OUTRAGE BY WHITE CAPS

The Family of George Wagner Shamefully Abused by Masked Men.

BURNED MR. WAGNER'S FEET

Six Cowardly Robbers Armed with Revolvers Terrorize a Family While in Search of Plunder-Other News from Pittston.

Special to the Scranton Tribune. Pittston, March 7 .- One of the most dastardly outrages upon record was perpetrated last evening on the family of George Wagner, of Exeter borough.

Mr. Wagner is a respected farmer, somewhat advanced in years. His famfly consists of himself, wife, a granddaughter about 16 years of age, and a a hired man whose name could not be learned. All four were at home last evening, after supper. Mr. Wagner was reading, while the others were whiling the evening away with a game of domi-

Suddenly, at about 7.40 o'clock, they were startled by the noise of a number of men outside of the house. Before they had time to investigate, the door was opened without ceremony, and five men entered-all with revolvers in their hands and all having white clothes cov-ering their faces. A sixth man, simarmed and disguised, remained outside the door, guarding the same, after having closed the window blinds from the outside on the front of the house.

Inside, without much ado, the desperadoes took possession of the house. The hired man was tied, being the one most likely to cause them trouble, while the others were guarded. Without doubt, the object of the band was robbery. At any rate they ransacked every Michael O'Malley, has removed to her room in the house. Not a drawer or a box was left untouched, and the articles were scattered about in wild occupy the house vacated confusion. All that rewarded the robbers were a few dollars in change. Finally, the robbers, discovering no money, turned upon the aged husband and wife and threatened them with vengeance if they refused to reveal where their money was hid. They protested home today. that there was no money in the house. but this did not satisfy the gang. In a final desperate effort to extract something from Mr. Wagner, they removed his boots, and, with a shovel heated at the stove, scorched his feet painfully. Even this torture failed to resuit in anything satisfactory, and finally, when they had threatened Mrs. Wagner with the same treatment, and received from her further protestations good music should not fail to witness that there was no money in the house, the grand and inspiring noonday parade the gang gave up the job, and made good their escape.

Before doing so, however, they commanded the now thoroughly terrorized inmates of the house not to follow them, or even go outside of the house, on pain of being shot. The people were so badly frightened that they obeyed the injunction to the letter, and it was not until 7 o'clock this morning, when they saw a neighbor passing, that they ventured out to tell the thrilling story.

The older members of the family were experience. The young girl of the house-hold was the most seriously affected. She was terribly frightened by the 193,521 tons. operations of the desperadoes and her nervous system sustained a severe shock. For a time her condition was serious. Dr. Johnson was called this March 11 the through rate tariff on coal morning to attend her.

and coming away, but no suspicions the Wagner house this morning and The authorities have been notified, and ferret out the desperate gang.

This morning Mrs. Wagner picked up on the floor of the house a 32-caliber the coal. They have, therefore, given cartridge, which evidently had been notice to the Lehigh Valley and Jersey dropped by one of the robbers.

IS IT THE END?

A Time of Great Mortality.

Especially Noticeable in Children. - Will Man Cease to Exist? - Can the "Omega" be Averted?

Why is it, with our improved sanitary appliances, our care to obtain fresh air, pure food, and plenty of exercise, the observance, in fact, of every hygienic law, that in spite of every care each succeed-ing generation seems to become weaker and shorter lived? Is it that we are now suffering for indiscretions of our ancestors, or is that terrible, unknown end of man at hand?

Whatever the cause, the existing condition of things is too apparent. Especially is this noticeable with the babies. Instead of the mother's life-giving milk, they are compelled to begin a struggle for existence with the bottle. The result in many cases is disastrous. The little one, failing to obtain necessary nourishment, grows weaker daily, until death ends the struggle. The end in these cases is

Simply Starvation. With this termination so often the case, the best physicians of the day have resorted to the use of Bovinine, that great and original raw food product, as a means

to save the babies. In this connection Dr. A. B. Robinson, 61 Dudley St., Boston, after commending Bovinine most highly for various complications where the waste of disease must be checked, and new blood, flesh, and strength created to effect a cure, says concerning this life-creating preparation,
"With feeble, bottle-fed babies, a small
amount added to the milk has in my
practice saved many children."

Bovinine is not a medicine, but a life-maintaining, flesh, bone, and blood-making preparation that contains the greatest amount of nourishment in the least possible bulk.

Give it to the little ones while there is still hope. Your physician, if you ask bless the results obtained forever.
