should address Pro-fessor Munyon, 1505 Arch street, Phila-delphia, giving full symptoms of their disease. Professor Munyon will carefully diagnose the case and give you the benefit of his advice absolutely free of all charge. The remedies will be sent to any address on receipt of retail

matter over roofs of buildings by electric cars traveling on a wire cable. The inventor says he has discovered a new principle of harnessing the electric current without the use of a return wire. It is estimated that a saving in time over the present method of fifty minutes in every hour can be made. The cost of construction is put at \$250 a mile.

General Superintendent Wilbur, of the Lehigh Valley railroad, has issued an order, in effect March 1, that no empty four-wheel coal cars must be brought from Packerton to the Wyoming region except by special orders, and no four-wheel coal cars shall be loaded for points west of White Haven. This order will prevent many wrecks that are caused by the small cars being made up into a train with large gondolas, and the trainmen and officials are therefore much pleased with the

TO OUR PATRONS:

Washburn-Crosby Co. wish to assure their many pat-rons that they will this year hold to their usual custom of milling STRICTLY OLD WHEAT until the new crop is fully cured. New wheat is now upon the market, and owing to the excessively dry weather many millers are of the opinion that it is already cured, and in proper condition for milling. Washburn-Crosby Co. will take no risks, and will allow the new wheat fully three months to mature before grinding. months to mature before grinding.

This careful attention to every detail of milling has placed Washburn-Crosby Co.'s flour far above other
